24th International Conference on

Vaccine Design Production & Safety

MAY 21-22, 2018

Vienna, Austria

PULSUS is all set for an optimistic tone for the conferences to escalate medical & scientific know-how and create cognizance on the latest research findings & unfoldings in a manner that testifies not only brilliance but also transparency

Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Vienna is all set for an amazing event as PULSUS proudly presents the "**Vaccine Design 2018**" on **May 21-22, 2018.**

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Vaccine Technology from around the world to participate in the upcoming Vaccine Design 2018. The meeting for this year will revolve around the theme "Deliberation on modern vaccine research and development focusing on vaccine design, delivery and evaluation" thus relaying the most cutting edge findings in the field of Vaccine Research.

The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach.

Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Regards

Conference Highlights

- Vaccines Research and Production Technology
- Vaccine Design & Development
- Conjugate Vaccines
- Vaccine Development and Implementation
- Public Health Effectiveness of Vaccine Implementation
- Vaccines for infants, children, and Adults
- Vaccines Storage and Handling
- Bacterial Vaccines
- Vaccine Efficacy and Safety
- Vaccine Adjuvants
- Plant derived vaccines
- Vaccines and vaccination
- Vaccine Safety, Surveillance and Evaluation
- Vaccine Industries
- Immunization Safety and Vaccination Schedule

Pulsus Group Conferences

300+ International Medical & Scientific Conferences, summits and events

Distinctive Features

- Learn about the latest developments in your field and aid your own growth.
- Meet your target audience & expand your B2B network.
- Get your research published in conference proceedings and renowned journals.
- Go live streaming on Youtube.
- Spread your knowledge. Conduct workshops, symposiums and exhibit your best products
- Call for Investors-Investors Meet

About Pulsus:

- PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.
- Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.
- Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. We want our conferences, societies, associations and the technology communities and companies who participate in them, to include, encourage, and recognize people of all races, ethnicities, genders, ages, and abilities. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Pulsus Group Journals (www.pulsus.com)

- **30 years excellence in Medical publishing**
- **50+ journals in association with 20+ International medical and scientific societies**
- **Peer review publishing for Associations, Societies and Universities in Highly Indexed Reputed Journals**
- **Summary proceedings, custom publications and electronic publications.**

Exhibition and Sponsorship

- **An Exhibition will be held simultaneously with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new developments in the field of Pediatrics**

Additional benefits as follows:

- **Free exhibition booth for your association.**
- **Honorable guests for your presidents.**
- **Logo advertisement in the conference proceedings.**
- **Data sharing for your association.**

Market Analysis Report For Vaccine Design 2018

Market Analysis

Traditionally Vaccines have been used to eradicate infectious diseases, which started with Small Pox. Apparently In the last few years there is great advancement towards vaccine design and its development. In the Era of Molecular biology the innovative technologies such as genomics, proteomics, and functional genomics are used for the rational identification of antigens, generation of engineered carrier proteins and much more. The research in this area has always been more exciting with ever new outbreak the nature throws from influenza to Zika.

Vaccine Design 2018 is an ideal forum for the researchers and Healthcare professionals to discuss on the current advancements in Vaccine design towards the most precise way of immunization

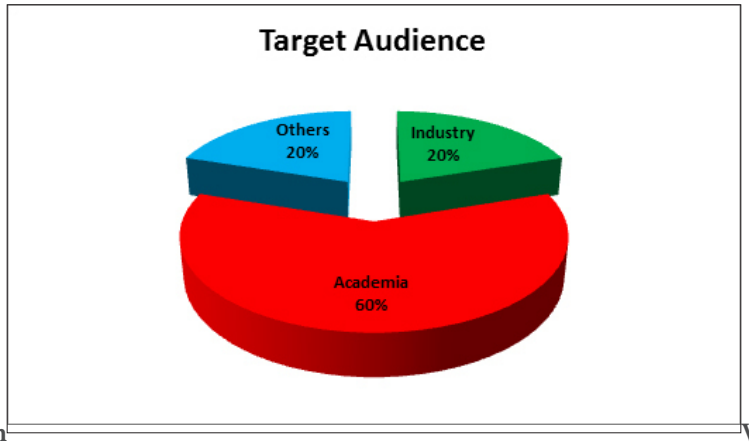

Target Audience:

Vaccine Design 2018 Targets: CEO's, Directors, Scientists, Professors, Students of all Biotech & Pharma companies, Universities and colleges globally

Industry 20%

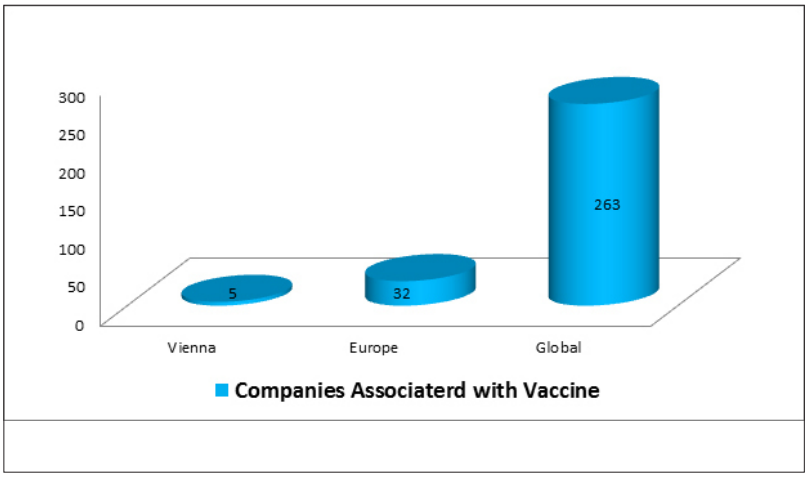

Academia 60%

Others 20%

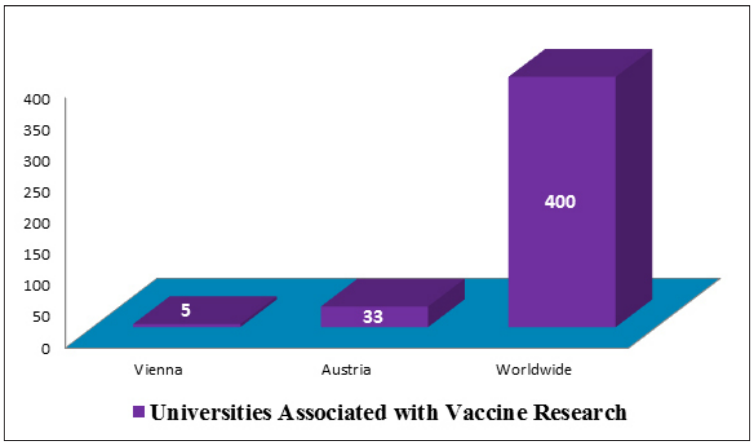

Companies Associated with Vaccines

- BioPharmica Limited
- Biotherapeutics
- Bionomics
- Biocon
- Benitec Limited
- Antisense Therapeutics Limited
- GlaxoSmithKline Australia Pty Ltd
- Australian Pharmaceutical Industries (API)
- InterMune
- Biotron Limited
- BioDiem
- CareDx
- Atara

Overall Statistics of Universities, Associations and Companies associated with Vaccines

Cont..

Vaccination protects not only individuals, but also entire communities from diseases spread by person-to-person transmission. The high growth rates and successful launch of several recent products have kept interest in the global vaccine market high. The World Market looks at the market for immunizations utilized as a part of people to avert different sorts of illness. Assessments are accommodated the 2013 to 2018 period and conjectures are given through 2022. The worldwide market for human immunizations experienced solid development through 2015. Through 2022, development will be powered by proceeded with new item presentations, sign extensions for a few items and rising use, especially in South America, Europe, India and China. The global vaccines market is expected to reach USD 48.03 Billion by 2021 from USD 32.24 Billion in 2016 at a CAGR of 8.3% from 2016 to 2021. The global human vaccines market to grow at a CAGR of 11.69% during the period 2016-2020.

From global pharmaceutical market sale injections occupied very small size of market 2/3% but there is remarkable growth rate 10-15% per year when compare to pharmaceuticals which was 5-7% only. Trebled in value from USD 5B in 2000 to almost USD 24 B in 2013.Big pharmaceutical companies like GSK, Pfizer, Merck etc. are struggling to maintain their revenue and operating incomes amidst patent cliffs of blockbuster drugs. The cancer application division is expected to fastest growth with a CAGR of over 11.8% in the vaccinations market in related to the need for immunization against cancer along with the increasing occurrence of various types of cancer, such as cervical and colorectal cancers.

24th International Conference on

Vaccine Design, Production & Safety

MAY 21-22, 2018

Vienna, Austria

Pulsus *Group takes pride in getting the endorsements of prestigious societies and medical research assosiations world wide.*

About City

Vienna is the capital and largest city, situated in the North-East of Austria and lies on the banks of the majestic Danube River. Vienna is also said to be "The City of Dreams", Surrounded by the natural beauty of the Wachau region, Vienna woods and numerous green expanses and with various superb parks. The city is known for its most famous palaces like Schönbrunn, Spanish Riding School, and the Habsburgs' summer residence. It is having more than 100 art museums, which together attract over eight million visitors per year.

The German name of Vienna is Wien, popularly known as Austria's most famous dish. Vienna having 1.8 million people with its cultural, economic and political center. Vienna is that city, which not only holds on to its traditions, but it also incorporates in everything from high-fashion women's traditions with pop-art motifs to handmade "Sachertorte"–flavoured doughnuts chocolate cake. Vienna is Austria's main centre of education and home to many professional colleges, reputed universities, and a very good place for many sports person and gymnasiums.

The Austria Centre Vienna (ACV) is situated next to the United Nations Headquarters. Vienna organises International Conferences and it is world's number one destination for international congresses and conventions. Vienna has been voted the world's most livable city of Austria. Vienna has a relation with International Atomic Energy Agency (IAEA), the United Nations Industrial Development Organization (UNIDO), the United Nations Office on Drugs and Crime (UNODC), the most popular Organization of Petroleum Exporting Countries (OPEC) and many more. There are many charitable organizations in the city of Vienna.

Vienna is having the best reputation when compared with the hundred major global cities. Vienna is the city of very high quality of life living that is mostly appreciated by the many visitors who come to the Austrian capital to visit Vienna

Target Audience

- Vaccinology/Immunology, Scientists
- Vaccinology Researchers
- Vaccinology Faculty
- Medical Colleges Faculty, Students
- Immunology Associations and Societies
- Business Entrepreneurs
- Vaccines Training Institutes
- Software developing companies
- Manufacturing Medical Devices Companies
- Clinical Data Management Companies
- Machinery Manufacturing Companies

City Attractions

- Habsburg palace
- Medieval place of worship
- Public park
- Kunsthistorisches Museum
- Spanish Riding School
- Opera house
- Schönbrunn Zoo
- Leopold Museum
- Austrian National Library
- Vienna Musikverein
- Jesuit Church
- House of the Sea
- Vienna Boys' Choir

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement

- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors
