6TH INTERNATIONAL CONFERENCE ON

STEM CELLS RESEARCH AND THERAPY

AUGUST 24-25, 2026 | VIENNA, AUSTRIA

INVITATION

STEM CELL 2026

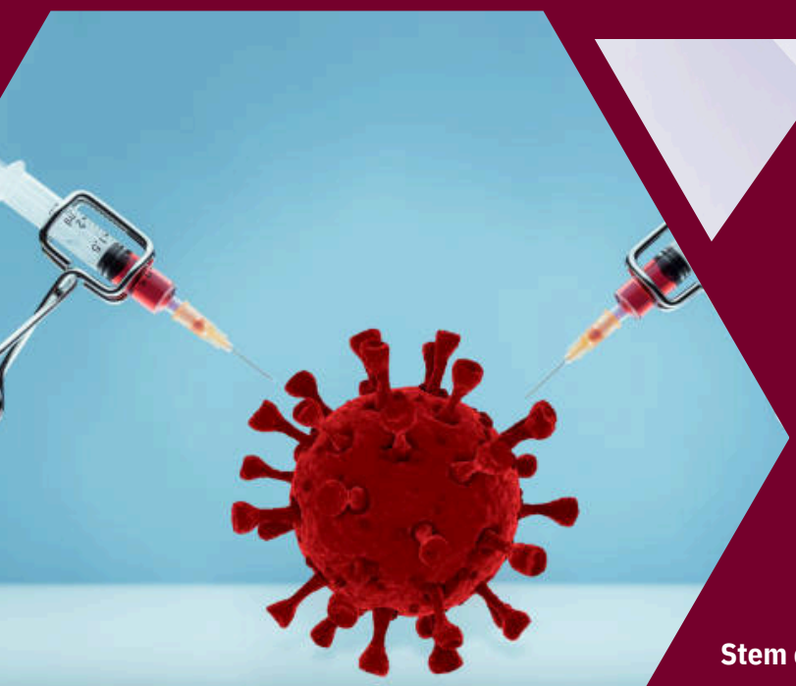

Greetings

The 6th International Conference on Stem Cells Research and Therapy will be held on August 24–25, 2026, in Vienna, Austria, bringing together researchers, clinicians, biotechnologists, regenerative medicine experts, and healthcare professionals from around the world to advance the field of stem cell science and therapy. This conference provides a dynamic platform that bridges innovative research with clinical applications and emerging therapeutic strategies in regenerative medicine. Through keynote presentations, scientific discussions, case studies, and collaborative networking sessions, participants will gain valuable insights into the latest developments in stem cell research, tissue engineering, cell-based therapies.

About Pulsus

Pulsus Group, established in 1984 with offices in Canada and India, is a globally recognized publisher of scientific, technical, and medical journals. With 50+ open-access journals and collaborations with 20+ international societies, Pulsus advances high-quality medical research through rigorous peer review. Through cmesociety.com, Pulsus connects global researchers and institutions by organizing accredited CME/CPD conferences that foster collaboration and knowledge exchange. Proudly associated with leading Canadian and international medical societies, Pulsus remains committed to supporting integrity and innovation in medical science.

Stem cell 2026

Market Analysis

The global field of stem cell research and regenerative therapy is experiencing remarkable growth, driven by increasing advancements in biotechnology, rising demand for regenerative treatments, and expanding applications of stem cells in disease management and tissue repair. Stem cell research and therapeutic innovations are expected to advance significantly between 2025 and 2030, supported by continuous progress in cell-based therapies, tissue engineering, personalized medicine, and clinical research. Ongoing investments in healthcare, biotechnology, and translational medicine are further accelerating the development of innovative stem cell solutions aimed at improving patient outcomes and transforming modern healthcare.Furthermore, the integration of advanced imaging systems, AI-assisted diagnostics, robotic-assisted.

TARGET AUDIENCE

- Stem Cell Researchers & Scientists
- Regenerative Medicine Specialists
- Cell Therapy & Tissue Engineering Experts
- Clinical Researchers & Medical Practitioners
- Biotechnology & Pharmaceutical Professionals
- Molecular Biologists & Genetic Researchers
- Biomedical Engineers & Laboratory Specialists
- Oncology & Immunotherapy Experts

WHO SHOULD ATTEND?

- Curious Learners
- Knowledge Seekers
- Innovation Explorers
- Future Thinkers
- Science Enthusiasts

EDITORIAL BOARD MEMBERS

Why Attend?

- Stay informed about emerging trends in stem cell research, regenerative medicine, and advanced cell-based therapies.
- Learn from leading stem cell scientists, clinicians, and regenerative medicine experts presenting innovative research and clinical applications.
- Discover recent advancements in tissue engineering, gene editing, personalized medicine, bioprinting, and AI-driven biomedical technologies.
- Connect with a global network of researchers, healthcare professionals, biotechnology experts, and industry leaders in stem cell science and therapy.

CONFERENCE SCHEDULE

DAY 1 | Aug 24, 2026
