Global Congress on

Asthma, Allergy and Immunology

May
23-24, 2018

Singapore

Theme:
Innovative Studies on Immunity: To Control Asthma & Allergy

http://asthma.conferenceseries.com/

Invitation

Dear Colleagues,

Conference Series is delighted to welcome you to Singapore for the prestigious Global Congress on Asthma, Allergy and Immunology.

AAI Congress 2018 will focus on the theme "Innovative Studies on Immunity: To Control Asthma & Allergy". We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Singapore.

With Regards,
AAI Congress 2018 Operating Committee
Conference Series Conferences

Editorial Board Members of Supporting Journals:

Yutong Zhao
University of Pittsburgh, USA

Daisuke Tsuruta
Kurume University, Japan

John J Murray
Meharry Medical College, USA

Marc E Rothenberg
University of Cincinnati, USA

Wilbert S Aronow
New York Medical College, USA

Richard Warrington
University of Manitoba, Canada

Toshiharu Hayashi
Yamaguchi University, Japan

Ralph Mosges
University of Cologne, Germany

Detlef Brehmer
University of Witten/Herdecke, Germany

Fulvio Braido
University of Genoa, Italy

Giuseppe Caruso
University of Siena, Italy

Domenico Ribatti
University of Bari Medical School, Italy

Ken Ohta
Teikyo University, Japan

Michael Wallner
University of Salzburg, Austria

I-Jen Wang
Taipei City Hospital, Taiwan

Vineet Bhandari
Yale University, USA

Hideaki Morita
Swiss Institute of Allergy and Asthma Research, Switzerland

Daniel Goh Yam Thiam
National University of Singapore
Singapore

Amali E Samarasinghe
University of Tennessee Health Science Center, USA

Accommodation

A large number of rooms have been reserved. Discounted room rates for AAI Congress 2018 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Asthma, Allergy and Immunology.

About Singapore

Singapore officially the Republic of Singapore, and often referred to as the Lion City or the Little Red Dot, is a sovereign city-state in Southeast Asia, and the world's only island city-state. Singapore is a global commerce, finance and transport hub. Its standings include: the most "technology ready" nation (WEF), top International-meetings city (UIA), city with "best investment potential" (BERI), second-most competitive country, third-largest foreign exchange market, third-largest financial centre, third-largest oil refining and trading centre, and the second-busiest container port. Singapore is a major international transport hub, prospered as an important point for land and water transportation as well as a commercial city. Singapore's territory consists of a diamond-shaped main island along with 62 other islets and its greening policy has covered the densely populated island with tropical flora, parks and gardens. Singapore consists of 63 islands, including the main island, Pulau Ujong. There are two man-made connections to Johor, Malaysia: the Johor–Singapore Causeway in the north and the Tuas Second Link in the west. Jurong Island, Pulau Tekong, Pulau Ubin and Sentosa are the largest of Singapore's smaller islands. Gardens by the Bay is a surreal green oasis in the heart of Singapore. It brings plants to life in a way you've never seen before. There you are surrounded by nature whilst feeling like you have stepped into the Avatar movie. This huge, colourful, futuristic park is famous for its high-tech Super tree Grove – a collection of magical giant trees – as well as Cloud Forest and Flower Dome. One of the attractions at Marina Bay Sands, the Art Science Museum is the world's first Art Science museum, opened on 17 February 2011. This unique building is shaped like a lotus flower in bloom, and is anchored by a round base in the middle, with ten extensions referred to as "fingers", designed to be a symbolic gesture of welcome to guests from across the globe.

It's easy to get around when you're in Singapore. Taxis are easy to find as well as buses that are convenient, safe and inexpensive. Singapore's well-connected public transportation system ensures you will always travel effortlessly from one place to another.
