11TH INTERNATIONAL CONFERENCE ON

SPINE AND SPIANL DISORDERS

APRIL 14-15, 2025 | DUBAI, UAE

INVITATION

Welcome to the 11th International Conference on Spine and Spinal Disorders – Spine 2025!

It is with great pride and anticipation that we invite you to the 11th International Conference on Spine and Spinal Disorders, taking place on April 14-15, 2025, in the stunning city of Dubai, UAE.

This conference serves as a beacon for the global spine care community, offering a platform to challenge conventions, explore innovative breakthroughs, and discover actionable solutions that advance the care of spinal disorders.

The theme, "New Pathways for Spine Care: Innovations and Solutions," reflects the urgency to address evolving challenges in spine care by embracing transformative practices and cutting-edge technologies. It underscores the importance of reimagining care pathways to improve outcomes, optimize treatments, and enhance the quality of life for patients with spinal disorders.

We invite you to join us on this remarkable journey of innovation and impact. Together, let us redefine what is possible in the realm of spine care and pave the way toward brighter outcomes for patients around the world.

We eagerly await your presence in Dubai!

Warm Regards,

Jenny Mariela | Program Director

ABOUT US

Since many years **Pulsus** has also been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international conferences and meetings.

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

With a legacy of 35 years of excellence in Medical Publishing we are endorsed by various societies like International Academy of Cardiovascular Sciences, International Society of Addiction Medicine, European Biotechnology Thematic Network Association, World Federation of Paediatrics Intensive and Critical Care Societies, World Association of Medical Sciences, International Society for Ceramics in Medicine, Thalassaemia International Federation and World Association of Integrated Medicine to nurture the research and development for the beneficence of society.

MARKET ANALYSIS

The global spine devices market is on a strong growth trajectory, valued at USD 59.36 billion in 2024. The spine care field is evolving rapidly, fueled by technological advancements, an aging population, and growing awareness of innovative treatments. Key trends include minimally invasive surgery, robotic systems, and AI, all enhancing precision and patient outcomes. Biologics like regenerative implants are advancing healing and biomechanics, while increased healthcare investments and strategic industry partnerships are driving innovation across spinal implants, neurosurgery, and rehabilitation technologies.
