Dear Friends and Colleagues,

Welcome to Veterinary Congress 2021 for the "**Virtual Global Veterinary Congress**" for the study of animal health and veterinary medicine. We are delighted to ask you to join the international animal health community on (**October 29, 2021**). Veterinary congress 2021 promises to be a long-lasting event that will bring together speakers and delegates from all around the world.

Over 500 people are expected to attend, including international luminaries at the forefront of the field who will present the latest cutting-edge developments in fundamental veterinary medicine research. We've planned scientific presentations around a variety of current and cutting-edge topics, as well as seminars and networking opportunities to encourage interaction. This is an opportunity to participate in one of the most important international veterinary medicine conferences, held in one of the world's leading scientific superpowers. Veterinary congress 2021 can serve as a vital networking and intellectual gateway for industry, university, health-care suppliers, and independent research organisations. The event is open to young investigators, physicians, scientists, researchers, trade partners, and policy activists.

Looking forward to seeing you on October 29, 2021.

Regards
Alicia Johnson
Veterinary Congress 2021

Conference Highlights

- Anaesthesia, Analgesia & Pain management
- Animal welfare & Behavioural medicine
- Clinical pharmacology
- Dentistry
- Dermatology
- Emergency and Critical care
- Internal medicine
- Laboratory animal medicine
- Microbiology
- Nutrition & Meat science
- Ophthalmology
- Pathology
- Poultry & Dairy practice
- Preventive medicine
- Surgery & Radiology
- Avian practice
- Beef cattle practice
- Canine and Feline practice
- Equine practice
- Exotic companion mammal practice
- Toxicology
- Theriogenology
- Animal vaccines
- Aquaculture
- Camel Science
- Zoological medicine
- Reptile and Amphibian practice (herpetology)
- Swine health management
- Sports medicine and rehabilitation

About PULSUS

PULSUS
WWW.PULSUSCONFERENCE.COM

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in on-going conversations about the value of diversity in the communities we serve.

Market Analysis

PULSUS
WWW.PULSUSCONFERENCE.COM

Now days the global Animal Health market is increasing predominantly and there is no doubt that the market will increase nearly 5 billion USD from 2017-2022, enhancing at a CAGR of more than 3.5% during the forecast time. This growth in the global market will be evidence to raising awareness of Animal health among pet owners and animal farmers, which is main reason to better and safe animal care. Increasing risks of zoonotic diseases have also increased the pharmaceutical sectors to invent and develop highly advanced vaccines for animals along with implementation of highly nutrient food and supplements for animals which may also increase the health and immune of the animals, which in turn is enhancing the Animal health market. Awareness program are performed by various organizations by educating people about the risk of zoonotic diseases. Many veterinary clinics, veterinary hospitals, and research institutes are conducting diagnostics on pet animals and livestock to identify the spread of such diseases and found that the market for animal health diagnostics will grow over 1 billion USD by 2022.

The animal diagnostics will lead to positive growth in market during 2018-2022. There is a huge demand for animal vaccines for major animal diseases like bovine tuberculosis, brucellosis, anthrax, and leptospirosis where on other side there is also demand for vaccines for aquatic, poultry and companion animals.

Target Audience

- Veterinarians
- Veterinary Technicians
- Veterinary Clinic Teams
- Researchers and Specialists
- Veterinary Faculty
- Veterinary Medicine Faculty
- Animal Sciences Faculty
- Veterinary Students
- Animal Science Students
- Veterinary Nurse
- Veterinary Groups
- Veterinary Societies
- Veterinary Associations
- Animal Health Companies

Why to attend?

- Humans are mainly dependent on animals for food, service, and companionship. This animal health conference mainly focuses on growth taking place in the veterinary field. Animal health plays a major role in biomedical research, wildlife, care of companion animals, ecosystem management, agricultural systems, food and public health.
- Join us to showcase your innovative research to gain competitive benefits. Explore your services & products by meeting your targeted audiences.
- Learning In a New Space
- To Meet Experts
- Global Networking
- New Tips & Tactics
- Rebuild Customer Base
- Certification
- Brand Establishment

Important Dates

Abstract submission opens: **August 20, 2021**

Registration opens: **August 20, 2021**

On spot registration: **October 29, 2021**
