3RD INTERNATIONAL CONFERENCE ON

3D PRINTING AND ADDITIVE MANUFACTURING

FEBRUARY 20-21, 2023

PARIS, FRANCE

Invitation to attend 3D PRINTING CONFERENCE 2023

We look forward to see researchers from all around the 3rd International Conference on

3D Printing and Additive Manufacturing during February 20-21, 2023 the delightful venue of Paris, France. 3D PRINTING CONFERENCE 2023 is the premier international forum to present and discuss progress, research, development and application of the major topics related to 3D Printing, Nano Particles and Their Applications

The 2023 edition of the summit will offer high quality and relevant research session, poster session, workshop, exhibition, panel discussion etc. for the better understanding of the subject. The conference agenda has been prepared by the scientific committee to enable the exchange of ideas and to expand network with leading experts and researchers during the summit.

3D PRINTING CONFERENCE 2023 will be a great meeting point for sharing the latest research papers of academic as well as to experience the matchless environment of Paris, France which has been known for its artistic, cultural as well as scientific developments.

We look forward to your participation for 3D PRINTING CONFERENCE 2023 summit at Paris, France.

Sincerely,

Operating Committee

3D PRINTING CONFERENCE 2023

Scientific Sessions

- Impact of 3D Printing on Manufacturing Industry
- Advances in 3D Printing & Additive Manufacturing
- 3D Printing Materials
- Innovations in 3D Printing
- 3D Printing in Space and Aerospace
- Additive Manufacturing and 3D Robotics

Why to join

- Meet Experts & Influencers
- Networking Opportunities
- Learning In a Global Space
- Added Research Value
- Investment in Knowledge for Future

Paris Attractions

Paris, city and capital of France, situated in the north-central part of the country. People were living on the site of the present-day city, located along the Seine River some 233 miles (375 km) upstream from the river's mouth on the English Channel (La Manche), by about 7600 BCE. The modern city has spread from the island (the Île de la Cité) and far beyond both banks of the Seine. Paris occupies a central position in the rich agricultural region known as the Paris Basin, and it constitutes one of eight départements of the Île-de-France administrative region. It is by far the country's most important centre of commerce and culture. For centuries Paris has been one of the world's most important and attractive cities. It is appreciated for the opportunities it offers for business and commerce, for study, for culture, and for entertainment; its gastronomy, haute couture, painting, literature, and intellectual community especially enjoy an enviable reputation. Its sobriquet "the City of Light" ("la Ville Lumière"), earned during the Enlightenment, remains appropriate, for Paris has retained its importance as a centre for education and intellectual pursuits. Paris's site at a crossroads of both water and land routes significant not only to France but also to Europe has had a continuing influence on its growth. Under Roman administration, in the 1st century BCE, the original site on the Île de la Cité was designated the capital of the Parisii tribe and territory.

Paris in February tends to be cloudy and cold, however, there can be a few milder afternoons, especially near the end of this month.

Important Dates

Registration Open: **June 01,2022**
Early Bird: **July 10,2022**
On Spot Registration: **February 20,2023**

Registration Prices

Speaker Registration **480 euros**
Delegate Registration **380 euros**
Young Research Forum **350 euros**
Exhibitor **840 euros**
