About Urology and Renal Health

PULSUS
WWW.PULSUSCONFERENCE.COM

Urology is the health practice dealing with both the male and female urinary processes. It also includes sexual-genital and sexual reproductive health issues. Urology also referred as genitourinary tract is the medicine division which focuses on male and female urinary tract and male reproductive system surgical and medical diseases. Urological organs include the arms, adrenal glands, ureters, urinary bladder, urethra and male reproductive organs (tests, epididymis, vas deferens, seminal vesicles, prostate and penis). Renal health is the scientific study on kidneys, their functions and diseases prevalent. Preserving renal health and treating kidney dysfunction from diet and medicine to physical treatment for the renal. This also studies systemic disorders affecting the kidneys, such as diabetes and autoimmune disease, as well as systemic diseases arising from kidney disease. In this event we will have a brief discussion on both Urology and Renal health

Covid-19 has outraged societies and dramatically changed everyday life throughout the globe. While unprecedented, our present circumstances have been deeply shaped by persistent societal realities — such as entrenched racial and economic inequality, proliferation of misinformation, and anxieties about the ability of the world's democracies to confront major crisis. Understanding the facts and taking reasonable measures protect yourself and those around you. We support you in keeping you stay healthy by arranging the International Conference on Urology and Renal Health as Webinar

Although the pandemic situation have settled we don't want to take any chances in your life so be safe, stay home and attend this gathering.

Message from PULSUS:

Wear a Face cover

Wash your hands
