MARKET ANALYSIS

Advanced Wound Care Market (AWC Market) was valued at $7,117 million, and is expected to reach $12,454 million by 2022, supported by a CAGR of 8.3%. Advanced wound care products and traditional wound care products are used to treat acute and chronic wounds. Chronic wounds take considerable time to heal and are expensive to treat. Due to its high cost, advanced wound care has emerged as a standard solution for treating chronic wounds. Advanced wound care products are gradually replacing the traditional wound care products due to their efficacy and effectiveness in managing wounds by enabling faster healing

The global wound dressing market size was valued at USD 9.16 billion in 2014 and is expected to grow at a CAGR of 4.4% over the forecast period. Wound infection is a major safety concern for patients as well as for healthcare professionals globally, thus wound care is essential to reduce infections and promote well-being of patients. Rising incidence of diseases such as pressure ulcers, diabetic ulcers and venous stasis ulcers is likely to result in a growth in demand for advanced wound care products for treating these conditions. Wound dressing helps to improve the overall well-being of patients affected from the disorders.

ABOUT VENUE

The capital and largest city of Thailand is Bangkok, also known as Krung Thep Maha Nakhon and Krung Thep in colloquial usage. As of 2020, the city's anticipated population was 10.539 million, or 15.3 percent of Thailand's total population. It is located in the central Thai delta of the Chao Phraya River and spans an area of 1,568.7 square kilometres (605.7 sq mi). Bangkok is an extreme primate city, dwarfing Thailand's other metropolitan centres in both size and significance to the national economy, with over 14 million people (22.2 percent) residing inside the surrounding Bangkok Metropolitan Region as per the 2010 Census.

Bangkok is the 69th-largest province in Thailand, with a total size of 1,568.7 square kilometres (605.7 sq mi). 73rd in the globe. In order clockwise from the northwest, the urban expansion of the city extends into portions of the six neighbouring provinces that it borders: Nonthaburi, Pathum Thani, Chachoengsao, Samut Prakan, Samut Sakhon, and Nakhon Pathom. These provinces—with the exception of Chachoengsao—along with Bangkok make up the Greater Bangkok Metropolitan Region.

Bangkok is a popular tourist destination worldwide. With little over 20 million overnight visitors in 2017, Bangkok surpassed London to be named the world's top destination city by foreign visitor arrivals among the 162 cities included in MasterCard's Global Destination Cities Index 2018. Its rating from 2017 was repeated here (for 2016). Bangkok was placed fourth in the Top City Destinations Ranking for 2016 by Euromonitor International. Bangkok received the title of "World's Best City" for four years in a row, from 2010 to 2013, according to a reader survey conducted by Travel + Leisure magazine. Bangkok is frequented by the majority of foreign visitors to Thailand because it serves as the country's primary entry point. Domestic travel is also often used. In 2010, Bangkok welcomed 26,861,095 Thai and 11,361,808 foreign visitors, according to the Department of Tourism. 15,031,244 visitors made reservations for lodging, taking up 49.9% of the 86,687 hotel rooms in the city. In rankings for the world's top tourist destinations for 2017, Bangkok again claimed the top spot
