VerTexx LivingWall System Advantages

- Use for commercial and consumer projects—indoor or outdoor
- Customize layout and vegetation with edibles or ornamentals
- Trays securely lock-in side-to-side and top-to-bottom
- Easy seasonal replacement of trays and Soxx™—even in a grown-in wall
- Galvanized steel frame supports dense foliage
- Integrated drip irrigation system waters efficiently and evenly
- Potential for LEED Points in several categories
- Enhanced plant health and maintenance ease
- Improved air quality and carbon reduction
- Sound absorption and noise reduction

Spec's and CADs available at filtrexx.com/specifications

GrowingMedia™ and GardenSoxx® Advantages

- Optimum drainage, aeration, nutrients, and volume to grow a healthier root system and more productive plants
- GardenSoxx mesh lets excess water out, and lets essential oxygen in
- Additional air flow helps to cool the root zone, improving growth
- Specially blended lightweight GrowingMedia helps to suppress disease, retain moisture and provide a steady supply of nutrients
- Can be pre-grown and tagged for quick and accurate placement in wall

Made in USA

USDA CERTIFIED BIOBASED PRODUCT
