"Charles Cary is a man on a mission, a mission to help other people to find the untapped strength that they have within, yet far too often do not realize that they have. I have known Charles for a number of years and have always been impressed with his willingness to keep looking deeper and deeper inside himself to find the gifts and abilities that were hidden by situations, circumstances and environment. He grew up in the urban landscape and fell into a pattern that we often see with young people in that environment, drugs and alcohol. Charles struggled with addiction, but looked inside and found strength to overcome it.

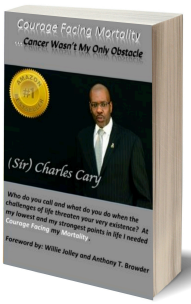

He has struggled with relationship issues and eventually divorce, but looked inside and found the strength to survive it and not be bitter. He has struggled with cancer and looked inside and found the strength to look cancer in the eye and make it retreat! He is a man on a mission to help you continue to not just GO through the challenges of life, but to GROW through the challenges of life! His book will help you to do just that! I appreciate Charles Cary for his continued willingness to be transparent and open his life up, in an effort to help others! Bravo Sir Charles, Bravo! I recommend you read this book and then share it with friends, you will be glad you did!"

I highly recommend and have referred people to pick up Radiate The Brain because it is the truth and a page-turner. I guarantee anyone who picks it up will automatically want to finis it in one read. **–Vona Smith, Assistant at Bronx, DA**

- Sir Charles you've done a great job as a vendor and as a facilitator. The event was a success and your experience with government and private industry has obviously enhanced your skill sets (not only as a trainer/ speaker...but also as a facilitator). --**Sharon Parker, President, ROASA**
