PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Berlin is all set for an amazing event as PULSUS proudly presents the "4th International Conference on Innovative and Smart materials" slated on February 27-28, 2019 at Berlin, Germany.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Smart Materials professionals from around the world to participate in the upcoming Smart Materials 2019. The meeting for this year will revolve around the theme "**Appreciating Innovative Smart Materials for a Smart future**" thus relaying the most cutting edge findings in the field of Smart Materials. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Smart Materials 2019
Organizing Committee

Conference Highlights

- Classification of Smart Materials
- Smart Structures and Materials
- Properties and Characterization of Smart Materials
- Actuators and Sensors as Smart Materials
- Robotics and Future
- Automation and Impact
- Shape Memory Alloys
- Materials for green and smart food packaging
- Smart Materials using Nano-technology
- Smart Materials in Medical Sciences
- Materials for regenerative medicine, drug delivery and cosmetics
- Self-healing Hydro-gels
- Smart Textiles in Clothing
- Smart Combat Suits
- Sun Exposure Monitoring Sensor
- Materials for Safe Environment
- Electrostrictive Polymers for Energy Harvesting
- Carbon Fibre Reinforced Concrete (CFRC)
- Applications of Smart Materials
- Future Scope of Smart Materials
- Smart Materials in Global Market

About PULSUS

PULSUS
WWW.PULSUSCONFERENCE.COM

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

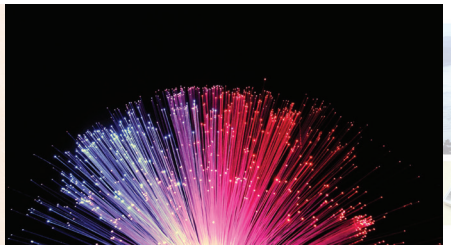

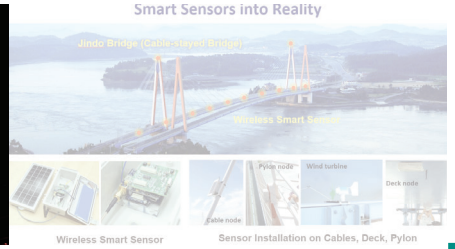

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

PULSUS
WWW.PULSUSCONFERENCE.COM

Smart materials are those materials which have properties to react to changes in their environment.This means that one of their properties can be changed by an external condition such as light, pressure, temperature.So Smart Materials are defi ned as “Materials that can signifi cantly change their mechanical, thermal, optical, or electromagnetic properties, in a predictable or controllable manner in response to their environment” as there are many possibilities for such materials and structures in the man made world many innovations are happening in the fi eld of material science that are enough smart to help human beings in an any of the ways like structural health monitoring, self repair, Defense and Space, Nuclear Industries, Reducing wastes. Smart materials also have many applications in different fi elds of medicine and engineering and and the rise in demand for the smart materials is enough to believe that there is a great scope for the smart materials in the future. So this conference is about bringing out the new smart and innovative ideas from the people belonging to the material sciences from all over the world for the smart future.

Target Audience

- Mechanical engineers
- Chemical Engineers
- Civil Engineers
- Automobile Engineers
- Material Science Engineers
- Industrial Engineers
- Mechanical universities
- Medical Colleges
- Research faculty
- Academic Scientists
- Students
- Diagnostic laboratory professionals
- Business Entrepreneurs
- Industry professionals
- Directors/Managers/CEO’s
- Presidents & Vice Presidents
- Brand Manufacturers/ Marketers of Consumer Products
- Marketing, Advertising and Promotion Agency Executives

Who should attend?

- Nano-Scientists
- Material science Research scholars
- Healthcare Students, Scientists, and professors
- Science, Medicine and Technology Professionals
- Business Entrepreneurs
- Advanced software developing companies

Why to attend?

- 10+ Keynote Speaker Session
- 50+ speaker faculty over 2 full days sharing The Knowledge of Material Sciences
- 5+ Workshops
- 13 Interactive sessions
- Mixture of Business and Academia Delegates
- Networking
