Introduction

Nurses are responsible for delivering safe nursing practice that incorporates the available guidelines and evidence with the expertise of professional. Therefore, nurses should keep themselves abreast of the updated nursing guidelines and literatures. Nurses, as well as nursing students also require competences to provide evidence- based care in order to maintain good and safe practice in clinical works. Journal club serves as a platform for nurses to share the knowledge of current clinical research and discuss the best practices. Besides, periodic case sharing provides an opportunity for nurses to present the case management and analyze the clinical problems. In addition, regular sharing of updated guidelines, news and incident. Aims to build a safety culture through peer learning, critical thinking, discussion and interaction among nurses.

Conclusion

Journal and case sharing club provides a platform for nurses to share evidence-based practice. Besides, it is practical for nurses to enhance knowledge and increase confidence in workplace through sharing their experience in case management. Nurses identify the process of assessment, planning, care coordination, evaluation, and available resources to meet an individual's and family's needs. Incident sharing session is also benefit for increasing staff awareness while applying nursing care in daily practice.
