President & Vice Chair
American World Clinics™

Robert's professional expertise is founded in healthcare having led business and medical staff development with four different health systems in the U.S., a founder of American World Clinics and now consulting and collaborating independently via RFP-Global.

Robert sees two distinct yet significant opportunities focusing on development-based independent healthcare or medical tourism projects, as well as on resource integration with projects that combine distinct layers of healthcare access involving both for-profit and public health goals.

From initial strategy and business visioning to full project management, RFP-Global brings together the individuals, the team necessary to create successful, sustainable healthcare and medical projects.
