PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Rome is all set for an amazing event as PULSUS proudly presents the "3rd Advances in Cell & Stem Cell Research Congress" slated on September 25-26, 2019 at Rome, Italy.

Stem Cell Research 2019 offers opportunity to go to the presentations conveyed by eminent experts from everywhere throughout the world. Participating in Stem Cell Research 2019 gives an approach to meet, cooperate with, and make contacts with different specialists in your claim to fame region. Stem Cell conferences unite people who have an enthusiasm for various fields of Cancer Stem Cell,Nanotechnology In Stem Cells, Regenerative Medicine, Reprogramming Stem Cells and Ethical Issues from practice, research, administration, policy and education.

Regards
Stem Cell Research 2019
Organizing Committee

Conference Highlights

- Stem Cells Biology
- Hematopoietic Stem Cells
- Embryonic Stem Cells
- Induced Pluripotent Stem Cells
- Stem Cell Niches
- Stem Cell Banking
- Stem Cell Transplantation
- Stem Cell Therapy
- Cancer Stem Cell
- Stem Cell Epigenetics
- Tissue Engineering and Regeneration
- Regenerative Medicine
- Reprogramming Stem Cells
- Nanotechnology In Stem Cells
- Stem Cell Technologies
- Advancements and Application of Stem Cells
- Commercialization and Marketing Around the Globe
- Ethical Issues and Challenges Around the Globe

About PULSUS

PULSUS
WWW.PULSUSCONFERENCE.COM

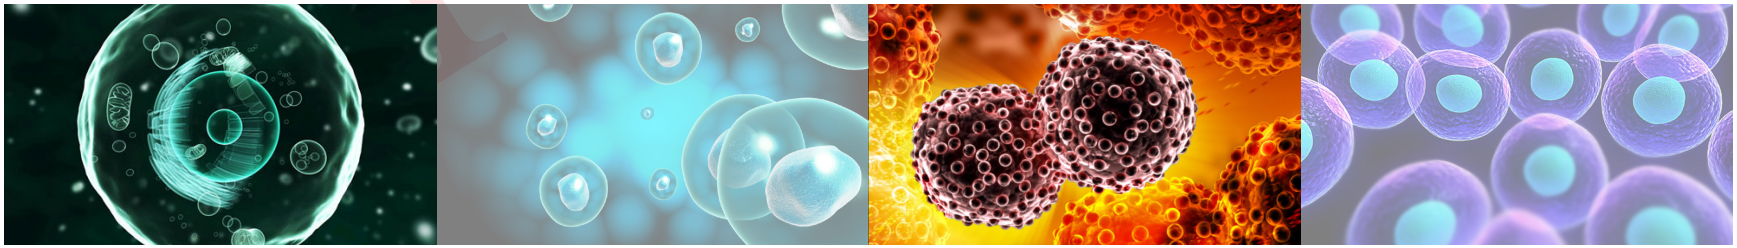

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the American Board of Psychiatry and Neurology (ABPN), American Neurological Association (ANA), American Society of Neuroimaging, Neurological Society of India, Indian Academy of Neurology, Arizona Neurological Society , California Neurology Society.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

The global stem cells market is expected to grow at an incredible CAGR of 25.5% from 2015 to 2022 and reach a market value of US$297 billion by 2022. The emergence of Induced Pluripotent Stem (iPS) cells as an alternative to ESCs (embryonic stem cells), growth of developing markets, and evolution of new stem cell therapies represent promising growth opportunities for leading players in this sector.

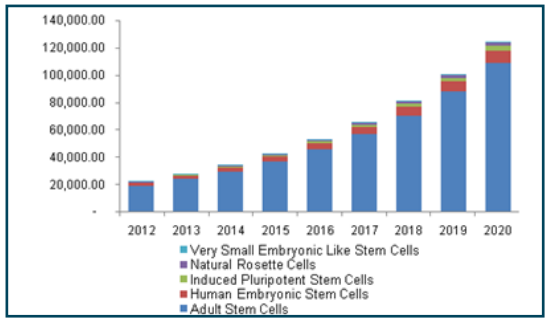

Due to the increased funding from Government and Private sector and rising global awareness about stem cell therapies and research are the main factors which are driving this market. A surge in therapeutic research activities funded by governments across the world has immensely propelled the global stem cells market. However, the high cost of stem cell treatment and stringent government regulations against the harvesting of stem cells are expected to restrain the growth of the global stem cells market.

Whereas the Europe Stem cell market is estimated to grow at a CAGR of 9.45% by the end of the forecast period of 2018-2026. The market is chiefly progressing due to increasing R&D investments in adult stem cell research in the region, ease of administration and the growing incidences of chronic disease due to the changing lifestyles of the population.

The countries analyzed in the Europe Stem cell market are UK, France, Germany, Spain, Italy and rest of Europe. Most of these countries have a stable economic environment, enabling their population to spend more on their health. In this report, the Europe stem cell market has been segmented based on technology, product and applications. At present, the regenerative medicine application accounts for a high revenue share. Because of their use in regenerative therapies, stem cells are increasingly finding applications in the fields of neurological and hematological disorders, and in areas such as organ transplants, Crohn's disease, systemic lupus, and infertility.

The worldwide Stem cell & regenerative medicines market is functional with several parameters like product type, application, sources, geography and users. In focused to the product type stem cells market is divided into human embryonic stem cells, adult stem cells, IPsec's, etc. Whereas, regenerative medicines applied the potential of these stem cells to regenerate, repair & replace tissues or the organ which are affected due to injury, natural aging process, and some diseases.

Target Audience

- Academicians including Professors, PhD Scholars, Post Doc, Students carrying out laboratory and field of studies from Cell Biology, Stem Cells, Tissue Engineering, Regenerative Medicine, Cancer Stem Cells and the people Associated Professionals, Clinical Laboratories and Technicians, Researchers from research institutes along with members of Supply Chain Companies, Manufacturing Companies, Training Institutes, Business Entrepreneurs etc.

Who should attend?

- Gene Therapy Scientists
- Stem Cell Researchers
- Emeritus and Academic professors
- Cell Biologists
- Genetic scientist
- Molecular Biologists
- Stem Cell research students
- Business Entrepreneurs
- Drug Manufacturing Companies
- Stem cell Developers and Investigators

Why to attend?

Stem Research Conference provide a worldwide platform for sharing information and ideas and keeps on updating about the latest innovations and advancements in the field of Cell Biology and Stem Cells. Opportunity to attend the presentations delivered by Proficient Scientists from all over the world.

Benefits:

- Accepted abstracts will be published in Journal of Biomedical Engineering: Current Research and Journal of Microbiology and Biotechnology Reports.
- Global networking: In transferring and exchanging Ideas
- A Unique Opportunity for Advertisers and Sponsors at this International event

About City and Venue

PULSUS
WWW.PULSUSCONFERENCE.COM

For many, Italy is one of the dream destinations of their life. With 50 UNESCO World Heritage Sites, innumerable cultural artifacts, buildings, and archaeological sites from the Roman Empire and the Renaissance periods, along with the quaint Alpine villages and towns in the north of the country and fascinating Mediterranean coasts to the south, Italy is justifiably the 5th most visited country in the world. Italy consistently ranks amongst the world's most-visited countries. Rome is the capital of Italy, also the country's largest and most populated commune and fourth-most populous city in the European Union. The Metropolitan City of Rome has a population of 4.3 million residents. The city is located in the central-western portion of the Italian Peninsula, within Lazio (Latium), along the shores of Tiber River. Vatican City is an independent country within the city boundaries of Rome, the only existing example of a country within a city: for this reason, Rome has been often defined as capital of two states. It is referred to as "Roma Aeterna" (The Eternal City) and "Caput Mundi" (Capital of the World), two central notions in ancient Roman culture. One of the most important cities, Rome, was founded in 753 B.C. by Romulus.

Culture: Rome has been a centre for music with a thriving musicscene as it houses some prestigious music conservatories. It is one of the most popular cities for tourism for it archaeological and artistic treasures, views and unique traditions.
