International conference on Sustainable chemistry and Hazardous Materials

November 11-12, 2019
London, UK

Hosting Organization: ***Pulsus***
40 Bloomsbury Way | Lower Ground Floor
London, United Kingdom | WC1A 2SE | Tel: +1-408-429-2646

Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders or rub elbows with pioneers across the globe. Rome is all set for an amazing event as PULSUS proudly presents the ***"International conference on Sustainable chemistry and Hazardous Materials"*** slated on **November 11-12, 2019** at **London, UK.**

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Chemistry and Environmental challenges from around the world to participate in the upcoming Green chemistry 2019. The meeting for this year will revolve around the theme "***A Vision for Sustaining Challenges in Environment"*** thus relaying the most cutting-edge findings in the current issues of environmental challenges and to make a better world.

Conference Highlights:

- Sustainable Chemistry
- Synthesis and catalysis
- Eco- Systematic
- Sustainable chemistry education
- Photo chemistry
- Energy conversion and Storage
- Bioresources
- Environmental Sustainability
- Agricultural Solar cells
- Hazardous material and waste management
- Green technology and Remediation

Conference Tentative Agenda:

PULSUS

November 11, 2019

Time	Session
08:30-09:30	Registrations
09:30-11:30	Keynote Forum
	Group Photo
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Tracks: Sustainable Chemistry | Synthesis and catalysis
13:00-13:45	Lunch Break**
13:45-16:00	Tracks: Eco- Systematic | Sustainable chemistry education
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Tracks: Photo chemistry | Energy conversion and Storage
	Day Concludes

November 12, 2019

08:30-09:30	Registrations
09:30-10:30	Keynote Forum
10:30-11:30	Tracks: Bioresources | Environmental Sustainability
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Tracks: Agricultural Solar cells | Hazardous material and waste management
13:00-13:45	Lunch Break**
13:45-16:00	Tracks: Green technology and Remediation
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Poster Presentations

Day Concludes
Award Ceremony
Conference Concludes

Note: Agenda can be subjected to change at any moment of time until July

Market Analysis

Sustainable Chemistry is an environmental concept to improve natural resources which helps the human needs and requirements for chemical product and services. Sustainable development increasing the wellbeing for the upcoming generations all over the world. Technology transformation play a vital role for the sustainable development and changes the consumption and create new technologies necessary for the sustainability.

The reasons behind promoting sustainable patters are poverty, changing unstainable by managing the natural resource of economic and social development. Because of the **low nutritional food** the malnutrition and hunger of undernourishment. Alternative chemical product embodies chemicals created from bio-based feedstocks, as well as end-use **chemical products** that incorporate both bio-based chemicals and green chemistry principles (i.e., end-use chemical products include cleaning products derived from bio-based ingredients and solvent-free cleansing product).

Highlights of London

London is an astounding city which is wrapped up in history with workmanship and culture. Being the biggest city in the UK, fills in as home to in excess of 8.6 million individuals. London has extended, created and open methods of transportation. London Underground (Tube), Busses, Docklands Light Rail, Overground Trains help in moving the general population of the city. The city's atmosphere is affected by seas; thus, it is chilly and damp. It is the political, economic and cultural capital of Britain. It is one of the world's top tourist destinations, attracting upward of 15 million visitors each year. London is known to be a leading global educational centre, having one of the largest populations of overseas students of any city in the world. It is a city with different cultures and communities across the capital. The most popular tourist icons of the city are Big Ben Clock Tower, ZSL London Zoo, Tower Bridge, British Museum, Buckingham Palace, Tower of London, Trafalgar Square, St. Paul's Cathedral, Palace of Westminster, Westminster Abbey. Across the river Thames, the London Eye observation wheel provides an extraordinary views of the South Bank cultural complex, and the entire city. London river cruises and river buses are a great way to see the city. London has fantastic transport system, such as red buses and black taxis, etc. will enable you to get around the city quickly and easily. It is said to be the Europe’s best shopping destination. Art lovers should make a beeline for the National Gallery and the Tate Modern.
