Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

Best Tourist Destinations in Yokohama

About Yokohama

Yokohama city and port, capital of Kanagawa ken (prefecture), east-central Honshu, Japan. The second most populous city in the country, it is a major component of the Tokyo-Yokohama metropolitan area, the largest urban agglomeration in Japan.

The city has served as a gateway to the world and played an important role in the development of modern Japan. The city has cultivated a wide range of art and culture through its distinct and appealing cityscape and local resources, including historic buildings around the port and other waterfront locations that attract both local residents and tourists. The City of Yokohama is currently promoting the Creative City Measures in order to realize autonomous self-reliant development and increase new values and appeal in the city in the future.

Towards the end of the Edo Period (1603-1867), during which Japan maintained a policy of self-isolation, Yokohama's port was one of the first to be opened to foreign trade in 1859. Consequently, Yokohama quickly grew from a small fishing village into one of Japan's major cities. Being the first port city opened to the world in 1859, Yokohama has a blended atmosphere of multiple cultures and architectures with a large international presence, ranging from delicacies of the restaurants in Chinatown to English garden all blended in the Japanese culture and traditions.
