13TH INTERNATIONAL CONFERENCE ON

SPINE AND SPINAL DISORDERS

April 20-21, 2026 | Dubai, UAE

INVITATION

Dear Participants,

On behalf of the organizing committee, we extend a warm welcome to all participants joining the 12th World Congress on Spine and Spinal Disorders , scheduled for April 20–21, 2026, in Dubai, UAE.

We are truly honoured to have your valuable participation at this prestigious international event dedicated to advancing spine and spinal healthcare. Your involvement — whether as a speaker, delegate, exhibitor, or researcher — plays a vital role in shaping insightful discussions, sharing breakthrough innovations, and fostering meaningful collaborations within the global spine community.

Spine 2026 provides an exceptional platform to exchange ideas, explore emerging technologies, and engage with leading experts in spine surgery, rehabilitation, robotics, and regenerative medicine.

Together, we aim to promote excellence in spinal science, improve patient outcomes, and inspire future innovations that redefine global spine care.

We look forward to your active participation and to making Spine 2026 a memorable, enlightening, and impactful experience for everyone attending.

ABOUT US

Since many years **Pulsus** has also been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international conferences and meetings.

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

With a legacy of 35 years of excellence in Medical Publishing we are endorsed by various societies like International Academy of Cardiovascular Sciences, International Society of Addiction Medicine, European Biotechnology Thematic Network Association, World Federation of Paediatrics Intensive and Critical Care Societies, World Association of Medical Sciences, International Society for Ceramics in Medicine, Thalassaemia International Federation and World Association of Integrated Medicine to nurture the research and development for the beneficence of society.

MARKET ANALYSIS

The global spine devices market is on a strong growth trajectory, valued at USD 59.36 billion in 2024. The spine care field is evolving rapidly, fueled by technological advancements, an aging population, and growing awareness of innovative treatments. Key trends include minimally invasive surgery, robotic systems, and AI, all enhancing precision and patient outcomes. Biologics like regenerative implants are advancing healing and biomechanics, while increased healthcare investments and strategic industry partnerships are driving innovation across spinal implants, neurosurgery, and rehabilitation technologies.
