About PULSUS

PULSUS
WWW.PULSUSCONFERENCE.COM

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

Gynecology and Obstetrics are wide and a multiple branch of science that includes Gynecologic care, monitoring and care of the pregnant women, oncology, surgery and also primary health care treatments for women. The diagnose and treatment for female genital disease is provided by a Gynecologists and the medical need and care for women when they are pregnant is given by Obstetricians. Along the historical paths these Obstetricians are referred as Mid-wives for a long time. These OB-GYN doctors face a wide variety of challenges in managing the patients of all ages starts from puberty through menopause and beyond. Most of the OB-GYNs are specialists and well trained in treating both acute and chronic health conditions; and of course, managing risk through the pregnancy and childbirth process. They initially proceed with some preventive examination in order to diagnose Gynecologic problems and generally evaluate pelvic pain, endometrial biopsy, abnormal uterine bleeding, endometriosis, urinary incontinence, infertility, pelvic masses, abnormal Pap smears, leiomyomata and the primary duties of Gynecologist includes vulvar biopsy, colposcopy, and smears. In both Gynecologic and Obstetrics conditions ultrasound is performed generally. In developing countries one of the threating cause for maternal death is being indiscreet of pregnancy complications this leads to death and disability between the women of reproductive age. Maternal deaths must be reviewed to make motherhood safer. The status of maternal deaths in the United States was part of a larger report on the global, regional, and national levels and causes of maternal mortality from 1990-2013. Women's health issues have attained higher international perceptibility in the recent decades. The transformation of women lives has changed over the decades this is because the lifespan of a women is gradually decreasing from 1970's- 1990's with a age of 85 to 50 years respectively. The famous slogan "Healthy Women, Healthy World" illustrates the fact that women act as a protector of their family and also, she plays a major role in the society by helping her communities to maintain the heath and overall wellbeing.

About City and Venue

PULSUS
WWW.PULSUSCONFERENCE.COM

Barcelona is the largest city in the autonomous community of Catalonia in Spain. It is the capital of Catalonia and the 2nd most well liked town of Spain. Other than London, Paris, Ruhr area, Milan and Madrid it is the 6th most favoured urban area in the European Union. It is one of the largest region near the Mediterranean Sea. Barcelona is bounded to the west to the tallest peak Serra de Collserola mountain which is 1,680 feet high and it is located as a trail between the two rivers Besos and Llobregat. Barcelona is one of the world's global cities by the contribution to its position by being a leading economic, cultural centre, tourist and trade fair. It also has its special impact over education, sports, science, economic, media, commerce, arts, fashion and entertainment. Barcelona can be enjoyed with a Mediterranean climate with warm to hot summer, medium to heavy rain during autumn and spring and mild winters.

From the survey given by international visitors Barcelona is the 5th most visited cities in Europe and 20th majorly visited city in the world. Business Insider has mentioned Barcelona as the 15th safest country around the world because of the management of law and order by the police force with innovatory steps which also focusses on personal safety and health safety of the people. Barcelona has well advanced higher education system in many public universities among those the most famous is the University of Barcelona with well-established campuses and a world class research and teaching institutions around the city.

Sponsorship

PULSUS
