Pulsus is glad to announce the 2020 conference in the Hematology and Oncology series, the 12th World Hematology and Oncology Congress, scheduled to be held on March 2- 3, 2020 at Edinburgh, Scotland.

World Hematology 2020 will be organized around the theme "**Unravelling the enigmas in hematology & oncology**".

World Hematology 2020 is comprised of many interactive scientific sessions on different types of blood disorders and cancers as well as various diagnostic and therapeutic advancements in this field. It is an initiative to unite the diverse research and business communities working in this field under one roof to explore every single aspect of oncology and hematology. World Hematology 2020 welcomes the oncologists, haematologists, immunologists, pathologists, research scholars, industrial professionals and student delegates from biomedical and healthcare sectors to be a part of hematology & oncology conferences.

World Hematology 2020 will provide an excellent opportunity for the budding scientists and young researchers through its special initiatives like Young Researcher Forum, Poster Presentation, B2B and Scientific Meetings.

Market Analysis

According to WHO, hemoglobin disorders are affecting about 75% of births, globally, and sickle cell trait affects an estimated 1 in 12 African Americans. It is also reported that over 70% of all sickle-cell affected births occur in Africa. As per WHO, the prevalence of anemia in children is 47.4% and 12.7% in men and is increasing rapidly all over the world. According to the NIH, anemia affects 29% of women with reproductive age and 38% of pregnant women, worldwide.

Hemophilia, affects 1 in 5,000 male births, where, about 400 babies are born with hemophilia, each year, in US. Global incidence of hemophilia is observed in more than 400,000 people. The most common blood disorder, venous thromboembolism, affects at least 1 million people in US and it is a major cause of death in adults. Leukemia, lymphoma, myeloma, and myelodysplastic syndromes are types of highly prevalent cancers, where, approx every 3 minutes, 1 in the United States is diagnosed with a type of blood cancer. The need to address the rising burden of blood disorders is increasing. Early diagnosis and treatment are the best ways to protect the quality of life for a patient with blood disorder.

Hematology diagnostics market was valued to be USD 3,167.2 million in 2017 and is expected to reach USD 5,288.3 million by 2026 with a CAGR of 5.9% during the forecast period from 2018 to 2026. Based on the type of product, hematology analyzer segment shows lucrative growth in the diagnostics industry, with enhanced applications. The hematology diagnostics market tends to grow due to the increasing prevalence of blood & related disorders, cancer and other infectious diseases. Additionally, increase in awareness of these targeted diseases too drive the market growth.

Global hematological cancer therapeutics market was valued at USD 31.32 billion in 2018 and is expected to reach USD 66.34 billion by 2026, at a CAGR of 9.8%. Hematology cancer therapeutics market is driven by high incidence of blood cancer and R & D. It is also expected that Asia Pacific is estimated to grow at a CAGR of 10.5% followed by North America with 9.6%.

Due to the surge in prevalence of hematological diseases, the demand for packed red blood cells over whole blood during blood transfusion is high among healthcare providers. The global blood bank market was valued to be $11,527 million in 2017 and is expected to reach $18,649 million by 2025, at a CAGR of 6.1%.

About City and Venue

Edinburgh, Scotland's most populous city and UK's 2nd most popular tourist destination is also the 2nd largest financial centre in UK after London. The city has many historical and cultural attractions making it one of the most popular holiday destinations. March would be one of the best times to visit Edinburgh, with daffodils, bluebells, cherry blossom and rhododendrons bursting into bloom. It also has a fantastic collection of theatre shows, rugby tournaments, markets & fairs, galleries, exhibitions, etc to explore during March.

Edinburgh has also got the main NHS Lothian hospitals which includes the University of Edinburgh Medical School, and the Western General Hospital, that provides one of the best cancer care. The Cancer Research UK Edinburgh Centre also offers training in research for postdoctoral fellows open to all nationalities, getting into which is highly competitive. The centre also aims to be world class bringing innovation and twists to cancer science, drug development and clinical translation.
