6TH INTERNATIONAL CONFERENCE ON

NEURODEGENERATIVE DISORDERS & STROKE

JULY 05-06 2018 VIENNA, AUSTRIA

Stroke 2018

Jul 05-06 2018

Vienna
Austria

WELCOME MESSAGE

On behalf of Pulsus Group, we would like to welcome to the 6th International Conference on Neurodegenerative Disorders & Stroke. We have been conducting conferences since last 10 years.

On July 05-06, 2018, we promise for the Knowledge of Science and Technology in Neurology & Brain Health at Vienna, Austria.

Pulsus cordially welcome researchers, academicians, students and business professionals in the field of Stroke from around the world to participate in the up and coming Stroke 2018.

The meeting for this year will revolve around the theme "*Melioration in Innovations with advancement in Neurodegenerative Disorders and Stroke*" thus relaying the most cutting-edge findings in the field of Neurology Research.

The meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in Stroke field. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach.

It is our pleasure to serve this kind of an international event and is thankful to you for being part of this initiative.

Interested one can easily go to the website and register themselves, or can contact for further query at the given contact.

Conference Highlights

Stroke

Neurosurgery

Management of Stroke

Neuro-oncology

Stroke & Mental Health

Dementia

Neurodiagnosis and Imaging Techniques

Behavioral Neurology

Risk Assessment and Prevention of Stroke

Neurodegenerative Disorders

Stroke Rehabilitation & Recovery

Neurological Nursing & Clinical Training

Therapeutics approaches of Neurological Disorders

Clinical Trials & Case Reports

Salient Features

Since the last 10 years neurological and brain health problem has been increased and 5 out of 10 people are suffering through it knowingly or unknowingly.

The increase in neurological and mental illness has inspired Pulsus Group to conduct the **6th International Conference on Neurodegenerative Disorders & Stroke** in **Vienna, Austria** during July 05- 06, 2018.

Stroke 2018

Stroke 2018 has a vision to help and educate the student and people, on and off field of Neurodegenerative Disorders & Stroke Health Care.

Despite of the learning and educating themselves this conferences will help people to communicate with many business, professor, nobles, and other eminent person related to the same field or different field, helping the growth of oneself.

Benefits of Participation

Coming to the Stroke 2018 may be a standout among other thing you can improve the situation your profession. You will find out about Neurological enterprises, science, increase some new aptitudes and make a wide range of new associations.

Speakers, sessions, contacts, and discussions are additionally overpowering. You can bring handful of business cards and gather them from others as well.

You will pick up a considerable measure of value and amount information to bring it with yourself and offer with your partners, colleagues and companions.

Who dislikes the chance to become acquainted with and meet new individuals who work in a similar field? The gathering will give a plentiful chance of sharing, learning and meet new individuals. Individuals may likewise have the capacity to interface with an awesome merchant in the gathering and wind up marking an arrangement with them on the spot. An upbeat medium.

For us 99% is insufficient we accept to give a 100% to the conference, to the attenders and 100% fulfillment to each going to it on or off field of the meeting.

Our gatherings have dependably possessed the capacity to change individuals life by circumstances, by learning, by building connection, by creating aptitudes and by B2B administrations.

Program Schedule

Day 01

Registration
08:00-08:45

Opening Ceremony
08:45-09:15

Keynote Presentation 1, 2 & 3
09:15-10:45

Networking Break

Stroke | Neurosurgery
11:00-12:00

Management of Stroke
12:00-12:30

Lunch Session

Neuro Oncology | Stroke & Mental Health
13:30-14:30

Dementia | Neurodiagnosis & Imaging Techniques
14:30-15:30

Networking Break

Behavioral Neurology
16:00-16:30

Poster Presentation
16:30-17:00

Day 02

Registration
08:00-09:15

Keynote Presentation 1, 2 & 3
09:15-10:45

Networking Break

Risk Assessment and Prevention of Stroke
11:00-11:30

Neurodegenerative Disorders | Stroke Rehabilitation & Recovery
11:30-12:30

Lunch Session

Neurological Nursing & Clinical Training
13:30-14:00

Therapeutics approaches
14:00-14:30

Networking Break

Clinical Trials & Case Reports
15:00-15:30

Poster Presentation
15:30-16:00

Closing Ceremony

Advisory Board Members

University of Copenhagen
Denmark

Krupa Torne
Sir JJ Hospital & Grant Government Medical college
India

Goran Simic
University of Zagreb
Croatia

Ehud Gazit
Tel Aviv University
Israel

AGENDA & MOTIVE

International Conference on Neurodegenerative Disorders & Stroke is one of its kind, this Stroke Conferences is designed to sharpen your idea towards the upcoming of modern technology and method in the field of neurosciences which would help you to be more efficient and effective toward the field of Brain Stroke & Neurodegenerative Disorders.

Stroke 2018 would help you to meet up with your idol and expert face to face and influence you towards your work and life. It would also help to increase your business by meeting the right person.
How about we join the International Conference on Neurodegenerative Disorders & Stroke to share the learning and increment of the mindfulness for the neurology issue and brain health.

Goals

The participants, moderators, and exhibitors from everywhere throughout the world are invited to the "Music City of Europe" well known as Vienna for energizing, enlightening and informative meeting program including entire addresses, symposia, workshops on an assortment of Neurodegenerative Disorders & Stroke.

Individuals going to the conference without a doubt will have an important and learned involvement in the field of Neurodegenerative Disorders & Stroke with that comes motivation, meeting incredible individuals and speakers, distinctive plans to take care of mental instability and issues, and enhancing your abilities.

Objectives

International Conference on Neurodegenerative Disorders & Stroke is a novel gathering to unite overall recognized scholastics in the field of neurosciences and neurology, Brain analysts, general health experts, researchers, scholastic researchers, industry specialists, researchers to trade about best in class research and innovations.

Systems administration would help the understudy and other individuals of a similar calling to land a position or to build the business, and even to learn new things in and outside of your field.

How Stroke 2018 differs ?

We bring 30 years of experience with us and from time to time and conference to conference we have been developing our skill, technique and technology to provide you with clear visibility of the Neurodegenerative Disorders & Stroke.

We provide a lot of session to choose from and the schedule is flexible. With Speaker who key expert in Stroke and its field and day full of sessions, there is a lot to take from it.

Market Analysis

NEUROLOGICAL DISORDERS

General Info: Neurological disorders, ranging from epilepsy to Alzheimer disease, from stroke to headache, affecting most of the people who are still under treatment and rehabilitation in Europe. Neurological diseases are the diseases of the spines, brain and nerves that connect them. More than 600 diseases of nervous system are there such as Alzheimer's disease, Parkinson's disease, brain tumors, epilepsy etc.

Approximately one in six of the world's population i.e around Up to 1 billion people, suffer from neurological disorders, from Alzheimer and Parkinson disease, strokes, multiple sclerosis and epilepsy to migraine, brain injuries and neuroinfections. In Czech Republic neurological disorders are the deadliest causes of harm overall that accounts to 6.3% of total population and with a total of 7043.2 mortality rate. Present Scenario: Global statistics shows that 50 million people are suffering from epilepsy, 62 million from cerebrovascular disease, 326 million from migraine, and 24 million from Alzheimer disease and other dementias.

STROKE

General Info: A stroke is a medical emergency that requires prompt treatment that indicates early action can minimize brain damage and potential complications. A stroke happens when there is interruption in blood supply to brain and when it happens, the brain cells begin to die.

Worldwide stroke has already reached epidemic proportions. Current trends suggest that the number of annual deaths will climb to 6.7 million by 2018 without appropriate action.Stroke incidence rates in low- to middle-income countries in overall is exceeding than that of incidence rates seen in high-income countries by 20%. Today, 2 out of every 3 people who suffer from a stroke live in low- and middle-income countries. The Burden of Stroke in Europe is going on increasing and by the time between 2015 and 2035, overall there will be a 34% increase in the total number of stroke events in the EU.

The annual mortality rate per 100,000 people from stroke in Czech Republic has decreased by 36.4% since 1990, an average of 1.6% a year. For men, the deadliness of stroke in Czech Republic peaks at age 80+. It kills men at the lowest rate at age 10-14. At 2818.7 deaths per 100,000 men in 2013, the peak mortality rate for men was higher than that of women, which were 2561.1 per 100,000 women. Women are killed at the highest rate from stroke in Czech Republic at age 80+. It was least deadly to women at age 1-4.

About City

Vienna lies in the country's east on the Danube River i.e. Austria's capital. Its artistic and intellectual legacy was nicely given shape by residents including Mozart, Beethoven and Sigmund Freud.

The city is also known for its Imperial palaces, including Schönbrunn, the Habsburgs' summer residence. In the Museums Quartier district, historic and contemporary buildings display work by Egon Schiele, Gustav Klimt and other artists. Vienna, also described as Europe's cultural capital, is a metropolis with unique charm, vibrancy and flair.

It has outstanding infrastructure like museums and galleries of international reputation, has all the inspiration that you could wish for in order to discover this wonderful part of Europe and is clean and safe. There are lots of places to visit in Vienna and some of those are Museums including Art and Speciality museums, historic sites, monuments and statues, nature and parks, churches and cathedrals and religious sites.

Vienna is also known as "the city of dreams" & "the city of music" making it a large attraction for tourists whole around the world. And Vienna is the only capital to produce its own wine. Vineyards within the city limits produce incredible wine for the country, making it dear tradition for people during spring

REGISTRATION
