

Title of speech: "Guided bone regeneration and implant restoration on moderately resorbed labial edentulous ridge"

Name: Baraga, Crunchy Jane K. DMD.,MScD Prosthodontics

University Name: University of the East College of Dentistry Graduate School, Prosthodontic Department Manila Philippines.

Mail Id: crunchybaraga.dmd@gmail.com

Abstract:

A patient is treated for esthetic and function replacement of old porcelain fused to metal crowns to CAD-CAM Zirconium layered crowns. The treatment procedure was done at the infirmary of prosthodontic department UEGS. De-crowning and implant placement is done thru a multi-disciplinary team. A surgeon, a prosthodontist and the final restoration is fabricated using a CAD-CAM machine for its coping at one of the biggest Dental Laboratories in the Philippines. Patient's management is challenging because of the behavior itself.

Biography:

Dr. Crunchy Jane K. Baraga is a graduate of University of the East 2011, she completed her master's degree at the same university and earned her next degree as Master's of Science in clinical dentistry in the field of prosthodontics.
