BIOMEDICAL EMPORIUM PROFILE

Biomedical Emporium was established and registered in 2002. Biomedical Emporium cosmeceutical skin products are formulated by the highest expertise of Biomedical Scientist Tissue Engineer to ensure the encouragement of the best skin quality.

Biomedical Emporium only utilizes quality pharmaceutical grade raw materials in all formulations. All products are cosmeceutical products which means that all cosmetic products comprise of medicinal benefits.

Dr Judey Pretorius is a Dermatological Biochemist with a PHD degree and has a history of formulation advanced skin serums, facial products as well as wound care products.

PRODUCTS AND SERVICES PROVIDED BY BIOMEDICAL EMPORIUM

· Specialists in advanced skin serums
· Skin clinic services – customised skin evaluation and treatments
· Diagnostic skin treatments for all skin types and skin diseases
· Formulation of pharmaceutical and cosmeceutical products
· Advanced skin care training to all beauty therapists

SKIN DIAGNOSTIC TESTS (SKIN ANALYSIS)

a) We are using the Skin Analysis Form to conduct a basic skin test on a client.
b) Moisture content and skin barrier content equipment are used to conduct a comprehensive skin evaluation. Appropriate and personalized skin treatments can be suggested after such diagnostic tests.

2

PRODUCT RAW MATERIAL

The Biomedical Emporium products comprise of high pharmaceutical grade materials which complies with various international compendia requirements.

PRODUCT KEY FEATURES

Knowing the key features of the products is extremely important when interacting with clients.

ADVANCED SKIN SERUMS

Retinol Serum (722644001)

- Cellular resurfacing
- Complexion enhancer
- Stimulates cellular turnover
- Improves complexion
- Works against visible signs of ageing

Anti-Acne Serum (722650001)

- Mechanical restructuring
- Detoxifies skin
- Chemical exfoliation
- Skin Calming & Anti-inflammatory

Dark Spot Correction Serum (722649001)

- Advanced anti-oxidant
- Barrier protector
- Photo protector
- Natural skin brightening
- Rescue of UV damaged cells
- Skin calming agent
- Minimizes the signs of photo-aging
- Improves Complexion

Collagen Serum

- Enhance skin elasticity
- Prevent moisture loss
- Enhance skin firmness
- Prevent wrinkles

Shave-Relief Serum / Skin Repair Serum (722647001)

- Skin calming
- Anti-inflammatory
- Soothe irritated skin
- Decrease pore size
- Smooth appearance

Vitamin E Therapy (722648001)

- Cellular restructuring – cell organising agent
- Helps to maintain the anti-wrinkle effect
- Cell energy booster
- Reshapes facial contour
- Cell densifying agent – skin densification
- Wrinkle reducer
- Decrease the length and depth of wrinkles
- Promotes cellular longevity
- Restoration of facial volumes
- Advanced skin hydration
- Skin elasticity enhancer

Facial Cleanser

- Chemical exfoliation
- Skin calming
- Skin degreasing agent
- Smooth appearance

SILVER DIAMOND RANGE

Luminous Milk Cleanser

- Creamy skin decreasing agent
- Anti-inflammatory
- Deep cleansing
- Skin degreasing properties
- Decreases sebum production
- Reduces pore size

Make-up Remover

- Mild hydrating and calming cleanser
- Effective debris and pigment remover
- Rich in anti-oxidant activity

Vitamin & Mineral Spritz

- Normalize skin unbalanced the stratum corneum
- Enhances the skin barrier function
- Improves skin imperfections
- Has anti-inflammatory activity
- Has anti-oxidant activity
- Delays cellular senescence
- Keeps the skin hydrated

HA Contour Masque

- Restores elasticity and firmness
- Retains skin moisture
- Improves skin elasticity
- Long-term cellular hydration
- Dermal hydration
- Collagen restructuring
- Skin dandifying
- Complexion Enhancer

Enzymatic Therapy

- Enzymatic removal of dead skin cells
- Enzymatic exfoliation
- Cellular proliferation and differentiation
- Enhancement of Cellular energy

Peptide Therapy (622646001)

- Tissue repair
- Improves skin elasticity
- Long-term cellular hydration
- Repairs and maintains skin barrier function

Retinol Night (722645001)

- Protects the cells from oxidative damage
- Visibly reduces signs of aging
- Smoothens lines and wrinkles
- Restructures and densities the dermis
- Reduces skin roughness
- Reduces hyper-pigmentation
- Improves epithelization of the skin
- Improves the appearance of fine lines and wrinkles

Translucent Day SPF 30

- Protects the skin cells from oxidative stress factors
- Prevents skin from photo aging
- Reduces redness caused by UV radiation

Eye Structure Gel

- Reduces the depth of expression wrinkles
- Promotes elastic fiber architecture
- Decreases the visible effects of gravity on the skin
- Fight against contentious sagging
- Decreases the appearance of dark circles around the eyes

Stretchmark & Cellulite Therapy

- Restores destructed collagen fibers
- Promotes elastic fiber architecture
- Decreases the visible effects of gravity on the skin
- Fight against continuous sagging
- Reduces skin roughness

Home Exfoliating Chemical Peel Set

- Condition serum
- Exfoliating peel (15% strength)
- Construct serum
- This is enough for 3 x face, neck and hand peels

PROFESSIONAL PRODUCTS

1. Bio-Glycolic Peel
2. Bio-Salicylic Peel
3. Bio-Lactic Peel
4. Bio-Alkaline Peel
5. Bio-Stratum Peel
6. Bio-Syntha C Treatment

- Condition serum
- Respective peel
- Construct serum

(This is for skincare clinics, GP's and dermatologist use only.)

WOUND CARE PRODUCT

Wound Occlusive

- Cellular restructuring and advanced skin hydration
- Enhanced skin elasticity and restoring skin density
- Antiseptic, antimicrobial, antipyretic, anti-inflammatory, anti-allergen, antioxidant, healing and cleansing (external and internal), moisturising and blood purifying
- It promotes rehydration, easily digestible, stimulates immunity and is beneficial for all types of skin diseases
- Skin healing

SPECIALISED PRODUCTS

Bio-Body Peel Set

- Cellular restructuring and advanced skin hydration
- Enhanced skin elasticity and restoring skin density
- Promoting skin proliferation and removing corneocytes
- Skin healing

Q10 Tissue Oil

- Energises the skin
- Protects the skin against free radicals
- Rejuvenate the skin by stimulating cell activity
- Stimulates collagen production
- Acts against oxidative damage

Hand Refine Peel Set
a) Hand Exfoliant
b) Hand Concealer

- Reduce signs of ageing
- Reduce sun spots
- Instant Hydration
- Removal of weak skin cells & improve product absorption
- Improve & stimulate collagen synthesis

The Bio Medical Emporium conducts periodic training across South Africa on products and professional treatment protocols.

Dr Judey provides personal training to skin clinics, therapists, aesthetic practitioners, dermatologists and sergeants using the Biomedical Emporium products.

5

REQUIREMENTS FOR A HEALTHY SKIN

Collagen and elastin are critical building blocks for a healthy skin structure. Unhealthy aging skin that lack collagen and elastin leads to decreased amounts of HA, dullness, and sagging skin. How is this science applicable today?

What do we have to do to obtain this cellular harmonisation? We need a product that will address the mechanisms of aging – which should be of a cosmeceutical and cellceutical nature. Cellceutical – you want to have a product that works on cellular and molecular level CORRECT DELIVERY SYSTEM (LOTION, CREAM, LIQUID), active ingredients that stimulates a biological and therapeutic response.
