Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Rome is all set for an amazing event as PULSUS proudly presents the "Annual Congress on Advanced Tissue Science and Regenerative Medicine slated on July 23- 24, 2018 at Rome, Italy.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Tissue from around the world to participate in the upcoming Tissue Science 2018. The meeting for this year will revolve around the theme "**Discover the advancements in tissue science and regenerative medicine**" thus relaying the most cutting edge findings in the field of Tissue Research. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

About PULSUS

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

Tissue Science a fastest Emerging topic experiences a regional growth that can be attributed to existence of massive man power, technologically advanced procedures along with government funding. Europe tissue engineering market is estimated to record moderate growth prospects over the forecast period due to the presence of strict regulatory norms. Constant research & development in regeneration surgeries as well as stem cell research is projected to offer massive growth opportunities, over the next seven years. The Regenerative medicine market is broadly classified into types, therapy, application and regions. Based on therapy, the market is segmented into cell therapy, gene therapy, tissue engineering, and immunotherapy. Immunotherapy is the fastest growing segment in the global market, during the forecast period. This market is also segmented by application. By application, the segments are orthopaedic & musculoskeletal disorders, dermatology, cardiology, diabetes, central nervous system diseases, and other applications.

Target Audience

- Tissue Scientists
- Stem cell researcher
- Organ Transplant Specialists
- Research faculty
- Academic Scientists
- Medical Colleges
- Doctors
- Students
- Business Entrepreneurs
- Industry professionals
- Directors/Managers/CEO's
- Presidents & Vice Presidents
- Diagnostic laboratory professionals
- Brand Manufacturers/ Marketers of Consumer Products
- Marketing, Advertising and Promotion Agency Executives

Who should attend?

- Tissue Scientists
- Prosthetic Surgeons
- Stem cell researchers
- Medical and Healthcare Professionals to Exchange Ideas
- Knowledge and Networking at its 100+ International Conferences

Why to attend?

- 10+ Keynote Speaker Session
- 50+ speaker faculty over 2 full days sharing Evidence Based Nursing practice
- 5+ Workshops

30 YEARS OF EXCELLENCE IN MEDICAL PUBLISHING

Rome is without doubt one the most beautiful cities in the world, every year millions of tourists come from around the world to admire the treasures and masterpieces of Roman art and architecture. Rome is a special commune in Italy. It is the only city in the world to contain in its interior a whole state; the enclave of Vatican City and has a status of the global city. Rome was the 11th-most-visited city in the world, 3rd most visited in the European Union, and the most popular tourist attraction in Italy. The city is one of Europe's and the world's most successful city "brands", both in terms of reputation and assets. Monuments and museums such as the Vatican Museums and the Colosseum are among the world's most visited tourist destinations with both locations receiving millions of tourists a year. In highest antiquity Sabine tribes shared the area of what is today Rome with Latin tribes. With such a large number of offerings all pressed into one enthusiastic city, participants may wind up broadening their stay a day or two.
