Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Lisbon is all set for an amazing event as PULSUS proudly presents the 24th International conference on Vaccine Design, Production and Safety slated on September 17-18, 2018 at Lisbon, Portugal.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Vaccine from around the world to participate in the upcoming Vaccine Design 2018. The meeting for this year will revolve around the theme " Exploring, Envisioning Innovations on Vaccine Designing" thus relaying the most cutting edge findings in the field of Vaccine Research. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

About PULSUS

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

Vaccines are usually heat killed, attenuated, or fragments of microorganisms or other biomolecules. This is incorporated into individuals to prevent diseases. It stimulates the immune system of body conferring active immunity to the person. Vaccines can act against Bacteria, Virus, Toxins and even Venom. In addition to it, it increases memory B-cell production triggering secondary immune response. Vaccines do have adverse effects which are usually mild and rare. These adverse reactions are severe on people having pre-existing diseases like HIV-AIDS or ones undergoing Chemotherapy. Vaccination mechanism varies depending upon the Age factor, Disease, route of administration, dosage etc. Novel vaccines are in development utilizing the field of Immuno-informatics, Genomics and Molecular biology. Vaccines help in curing vast diseases but there still exist controversies in curing certain diseases. There is vast scope for researchers and scientists in the field of vaccine discovery and designing. This conference on vaccine designing will be a great platform for researchers working on the development of vaccines to showcase their work, to share and gain knowledge.

Target Audience

- Vaccinology Faculty and Students
- Healthcare Analysts
- Genetic Engineers and Scientists
- Molecular Biologist and Researcher
- Medical Students and Professors
- Microbiology Researcher and faculty
- Academic Scientists
- Bioinformatics companies
- Veterinary Doctors, Researchers
- Biochemical Scientists
- Immunology /Vaccinology Researchers
- Vaccine Manufacturing Companies
- Business Entrepreneurs
- Immuno-informatics Students and Professionals
- Nurses and pharmacists
- Vaccination Training Institutions
- Clinical Data Management Companies

Who should attend?

- Vaccine Producing industries
- Vaccinology Students
- Bioinformatics Professionals
