Speakers Representation from 50+ Countries

1 Conference | 2 Days | 3rd Conference in Spine Series

15 Keynote Talks | 75 Plenary Speakers | 17 Interactive sessions

Symposia | Workshops | Best Poster Award

200 Attendees | 50 Professors | and many more...

WELCOME MESSAGE

Greetings!

The Organizing Committee of Spine 2021 has the pleasure to invite you all to attend the "***6th World Congress on Spine and Spinal Disorders***" to be held in Dubai, UAE on the 6th and 7th of December 2021.

We are very proud to promote the dissemination of scientific knowledge and strengthening the friendship among the professionals working in the complex and challenging field of Spinal Disorders. After the resounding success of Spine 2019 and under the guidance of Spine 2021 scientific committee, we are looking forward to an outperforming scientific program.

The Spine 2021 will emphasize on building top-notch keynote lectures, speaker sessions, workshops, and young researchers forum that flags high tech progresses at the global level. Subsequently, there will be symposia, case discussions and exhibitions demonstrating new theories and practise in spine and it's subspecialties.

We are also glad to invite eminent professors, scientists, surgeons, residents, and fellows around the globe to propagate the most advanced idea and technologies in spine care.

Dubai is the world's leading international business centre and is central to the various universities, educational institutes and research facilities whose expertise business or academic can be strengthened.

We are passionately working to ensure this meeting be a grand success and a memorable to the participants. We look forward to seeing you all in Spine 2021 and hopefully to enjoy the hospitality of the Emiratis.

Sincerely

Luciana Alice

Organizing Committee

ABOUT 2021 CONGRESS

We are back again! Conference that dedicated to Innovate Solution to the Public Health Challenges, one conference which future the shape of spine healthcare, neurosurgery and the disorders associated. Our Conference will organize and allow to access the global researchers around the world in a single platform. Spine 2021 will provide a great opportunity beyond any comparison to attend and network with Spine and Spinal Disorders.

Join us at our 2021 edition of Spine and Spinal Disorders to Experience the Global Ambiance with the Researchers who work with similar significance of research. Spine 2018 will help you to get answers to all your queries related to your research work and also it creates an great opportunity to make new associations and also helps to foster potential partnerships. Spine 2021 will be an great platform for you to create long lasting relationship with the fellow researchers from spine healthcare Community.

Get worldwide acknowledgement to your research profile where more than 55000 Visitors who analyzed our conference website to attend and submit proposals of their research work. Where this was recorded as the highest number of Visitors from both, developed and developing nations. While we penetrate the study of visitor, navigation, and traffic patterns to determine the success of our conference website majority amount of traffic we receive from cities like New York, London, Valencia, Amsterdam, Madrid, Barcelona, Athens, Sydney, Paris, Frankfurt, Tokyo, Osaka, Melbourne, Moscow and Vienna.

Spine 2021 website is attracting 56000+ Neurologists, Neurosurgeons and Psychiatrists, Brain Researchers, Neuro Oncologists, Pharmacists, Research scientists, spine Organizations and societies, Pharmaceutical companies, Neuro and CNS drug Industries, Neuroscience associations, Professors and Students..

This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Spine 2021 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

AGENDA AND MOTIVE

Purpose

With members from around the world focused on learning about Spine Surgery and its advances; this is your best opportunity to reach the largest assemblage of participants from the Spine Community. Conduct presentations, distribute information, meet with current and potential scientists, make a splash with new discoveries in the neurosurgical treatment and diagnosis, and receive name recognition at this 2-day event. World-renowned Speakers, the most recent techniques, developments, and the newest updates in the field of Neurospine Surgery and its advanced treatments which includes Neuroplasticity, Computational Neuroscience, Neuro Physiotherapy, Key-hole Spine Surgery, Minimally Invasive Spine Surgery, Spinal Cord Injury, Spinal Rehabilitation, Disorders, Robotic Neurosurgery are hallmarks of this Spine 2021 Congress..

Goals

- The congress program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration.
- The goals of the congress is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Spine Disorders and spine surgery to present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address Spine Diseases and Spine Deformities and overcome barriers that limit access to spine care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Spine and Spine Disorders
- Discuss and apply recent research findings related to Spine Disorders
- Disseminate the diverse voices of breakthrough innovators with visionary and practical solutions.

Who should attend?

Neurosurgeons, Spine Surgeons, Allied Health Professionals, Scientists, Researchers, Scholars, Academia, Professionals, Students, Diagnostic Laboratories, CEO'S and R&D Heads from Industries, Business Delegates and Spine Societies.

Diverse Action-Oriented Programming & Networking

EXPERIENCE: Inspiring change around the country and world, growing a revolution of diagnosing and treatment of various spinal disorders. The major focusing topics are spine surgery, scoliosis, spinal stenosis, biomechanics of spine, spinal tumor, disc degeneration, and spinal injuries & fractures.

EXPLORE the forefront of breakthrough ideas and models in electrifying morning keynote talks, featuring luminaries and "the greatest people you've never heard of."

PARTICIPATE in afternoon panels and workshops/symposiums on diverse topics of Spine Education, Practice and Research, and Spine Diseases Life more!

NETWORK with a community of leadership – dynamic change makers from around the country and world, or from your region, to develop important professional and personal relationships.

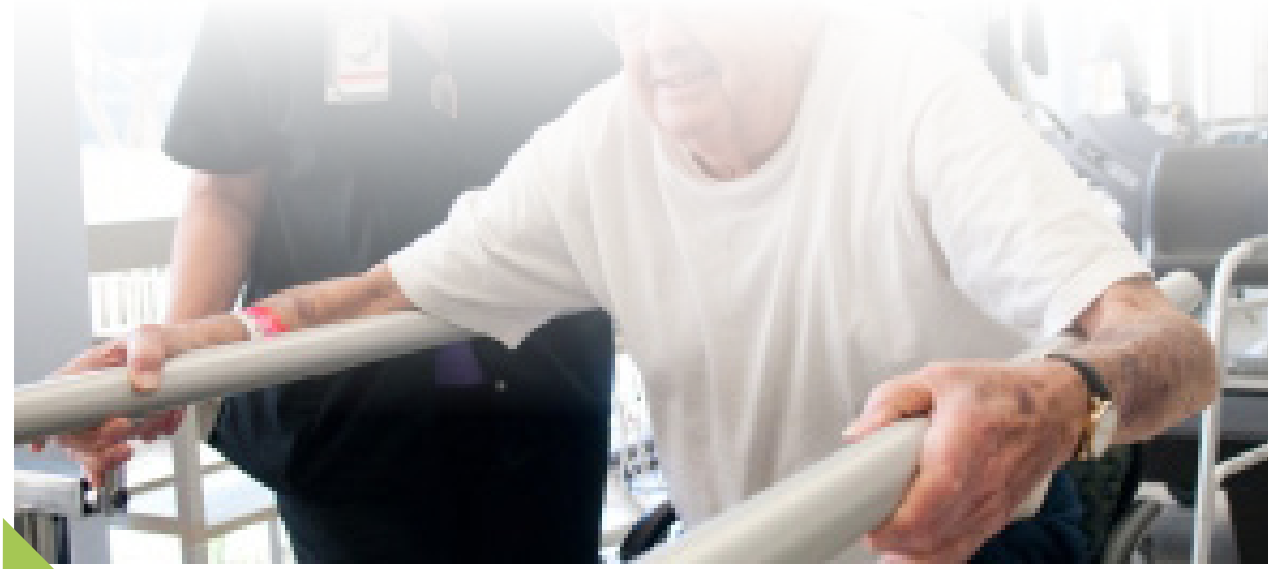

SHARE your insights and learning at the conference in participatory and experiential workshops.

DISCOVER powerful opportunities and strategies for creating and engaging with progressive change in your work, life and community.

CELEBRATE how great a difference one person can make, and how building community amplifies that change.

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

ACCREDITATION STATEMENT

CONFERENCE OVERVIEW

Scientific Sessions

- Spine Diseases and Spine Disorders
- Spinal Deformities - Scoliosis, Kyphosis, &
- Lordosis
- Miscellaneous (Spondy, Trauma, Tumor,
- Infection etc.)
- Spinal Dysraphism
- Spinal Cord Injury (SCI)
- Spinal Pain
- Spinal Cord Compression
- Aging Spine
- Spine During Pregnancy
- Paediatric Spine Disorders
- Spine Genetics
- Degenerative Spine Diseases
- Intervertebral Disk Degeneration and
- Repair
- Osteoporosis and Spine Fractures
- Osteoarthritis of the Spine
- Spine Biomechanics
- Diagnosis of Spinal Disorders
- Treatment of Spinal Diseases
- Surgical Approaches to the Spine
- Minimally Invasive Spine Surgery
- Spinal Cord Stimulation (SCS) and
- Implants
- Non-Op Treatment Methods
- Spinal Cord Tissue Engineering
- Quality/Safety/Value/Complications
- Spinal Rehabilitation and Nursing Care
- Case Reports and Debate on Spinal
- Disorders

Spine 2021 Outlook

Explore the best in Cutting edge Research

Change to learn beyond your field of Interest

Keynote sessions by worlds most eminent and distinguished researchers

Conference Participation Inspires, Rejuvenate and Energize participants

Spine 2021 an unique platform to increase your reputation within the spine health-care Sector

Learning and Knowledge in a single package

Speaker's representation from 50+ Countries

1 Conference | 2 Days and 3rd conference in the Row

Spine 2019 Report

The 5th World Congress on Spine and Spinal Disorders, with the theme “Spine Health! Straightening out Facts from Fictions”, was successfully held on Oct 16-17, 2019 at Holiday Inn Rome-Aurelia, Rome, Italy with around 200 participants from 30 countries, including Italy. Other major countries represented on high numbers include USA, UK,

UAE, Colombia, Chile, Brazil, Turkey, Kuwait, Japan, Taiwan, Ghana, and India.

The Spine 2019 witnessed a commixture of unrivalled speakers who were inculcated the congregate with their expertise on various novel topics in the field of Neurospine Surgery and Spinal Rehabilitation. This highly dignified congress was hosted by PULSUS Group with a remarkable attendance of notorious research scientists, industry leaders, and talented young research communities from more than 30 countries globally. The Spine Congress has encompassed every aspect of the spinal disorders, including all the potential research areas and underlying allied health research.

The Spine 2019 was comprised with various discussions on novel topics such as Spinal Cord Injury, Intervertebral Disc Repair, Minimally Invasive Spine Surgery, Spinal Rehabilitation, and the impact of Spinal Diseases on other allied areas of the Central Nervous System. The theoretical knowledge shared at Spine 2019 will foster the research collaborations and accelerate the patient care outcomes.

The Spine Congress was inaugurated with an astonishing introduction by the honourable members of the organizing committee and keynote forum. All the speakers have played their role in the form of enlightening presentations to drive this congress to greater success.

PULSUS Group is privileged in extending its warm gratitude to all the organizing committee members, eminent speakers, young scientist, delegates, exhibitors and students. We would like to thank the following people who drive this event to a successful one.

Organizing Committee Members

Wagih El-Masry, Keele University, UK
Michele Romano, Italian Scientific Spine Institute, Italy
Akhil Chhatre, Spine Rehabilitation, The Johns Hopkins University, USA
Aladine A. Elsamadicy, Yale New Haven Hospital, USA
Hiroshi Kuroki, University of Miyazaki, Japan
Jiao-Chiao Yang, Lohas Spine Hospital, Taiwan
Honourable guests, keynote speakers, and chairs
Michael J DePalma, Virginia iSpine Physicians, USA
Walter Bini, Healthpoint Hospital, UAE
Ali Fahir Ozer, Koc University, Turkey
Chi-Huan Li, IRCAD and Chang Bing Show Chwan Memorial Hospital, Taiwan
Gibran Franzoni Rufca, Hospital Santa Casa de Ourinhos, Brazil
Simone Cristina Wirbiski Retechuki, Federal University of Parana - UFPR, Brazil
Marianna Chierchia, University of Campania Luigi Vanvitelli, Italy
Andreina Martinez Amado, Nueva Granada Military University, Colombia
Maria Gabriela Sanchez Paez, Foscal Clinic, Colombia
Lyudmila Gross Fernandez, FOCOS Orthopaedic Hospital, USA
Vijay Janagama, Suvitas Holistic Healthcare Pvt. Ltd, India

Moderators

Wagih El-Masry, Keele University, UK

Chi-Huan Li, IRCAD and Chang Bing Show Chwan Memorial Hospital, Taiwan

Exhibitor and Media partners

With great pride, we thank our exhibitor Dr. Manuele Camolese, CEO of Multiossigen – Ozone Technology for exhibiting the benefits of Oxygen-Ozone (O2 O3) Therapy in treating the Intervertebral Disc Diseases. It has opened up a way for spine surgeons to gather a broad spectrum of idea on this innovative method in treating Lumbar Disc Herniation.

We are pleased to thank all our media partners for taking this event to a broad spectrum around the globe. Our key supporting media partners are

Kind Congress, Jooble, CN1699, OnlyMerit, Medical Tourism Directory, and Jobsora,

The Spine 2019 would not have reached the pinnacle if not with the support of International, multi-professional steering committee and coordination of the Journal of Neurology and Clinical Neuroscience and The Neurosurgery Journal hence, we express our deep sense of gratitude.

AN INTRO TO DUBAI

Dubai, an emirate in the United Arab Emirates is popular for modernistic construction and bold architecture, luxury shopping, business hub for middle east, and of course lively nightlife scene. An 830m-tall tower, Burj Khalifa, overlooks the skyscraper-filled skyline. Speaking of artificial islands, just offshore is Atlantis, The Palm, a resort with water and marine-animal parks. At its foot lies Dubai Fountain, with jets and lights choreographed to hymnography. Dubai recently won the bid for the World Expo 2020.

It is a superlative-craving society that has birthed audaciously high buildings and palm-shaped islands. It is an open society where it's easy for newcomers and visitors to connect with myriad experiences, it may be eating, dancing on the beach, shopping for local art or riding a camel in the desert.

Dubai was rated as one of the best places to live in the Middle East by American global consulting firm Mercer. Dubai Creek played a vital role in the betterment of living of the society in Dubai originally and was the set point which caused the commercial growth in Dubai. The Dubai Miracle Garden, a 72,000-square meter flower nursery, originated in Dubai estate. It is currently the world's largest flower garden. It has 45 million flowers with re-use of wastewaterthrough drip irrigation.

why Dubai

Dubai is the one of the popular city in the UAE and is considered as an important center for higher education healthcare, well reputed and prestigious colleges and Universities around and in Dubai. 1000's of researchers, neurologists, therapists, and Spine surgeons are working solely on Spine neurological disorders in Dubai. The spinal cord damage is dealt with by the world-class specialists in the Dubai with the advancement of restorative research and compelling medications. Dubai conferences indeed play a vital role in promoting scientific information and ideas all over the world. It can be estimated as a proper means for the sharing of valuable information about research and new progressions worldwide.

The conferences being held here would benefit a diversity of scientific approaches among contenders belonging to diverse areas of science and technology. They serve as a significant center of gravity for reputed and profoundly affiliated global scientific leaders and provide an opportunity for reviewing the various research highlights at an international podium.

Dubai offers a rich, social scene of UAE. You will get yourself astonished by the cuisine, the workmanship, modernistic construction and bold architecture, luxury shopping, a business hub for the middle east, and of course lively nightlife scene and the vacationer destinations. Many individuals take their vacation in Dubai consistently to appreciate the casual way of life.

Dubai Weather- August:

Weather-wise, November is considered one of the best times to visit Dubai. Dubai is hot, dry and windy year round, but the cooler November temperatures of around 18°C to 31°C mean there's very little humidity. There's also very little rainfall, just 0.2 inches expected over the entire month.

Currency: dirhams

Transport within Dubai:

Bus

The bus network in Dubai is run by the Roads and Transport Authority. These buses connect all the major landmarks and tourist spots of the city and are very comfortable.

Metro

This is one of the most commonly used and efficient modes of public transport in Dubai. It does connect to the Dubai Airport – and some of the major tourist destinations such as the Mall of the Emirates and the Burj Khalifa.

Taxis

Taxis are a convenient way of getting around Dubai. Easily available throughout the city, you will always find a long line waiting outside shopping malls and other attractions. Starting with a minimum of Dh 3, the fare increases at a rate of Dh 1.60 per kilometer.

Water Bus

This is an economical and preferred way to travel from Bur Dubai to Deira and vice versa. Fares for the water buses range from Dh 1 – Dh 4, depending on the route you take.

Driving

Vehicles are driven on the right side of the road and you need to have a credit card and a domestic and international driver's license if you wish to hire a car in Dubai. However, this is not recommended due to the several traffic congestions which are expected throughout the day.

Abras

Dubai's quaint mix of new and old is nowhere more evident than in its simple, wooden water taxis that cruise along the 10-meter Creek, transporting people across.

Water taxis

Whereas the abra is confined to navigating the Creek, Dubai's relatively new fleet of water taxis, operated by the RTA, are able to navigate the waters of the Arabian Gulf.

Dubai Ferry

The Dubai Ferry is as much a tourist thing to do as it is a public transport system, allowing visitors and residents to view the city from the sea and get a glimpse of some of Dubai's iconic buildings.

Dubai Tram

The Tram is a rail system that is part of a modern integrated public transport system that provides efficient and quick access to the densely populated areas of Jumeirah Beach Residence, Dubai Marina, and the business areas along Al Sufouh street.

Palm Jumeirah Monorail

The Palm Monorail is a privately-owned transport system designed to take tourists or residents from one end of the Palm to the other.

Dubai International Airport

Dubai International Airport is a hub for Emirates and FlyDubai and has a large duty-free shopping center. The airport has won numerous awards for its excellence in design and services.

Accompany Partners' Policy:

We respectfully remind you that partners accompanying delegates/speakers are not eligible to attend conference sessions and do not qualify for refreshments and lunches during the day unless they have registered.

Any partner wishing to attend events not previously selected and paid for in his or her registration may do so at the Conference Registration desk.

We would be pleased to accommodate any requests where possible.

Registration and Accommodation

Policy:

Registration and accommodation changes will not be accepted unless made in writing.

Changes made within 14 days of the event may incur costs due to specific hotel and venue policies

Cancellation Policy:

Registration cancellations will not be accepted unless made in writing.

Cancellations request made before September 25, 2021 will be refunded less 25% of the Conference Registration fee, to cover administration costs.

No registration refunds will be processed after this date, however, substitute delegates are welcome.
