18th International Conference on

Vaccine Design Production & Safety

AUGUST 21-23, 2017

Birmingham, UK

PULSUS is all set for an optimistic tone for the conferences to escalate medical & scientific know-how and create cognizance on the latest research findings & unfoldings in a manner that testifies not only brilliance but also transparency

Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Birmingham is all set for an amazing event as PULSUS proudly presents the "**Vaccine Design 2017**" on **August 21-23, 2017.**

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Vaccine Technology from around the world to participate in the upcoming Vaccine Design 2017. The meeting for this year will revolve around the theme "Deliberation on modern vaccine research and development focusing on vaccine design, delivery and evaluation" thus relaying the most cutting edge findings in the field of Vaccine Research.

The three day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach.

Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Regards

Conference Highlights

- Vaccines Research and Production Technology
- Vaccine Design & Development
- Conjugate Vaccines
- Vaccine Development and Implementation
- Public Health Effectiveness of Vaccine Implementation
- Vaccines for infants, children, and Adults
- Vaccines Storage and Handling
- Bacterial Vaccines
- Vaccine Efficacy and Safety
- Vaccine Adjuvants
- Plant derived vaccines
- Vaccines and vaccination
- Vaccine Safety, Surveillance and Evaluation
- Vaccine Industries
- Immunization Safety and Vaccination Schedule

Pulsus Group Conferences

300+ International Medical & Scientific Conferences, summits and events

Distinctive Features

- Attend and earn CE, CME & CPD credits.
- Learn about the latest developments in your field and aid your own growth.
- Meet your target audience & expand your B2B network.
- Get your research published in conference proceedings and renowned journals.
- Go live streaming on Youtube.
- Spread your knowledge. Conduct workshops, symposiums and exhibit your best products
- Call for Investors-Investors Meet

Market Analysis Report For Vaccine Design 2017

Market Analysis

Vaccines are the key to eradicate/prevent the diseases for a healthy life. It is a subject for the professionals who looks beyond the clinical prospects. Vaccine Design 2017 amasses all the extroverts under one roof of current advances.

Vaccinology is a major field in eradication of diseases. Traditional approaches to vaccine design were to emasculate or inactivate the human pathogen or a cognate animal homologue, Vaccinology is the science of vaccine development and how the immune system responds to vaccines, but additionally includes perpetual evaluation of immunization programs and vaccine safety and efficacy, as well as surveillance of the epidemiology of vaccine-preventable diseases. The first thing that comes to our mind with the word Vaccines is eradication and eradication or prevention is best when done at the earliest possible and hence Vaccine Research, Development & Design have always been a topic to be better understood

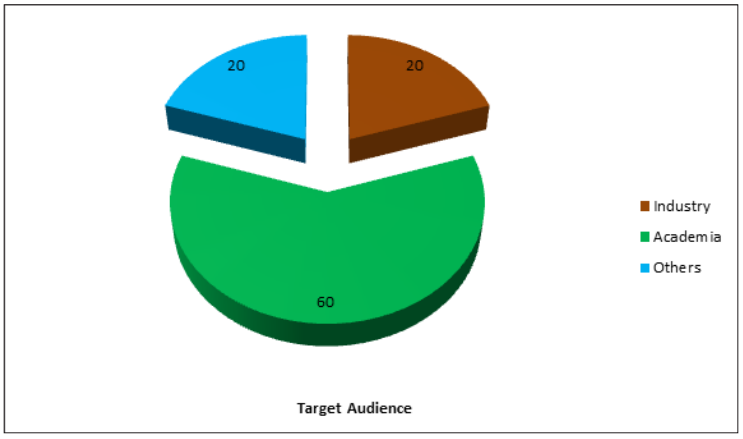

Target Audience:

Vaccine Design 2017 Targets: CEO's, Directors, Scientists, Professors, Students of all Biotech & Pharma companies, Universities and colleges globally

Industry 20%

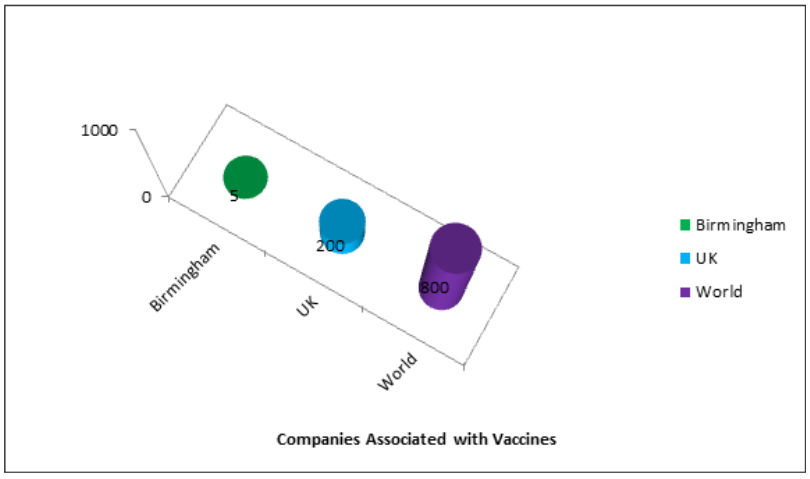

Academia 60%

Others 20%

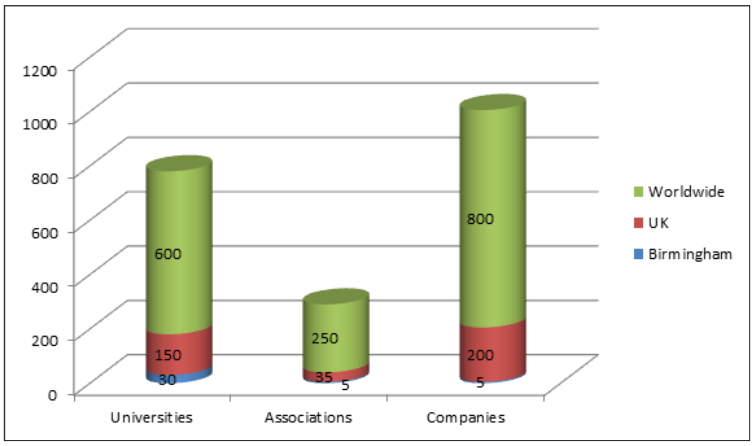

Companies Associated with Vaccines

- BioPharmica Limited
- Biotherapeutics
- Bionomics
- Biocon
- Benitec Limited
- Antisense Therapeutics Limited
- GlaxoSmithKline Australia Pty Ltd
- Australian Pharmaceutical Industries (API)
- InterMune
- Biotron Limited
- BioDiem
- CareDx

Overall Statistics of Universities, Associations and Companies associated with Vaccines

Vaccination protects not only individuals, but also entire communities from diseases spread by person-to-person transmission. The high growth rates and successful launch of several recent products have kept interest in the global vaccine market high. The World Market looks at the market for immunizations utilized as a part of people to avert different sorts of illness. Assessments are accommodated the 2013 to 2017 period and conjectures are given through 2022. The worldwide market for human immunizations experienced solid development through 2015. Through 2022, development will be powered by proceeded with new item presentations, sign extensions for a few items and rising use, especially in South America, Europe, India and China. The global vaccines market is expected to reach USD 48.03 Billion by 2021 from USD 32.24 Billion in 2016 at a CAGR of 8.3% from 2016 to 2021. The global human vaccines market to grow at a CAGR of 11.69% during the period 2016-2020.

From global pharmaceutical market sale injections occupied very small size of market 2/3% but there is remarkable growth rate 10-15% per year when compare to pharmaceuticals which was 5-7% only. Trebled in value from USD 5B in 2000 to almost USD 24 B in 2013.Big pharmaceutical companies like GSK, Pfizer, Merck etc. are struggling to maintain their revenue and operating incomes amidst patent cliffs of blockbuster drugs. The cancer application division is expected to fastest growth with a CAGR of over 11.8% in the vaccinations market in related to the need for immunization against cancer along with the increasing occurrence of various types of cancer, such as cervical and colorectal cancers.

About Pulsus:

- PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.
- Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.
- Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. We want our conferences, societies, associations and the technology communities and companies who participate in them, to include, encourage, and recognize people of all races, ethnicities, genders, ages, and abilities. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Pulsus Group Journals (www.pulsus.com)

- **30 years excellence in Medical publishing**
- **50+ journals in association with 20+ International medical and scientific societies**
- **Peer review publishing for Associations, Societies and Universities in Highly Indexed Reputed Journals**
- **Summary proceedings, custom publications and electronic publications.**

Exhibition and Sponsorship

- **An Exhibition will be held simultaneously with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new developments in the field of Pediatrics**

Additional benefits as follows:

- **Free exhibition booth for your association.**
- **Honorable guests for your presidents.**
- **Logo advertisement in the conference proceedings.**
- **Data sharing for your association.**

Panel Discussions	Panel Discussions
Coffee/Tea Break 15.05-15.20 (Networking) in the Exhibit Hall	**Closing Ceremony**

NOTE: Program Schedule is subject to change with final allotment of the speaker slots

Important Dates

Abstract Submission Opens: December 01, 2016
Online Registration Opens: December 08, 2016
Early Bird Registration: February 24, 2017
On spot Registration: August 21, 2017

Registration & Timings

August 21, 2017 (08:00 am to 06:00 pm)
August 22, 2017 (08:00 am to 06:00 pm)
August 23, 2017(08:00 am to 06:00 pm)
Group Photo Time: (09:00 am to 09:10 am)

Don't miss your smile in the conference group photo. Please make your presence at the conference. If you could not attend, please let us know (vaccinedesign@cmesocietyconferences.com | vaccinedesign@cmesociety.org)

18th International Conference on

Vaccine Design, Production & Safety

AUGUST 21-23, 2017

Birmingham, UK

Pulsus *Group takes pride in getting the endorsements of prestigious societies and medical research assosiations world wide.*

Target Audience

- Vaccinology/Immunology, Scientists
- Vaccinology Researchers
- Vaccinology Faculty
- Medical Colleges Faculty, Students
- Immunology Associations and Societies
- Business Entrepreneurs
- Vaccines Training Institutes
- Software developing companies
- Manufacturing Medical Devices Companies
- Clinical Data Management Companies
- Machinery Manufacturing Companies

City Attractions

- Cadbury World
- Birmingham Museum and Art Gallery
- Museum of the Jewellery Quarter
- Thinktank, Birmingham Science Museum
- National Sea Life Centre
- Birmingham Back to Backs
- Barber Institute of Fine Arts
- Bull Ring, Birmingham
- Aston Hall

About City

Birmingham is a major city and metropolitan borough of West Midlands, England. It is the largest and most populous British city outside London, with a population in 2014 of 1,101,360. The city is in the West Midlands Built-up Area, the third most populous urban area in the United Kingdom, with a population of 2,440,986 at the 2011 census. Birmingham's metropolitan area is the second most populous in the UK with a population of 3.8 million. This also makes Birmingham the 9th most populous metropolitan area in Europe.The city is a major international commercial centre, ranked as a beta– world city by the Globalization and World Cities Research Network and an important transport, retail, events and conference hub. The region is packed with dazzling theatres, colossal exhibition centres, Balti restaurants, and shiny shopping malls. Shrines in Coventry include super-size-sports and music arenas and cathedral ruins alike.

Its metropolitan economy is the second largest in the United Kingdom with a GDP of $121.1bn (2014) and its six universities make it the largest centre of higher education in the country outside London. Birmingham's major cultural institutions – including the City of Birmingham Symphony Orchestra, the Birmingham Royal Ballet, the Birmingham Repertory Theatre, the Library of Birmingham and the Barber Institute of Fine Arts – enjoy international reputations and the city has vibrant and influential grassroots art, music, literary and culinary scenes. Birmingham is the fourth-most visited city in the UK by foreign visitors.Birmingham's sporting heritage can be felt worldwide, with the concept of the Football League and lawn tennis both originating from the city. Its most successful football club Aston Villa has won seven league titles and one European Cup with the other professional club being Birmingham City.Partly because of its central location, Birmingham is a major transport hub on the motorway, rail and canal networks. The city is served by the M5, M6, M40, and M42 motorways, and probably the best known motorway junction in the UK: Spaghetti Junction. The M6 passes through the city on the Bromford Viaduct, which at 3.5 miles (5.6 km) is the longest bridge in the United kingdom.Birmingham is home to five universities: Aston University, University of Birmingham, Birmingham City University, University College Birmingham and Newman University. The city also hosts major campuses of the University of Law and BPP University, as well as the Open University's West Midlands regional base. In 2011 Birmingham had 78,259 full-time students aged 18–74 resident in the city during term time, more than any other city in the United Kingdom outside London. Birmingham has 32,690 research students, also the highest number of any major city outside London.
