

Title: - **Web Design FOR** school management system In Ethiopia

Name:-Yonas Abebaw

Ethiopia

Web design is the process of creating websites. It encompasses several different aspects, including webpage layout, content production, and graphic design. Web design is technically a subset of the broader category of web development. Hence, this study inquires the school management system in Ethiopia from the perspective of web design. Under in Ethiopia school management system, most of its recording is conducted manually and in a backward manner. Thus, it has aimed to replace the traditional manual paper into a web based system by using web design.

This study was done by different data gathering tools; such as, interview which helps to get a required information in a greater detail on the existing system, document analysis, system development methodologies like object oriented analysis and design approach were selected to analyze. Development environment, programming and other tools were employed like CSS3, AJAX, JQUERY and PHP.

Finally, from study conducted and the final result, Developing web design for school management system will be important for better usage of time and resources, some of them Account management, Batch and Course management, Student Attendance management, Class Schedule management, Exam Schedule and Exam data Management and also it creates a room for communication of students' parent with school teachers it avoids or reduces errors and most importantly to provide timely information for anybody who wants it. It is therefore I suggest any esteemed academic institutions to developing web design use betterment of information communication safely.

Biography

I have diploma in graphic and computer science also I have been learning degree program in computer since. And also I was certified national exam (COC) in graphic and computer science. I am working in Ethiopian public health institution (EPHI) also I have my privet PLC company, by this company I have developed web graphic for a certain PLC here in Ethiopia.
