Invitation

The PULSUS Group cordially invites all participants from around the world to the "5th World Congress on Womens Health and Midwifery" which will be held in Dubai, UAE, on January 10-11, 2022. This includes skillful keynote presentations, flourishing poster presentations, verbal speeches, and exhibitions.

Pulsus Group created and implemented this activity to enhance womens health. Womens Health 2022 is an interdisciplinary event with a variety of pathways to choose from in each area, giving you a unique opportunity to interact with professionals from industry and academics and form a scientific network between them. All concerned people are invited to attend our event and help us make it a success.

We make sure the event is a mix that covers gynaecologists, Healthcare scientists and academics, doctors, nurse associations, and makes the Womens Health 2022 conference a suitable platform because it is our concept at PULSUS to deliver maximum exposure to our attendees.

Womens Health 2022 is an annual conference for gynaecology and midwifery organisations, as well as committees, to explore the future of reproductive medicine in terms of collaboration, frameworks, and organisational development.

We hope you will join us in Dubai and spend some of your valuable time to help influence the future of Womens Health research by sharing your research work and skills.

Theme: "Spotlight on the Evolution of Womens Health"

We hope to see you on the day of the event..

Regards
Womens Health 2022
Organizing Committee

- Family Planning
- Sexually Transmitted Diseases
- Causes of infertility and treatment
- Reproductive Medicine
- Reproductive Endocrinology and Infertility
- Reproductive Genetics and Epigenetics
- Assisted Reproductive Treatment
- Health Care in Women
- Imaging and diagnostics

PULSUS

About PULSUS

Pulsus Group is an internationally renowned peer-review publisher in scientific, technical, and medical journals established in the year 1984 with offices in Ontario, Canada and Hyderabad, India has acquired Andrew John Publishing and openaccessjournals.com to expand its Open Access Publishing through its 50+ journals in association with 20+ International medical and scientific societies.

Pulsus through its cmesociety.com is been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international CME/CPD accredited conferences and meetings.

Pulsus Group is a Medical publisher that adheres to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. Pulsus Group takes pride in getting the endorsements of prestigious associations and societies like Canadian medical societies. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.Pulsus group is closely associated with globally renowned academic and research societies like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand.

Womens Health 2021

Womens Health 2021 focuses on the rapidly changing field of gynaecology and obstetrics, providing information on diseases, treatments, and other topics. This Womens Health 2021 is designed for international gynaecologists and scientists to promote the application of recognised explorational results as a tool for women to overcome diseases..

Market Analysis

Global study:

In 2015, the global market for womens health was valued at $33.0 billion, $30.88 billion in 2016, USD 108.0 billion in 2017, and USD 39.3 billion in 2018. Postmenopausal osteoporosis, hormonal fertility, endometriosis, birth control, menopause, and polycystic ovarian syndrome are all part of the women's health industry (PCOS). Because of an increasing population of elderly women over 40 and the launch of numerous medications to treat menopausal osteoporosis, postmenopausal osteoporosis accounted for the greatest percentage of the market in 2018.

Because of the high prevalence of fertility-related illnesses in industrialised nations, the hormone fertility segment is expected to rise rapidly following birth control. In addition, the availability of various hormonal imbalance medications, as well as market participants' investments in the segment, may help to increase segment penetration in the next years. Since life pressure supports market expansion, hormonal abnormalities such as thyroid imbalance, prolactin, and oestrogen rise in women.

According to a recent analysis from Grand View Research, Inc., the worldwide women's market is predicted to reach $42.12 billion by 2023 and $54.6 billion by 2026, growing at a 4.2 percent CAGR throughout the forecast period. Governments and private organisations throughout the world are focused on womens health, which could drive the market in the next years. In developed nations, women s coverage is projected to be one of the primary factors driving the industry.

Why to attend

Poster presentations, oral presentations, workshops, and numerous interactive sessions by Keynote speakers make up Womens Health 2021, which provides us with a ray of hope in the field of Womens Health research, obstetrics, and gynaecology. As a symbol of appreciation, it honours the innovators with a best poster award, best exhibitor award, and best speaker award. As a result, the purpose of this conference is to bring modern treatment and approaches in this sector to light, thereby paving the way for progress in the field of womens health. Our goal is to provide a high-quality programme that covers the complete range of research and improvements in womens health care, as well as to exchange cross-cultural experiences with various treatment modalities.

10+ World renowned Keynote speaker session

50+ Speaker faculty over 2 full days sharing evidence based on Womens Health researches.

5+ Workshops

13 Interactive sessions

Mixture of Health care units and Academia delegates

Networking

Who to attend

- Womens Health researchers
- Obstetricians
- Researchers on Gynecology
- Medical institutions
- Gynecologist
- Researchers on Obstetrics
- Academic Professionals
- Students
- Training Institutes

About City and Venue

In the United Arab Emirates, Dubai is the most populous city. It is one of the seven emirates that make up the country, and it is situated on the Persian Gulf's southeast coast. The emirate's northern shore is home to Dubai, which serves as the hub of the Dubai-Sharjah-Ajman metropolitan area.

Dubai has established itself as the Middle East's global city and business hub. It serves as a major passenger and cargo transportation hub. By the 1960s, Dubai's economy had been built on trade and, to a lesser extent, oil exploration concessions, but oil wasn't discovered until 1966. Oil money began to flow in 1969. Oil revenues supported Dubai's early development, but reserves are limited, and production levels are low: oil money provides for less than 5% of the emirate's overall revenue. The emirate's economy, which is centred on a Western-style corporate model, currently relies heavily on tourism, aviation, real estate, and financial services. Due to a spate of innovative large-scale building projects and sporting events, Dubai has recently attracted international notice. The city's skyscrapers and high-rise buildings have become iconic, particularly the world's tallest building, the Burj Khalifa.

Dubai offers world-class education as well as numerous work prospects. American University in Dubai, Hult International Business School, Al Ghurair University, The American College of Dubai, University of Wollongong in Dubai, and British University in Dubai are the most well-known universities in Dubai, offering courses in Business Administration, Engineering, Architecture, and Interior Design.

In the 2015/2016 QS World University Rankings, the American University in Dubai is one of six UAE universities mentioned. Synergy University Dubai Campus, the first university outside of Dubai's Educational Zones, opened its doors in Jumeirah Lakes Towers in 2013..

Sponsorship
