Dr. Jabbar Mollah

Abstract Theme: "**AYURVEDIC MEDICINE FOR DIABETIC TREATMENT**"

Abstract:

AYURVEDIC MEDICINE has been serving for a long time for human treatment. As taking treatment this natural medicine, derived from natural extracts, the human relieves from various diseases, on the other hand it has no side effect. In this stage I am addressing main point of my words. The main point of my words is; "**AYURVEDIC MEDICINE FOR DIABETIC TREATMENT**" In different time it is found in Clinical Trial that, using Pharmacopeia Medicine to control Diabetics is negative effect for the human body (Insolence and orally) (Ref: Dhaka University Research Unite, Bangladesh). As a result the organ of human body becomes week step by step. As a result the Immunity decreases day by day, at the one stage the patent unable to control the Diabetics in spite of using Immense Insulin. It is proved, keeping clinical trial some patient whom were unable to control their Diabetics in-spite of using Insulin, while it is possible to control the diabetics treating with **AYURVEDIC MEDICINE** and the patient felt healthy (Ref: Nur Medical & Research Center, 2010). It is proved in Research theory that, it is possible to lead a healthy life controlling the Diabetics using **AYURVEDIC MEDICINE** without any side effect. (Ref: Nur Medical & Research Center, 2010). I would like to mention that, Ayurvedic treatment is a Researchable treatment to relieves from Diabetics. Further I would like to inform the cosmopolite that, Take the **AYURVEDIC TREATMENT, BE HEALTHY**, I request to the people of the world through "14th **INTERNATIONAL CONFERENCE ON FRONTIERS IN ALTERNATIVE & TRADITIONAL MEDICINE** that, please take appropriate action to extent the Ayurvedic treatment.

Thankfully

Dr. Jabbar Mollah
