$E \rightleftharpoons Ms^2$

Paper Title-The Discovery Of The Light Source-Suntaroon

Author's name-Dr.Nitin Kumar

University Name-L.P.U. Jalandhar,Punjab(India)

Keywords-universal physics.(applied physics-atomic,nuclear,space,plasma,modern field)

Theory Introduction:-

For over 200 years the enuniciated by Newton were belived to describe nature and the first time that an error in these laws was discovered the way to correct. It was also discovered both the error. And its correction were discovered by eienstien in 1905.but i am on my research from last5-6 years and i found something is missing in $E=mc^2$.Some pheneomena is not explained relativity and photoelectric effect. But in research period i obserb many different type of result in that theory. After deep thinking i discover a new advance relation between mass and energy. And i got an equation-$E \rightleftharpoons Ms^2$.This is the perfect relation between mass and energy. It is anew step in the field of relativity and photoelectric effect. This equation gives us a new think in the field of space, atomic, nuclear, modern, plasma,etc.

Theorem –

Every mass and energy has reversible form. According to this equation mass changes into energy and enrgy changes into the mass with 100% efficiency.

Relation between c(photon) and s(suntaroon):-

According to Eienstien "c" is the light partical and he observe its speed is $3X10^8$ m/s. But according to Nitin "s" is the light source who created the photon(c). And it's speed is $9X10^{12}$m/s and it is perfectly strong in a physical sound.it is verified in sun-wave experiment. If you travel a mass with the speed of 's' it fully changes into the energy. Here the mass is constant but energy is in the form of reversible product. After some time ($t \rightarrow 0$) energy gain the form of mass(energy).This verified the nature of light.

According to this predication light have single character. This character is atom(according to sun's fusion reaction). In sun's fusion reaction, the speed of suntaroon is so high that creats the photon and many other particals (atom).

Every physical reaction related to the suntaroon phenoemina. Sun is also made by suntaroon. Suntaroon stay on the centre of the sun. It's colour is black. This is because of the mix of carbon, hydrogen, nitrogen, and many more partical(atom)'s colour.

Process:-

Mathematical proof:-

$$E \rightleftharpoons Ms^2$$

$$Ms^2 \rightleftharpoons ms^2 + \tfrac{1}{2}mc^2$$

$df/dt = F.s$ (F is changeable form)

$$F \rightleftharpoons d(Ms)/dt$$

$$d(Ms^2)/dt \rightleftharpoons c.d(ms)/dt$$

or

$$d(Ms^2)/d(mc^2) \rightleftharpoons N$$

(Here N is the Nitin's constant)

Note:- This constant's value can't be decided. Because suntaroon's gravity affects the every moment.

$$S^2(2m)dm/dt \rightleftharpoons 2mc\ d(mc)/dt$$

(s>>>>>>>>>>>>c)

$$M(energy) \rightleftharpoons m/\sqrt{(1-c^2/s^2)}$$

(s^2>>>>>>>>>>>c^2)

Eienstien modification of m for newtonin machanics . We start with the newtonin law that force is the rate of change of momentum or

$$F=d(mv)/dt$$

But according to new high and modern predication

$$F \rightleftharpoons d(ms)/dt$$ (Here ms is the energy product)

And $dE/dt=F.s$

<u>Old experiment :-</u>

$${}_0n^1 + {}_zx^A \rightarrow {}_zx^{A+1} + \gamma \rightarrow$$ excited state

(newtron reaction)

$$_0n^1 + {}_{92}U^{235} \rightarrow {}_{92}U^{236**} \rightarrow$$ intermediate excited state

<u>Sun experiment</u> :-

$$_cS^{e-} \rightarrow /\backslash/\backslash/\backslash/\backslash/\backslash\rightarrow \; {}_{z-1}S^{A-1}$$

$$/\backslash/\backslash/\backslash/\backslash/\backslash/\backslash/\rightarrow \; {}_{z-2}S^{A-2} + \infty$$ energy [s is suntaroon (atom)]

Note:- In all three step speed of ‘s’ is different-diffrent

<u>Figure:-</u> Suntaroon Hydrogen Atomic Bomb Blue Print.

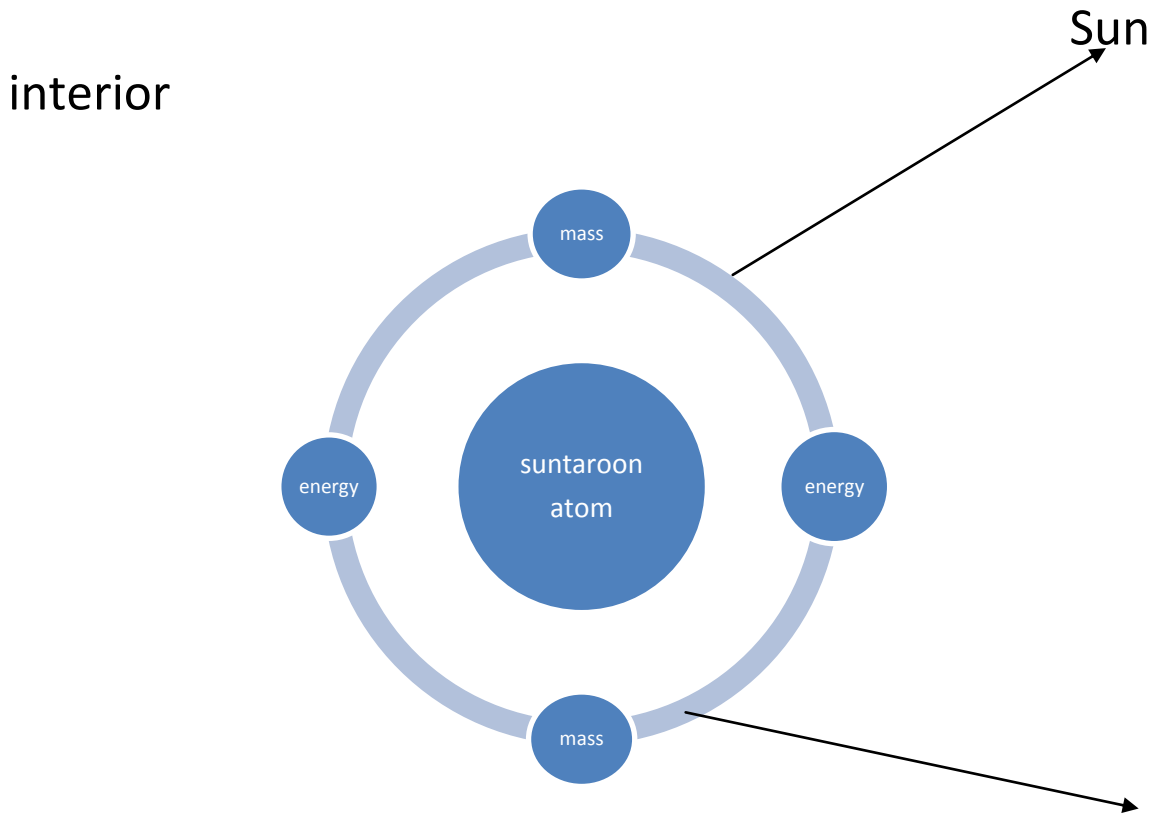

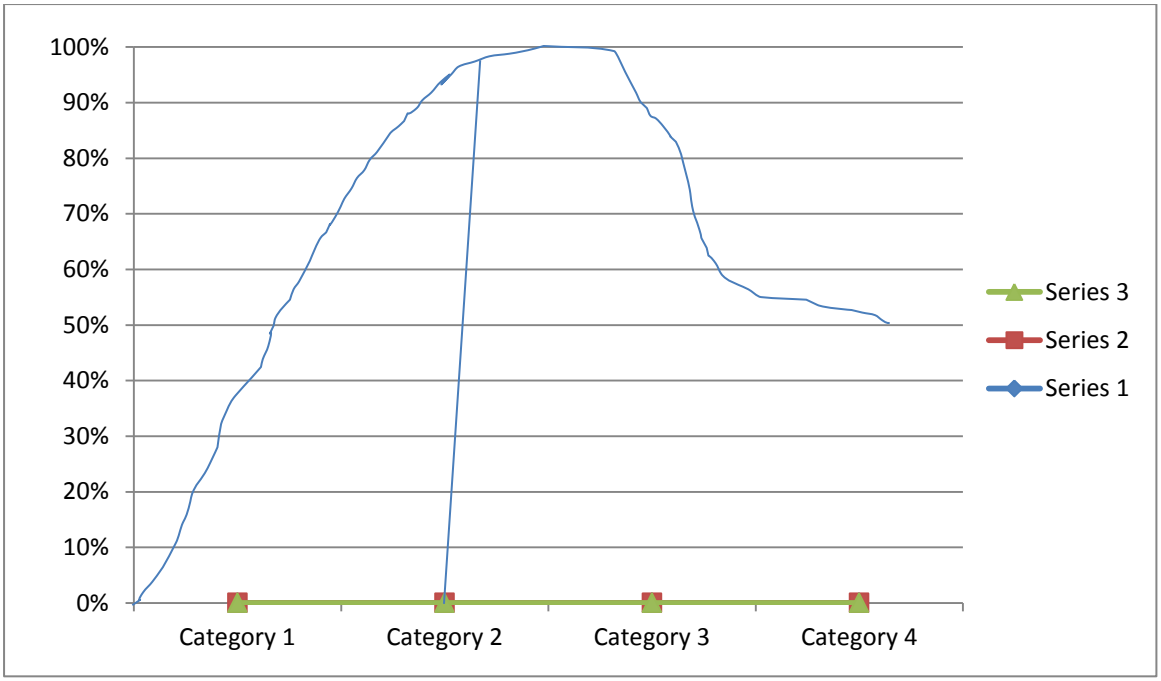

Figure 2---

This graph between energy and work

Note:- no loss of any type of energy without friction.

Work efficiency =output/input = 100% (error 1-2%)

Conclusion:-

After 1905 it is so advance theory in the relativity that affects the field of space, atomic, nuclear, quantaum, and high partical physics, cosmology, etc. It's a golden gift for new scientists and schoolers. This theory is based on nature's activity . all phenoemina is very clear by nature and solar system.

Pleasent request to all of you to feel this theory according to nature. Nature has changeable and changing is the law of nature.

Thanks

Dr.Nitin Kumar
