Chin & Jawline Augmentation

Ash Labib Aesthetics

Ash Labib FRCS, DLO, MBCHB

ENT Surgeon and Cosmetic Specialist

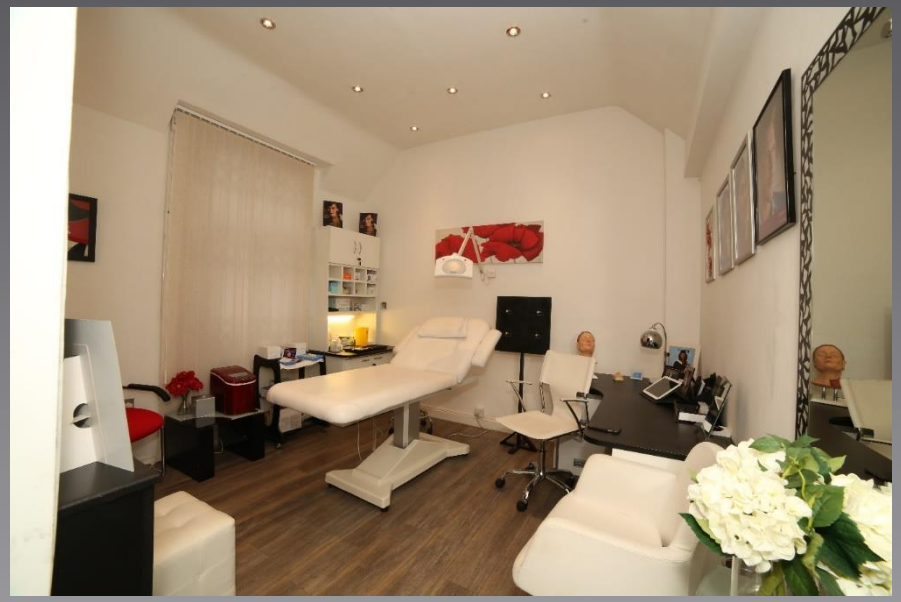

Mr Ash Labib (FRCS, DLO) is an Ear, Nose and Throat Surgeon, a leading cosmetic specialist, and the owner and founder of AL Aesthetics.

During his career as a surgeon for 24 years at the NHS, he sub specialised in Rhinology and Rhino-plasty. Over the last 5 years he co-pioneered the Non-Surgical Rhinoplasty procedure (the 15 mi-nute nose job). Mr Labib now teaches, lectures and trains fellow injectors about the safe technique in injecting noses.

Mr Labib is also an International Ambassador for Allergen, and in this role he delivers training on advanced facial aesthetics both nationally and globally. He also takes part in clinical research and audits.

Mr Labib runs local and national courses and training days on Non-Surgical Rhinoplasty as well as advanced masterclasses in Derma Fillers and Botox injections. He is a key opinion leader and great believer in safe, professional and ethical aesthetic practices.
