Dear Colleagues and Friends,

In this day and age, it is imperative to sustain and empower the exchange of knowledge for the Medical Sciences scene, as this indivertibly has the power to potentialize the growth and flourishment of our society to enhance the lives of millions and confront the new health paradigm that our dynamic world encounters.

It is why, it is our honour and privilege to welcome you all to join us at the **Global Experts Meet on Gynecology and Obstetric Care**, brought to you by **Pulsus Conferences**.

The medical event covers profound issues that merge the existing information on International Medicine with the latest innovation advancements and approaches to contemporary medical disciplines related to the event's theme.

The conference, which is to be held in the marvellous city of **Dubai, UAE** on the **6th-7th of December, 2021**, will enrich your perspective on how the diversity of disciplines help implement a more cohesive and exhaustive method of treating and preventing disease across the globe.

Additionally, I rest assured that your view of the current medical paradigm will be greatly expanded and nurtured with the findings and achievements of our distinguished speakers and Organizing Committee Members, most of which have broad and proactive careers in their respective fields.

We look forward to having the pleasure of coinciding with you at our meritorious medical gathering, to then create a medium of medical cooperation amongst the attendees. This will support the reinforcement and improvement of the present international health system, catapulting its transition to an enhanced universal standard in medicine.

Best regards,
