Invitation

Pulsus Group is glad to announce, **6th International Conference on Vascular Biology and Surgeons Meeting** (Vascular Biology 2019) which is going to be held during **November 6- 7, 2019** at **Prague, Czech Republic,** organized around the theme "**Unravelling the plights in the field of vascular medicine**". Vascular Biology 2019 has many interactive scientific sessions which will aid in exploring angiology or vascular medicine and will definitely provide an exuberant opportunity for the budding scientists and young researchers to enhance their skills in the field. Vascular Biology 2019 is an initiative to unite researchers, practitioners, healthcare professionals and other business communities in the field to explore angiology or vascular medicine.

Conference Highlights

- Vascular Biology and Vascular Surgery
- Vascular Diseases
- Cardio-Vascular Diseases
- Vascular Diseases: Diagnostic and Therapeutic Approaches
- Blood and Lymph Diseases
- Vascular Nursing
- Genetics and Vascular Transcriptomics
- Regenerative Medicine and Stem cell derived Therapeutics
- Vascular Bioengineering
- Vascular Oncology
- Endovascular Interventions
- Emerging Technologies and Vascular Imaging
- Clinical Trials and advancements in field
- Vascular Immunology
- Vascular Diseases: Case Reports
- Vascular Pharma
- Vascular Complications in Pregnancy
- Paediatric Vascular anomalies
- Pathophysiology of Vascular Diseases
- Vascular Radiology
- Renal Vascular Diseases
- Vascular Dementia
- Pulmonary Vascular Diseases
- Vascular Neurology
- Alternative Medicine
- Peripheral Vascular Diseases

Agenda

November 06, 2019 Wednesday

Time	Session
08:30-09:30	Registrations
09:30-11:30	Keynote Forum
Group Photo	
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Tracks: Vascular Biology and Vascular Surgery | Vascular Diseases | Cardio-Vascular Diseases | Vascular Diseases: Diagnostic and Therapeutic Approaches
13:00-13:45	Lunch Break**
13:45-16:00	Tracks: Blood and Lymph Diseases | Vascular Nursing | Genetics and Vascular Transcriptomics | Regenerative Medicine and Stem cell derived Therapeutics
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Tracks: Vascular Bioengineering | Vascular Oncology | Endovascular Interventions | Emerging Technologies and Vascular Imaging

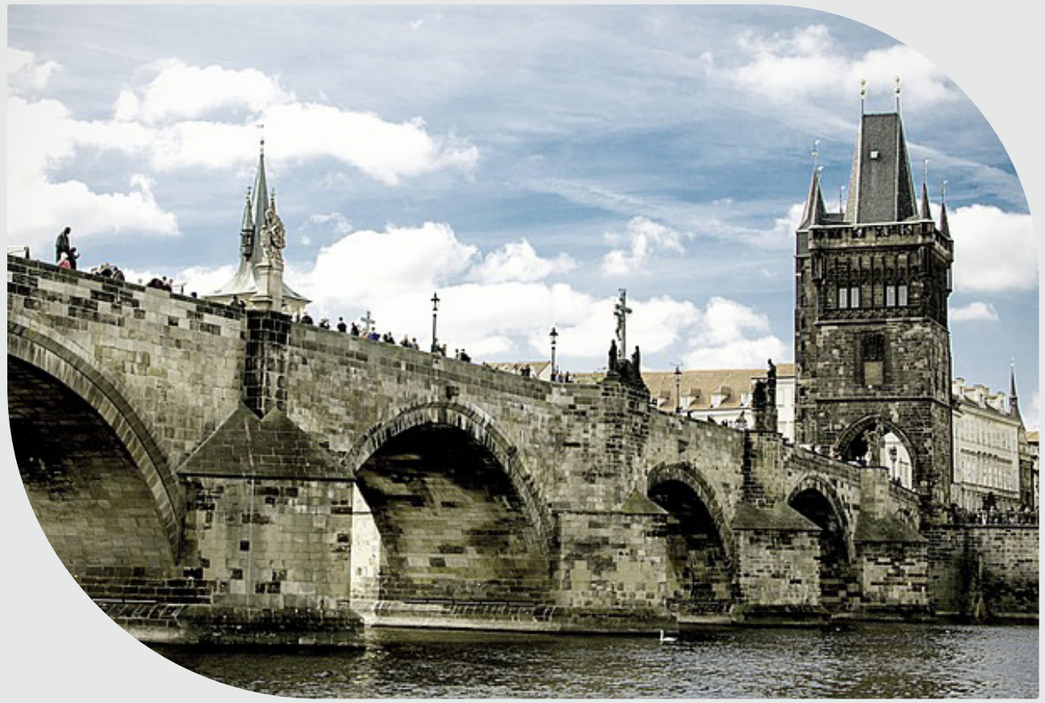

Tentative

November 07, 2019 Thursday

Time	Session
08:30-09:30	Registrations
09:30-10:30	Keynote Forum
10:30-11:30	Tracks: Clinical Trials and advancements in field | Vascular Immunology | Vascular Diseases: Case Reports | Vascular Pharma | Vascular Complications in Pregnancy
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Tracks: Paediatric Vascular anomalies | Pathophysiology of Vascular Diseases | Vascular Radiology | Renal Vascular Diseases | Vascular Dementia
13:00-13:45	Lunch Break**
13:45-16:00	Tracks: Pulmonary Vascular Diseases | Vascular Neurology | Alternative Medicine | Peripheral Vascular Diseases
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Poster Presentations
Day Concludes	

Tourist Attractions

Venue

Prague, capital of the Czech Republic and an Alpha- Global city is the 4th most visited city in Europe and is one of the best destinations to visit. November is a busy time here due to the seasonal activities that enliven the city. Visit to smaller villages would be charming as they celebrate the harvest festivals at this time. Prague would generally see the first snow during the mid-November, and it would give rooftops a nice look. The autumn scenery would be at its best with colourful leaves covering the ground till the first half of November. The Nouvelle Prague festival is held annually over two days, November 8-9 in 2019, showcasing bands from the Czech Republic and around the world at Staropramen Brewery.

The Czech Republic has celebrated important milestones in cardiac surgery, and cardiac care in the Czech Republic is of excellent quality and is constantly evolving. The Czech Republic is globally recognized as a country with an excellent system of care for those suffering from acute coronary symptoms, especially the treatment of acute myocardial infarctions (heart attacks). It possesses sufficient comprehensive cardiovascular centres as well as educated and experienced specialists in the field.
