Invitation

Dear Attendees,

We are glad to announce the **11th International Conference on Advances in Chromatography & HPLC Techniques** to be held in **Dublin, Ireland** from **April 22-24, 2019** organized by Conference Series LLC, in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of Advances in Chromatography & HPLC Techniques. Advances in Chromatography-HPLC Congress 2019 anticipate more than 500 participants around the globe with thought provoking Keynote lectures, Oral and Poster Presentations. This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists. The intending participants can confirm their participation by registering for the conference along with your colleagues. The main theme of the conference is *"Exploring the Scientific and Industrial Advancements in Chromatography Techniques".*

Life is full of give and take. Make it count in your professional life. Attend the Chromatography-HPLC conference 2019 to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Dublin in April.

Sincerely,
Advanced Chromatography-2019
Organizing Committee

About Us

Advanced Chromatography-2019

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ facebook fans Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be
published inrespective UK: Conference Series llc LTD Journals
Each abstract will be provided with digital Object Identifier by Crossref

About Conference

Advanced Chromatography-2019 Conference website is attracting 25000+ Analytical Scientists and Experts, online visitors ranging from Researchers, Academiciansand Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Advanced Chromatography-2019 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Chromatography and HPLC present the most recent research findings, and promote and enhance scientific collaborations around the world
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriersthat limit access to care and services.

Information Brochure

About Conference

Objectives

- After participating in this meeting, attendees should be able to
- Discuss emerging issues in Chromatography and analytical science
- Discuss and apply recent research findings related to Chromatography and analytical science
- Reflect on the place of critical distance in Chromatography and analytical science

Who should attend

11th International Conference on Advances in Chromatography & HPLC Techniques is exclusively designed for AnalyticalScientists, expert researchers, Pharmaceutical industries, Instrument manufacturers, biochemists, Life science researchers, andothers engaged in endeavours related to Chromatography research and business.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

MajorSessions

- Major Chromatographic Techniques
- Advances in Chromatography-HPLC instrumentations
- Chromatography & Mass Spectroscopy
- Chromatography-HPLC in Pharmaceutical
- Chromatography-HPLC in Food Sciences
- Biochemical Applications of Chromatography-HPLC
- Chromatography-HPLC in Bioinformatics & Computational Biology
- Analytical & Bio-analytical Applications of Chromatography-HPLC
- Chromatography-HPLC in Bio-Medical Research
- Hyphenated Chromatography-HPLC Methods
- Chromatography-HPLC as Separation Technique
- High Efficiency & High Resolution Techniques
- Method Development & Validation
- Recent Advances in Chromatography-HPLC
- Chip Based Chromatography Separations
- Market growth of Chromatography-HPLC

Information Brochure

About Dublin

Dublin was voted Europe's fourth most popular city break destination, behind London, Paris and Rome and is one of the friendliest capital cities in the world. Dublin's elegant Georgian architecture makes it one of Europe's most attractive capitals. The capital is a strange mixture of the busy city centre, outlying village-like communities, and huge suburban estates all melting together into one big metropolitan sprawl. The tourist will more than likely stick to the walkable centre (roughly defined by Parnell Square to the North, St Stephen's Green to the South, Custom House to the East and the cathedrals to the West), with only excursions to the Phoenix Park, Kilmainham Gaol, or the Guinness Storehouse taking him out of this area. Dublin is a relatively small and accessible city, small enough and safe enough to get around on foot, while the Luas tram system and the suburban rail system, the DART, provide excellent transport links throughout the city.

The language spoken in Dublin is English. Street signs and official buildings are signposted in both English and Gaelic, the indigenous Irish language. The currency in use in Ireland is the Euro. Visa and Master Card are the most widely used credit cards in Ireland. If you plan on visiting a pub it is advisable to bring some cash. You will also need cash for taxis and most public transport.

The city is serviced by only one airport, Dublin Airport. Dublin is one of the ten busiest airports in Europe with an average of 60,000 passengers per day, rising to 80,000 during the peak season. Many international airlines fly to Dublin Airport. Dublin city centre is accessible from the airport by bus and taxi. The journey from Dublin Airport to the city centre takes approximately 45 minutes. Both buses and taxis use special lanes and can avoid the worst of the traffic. Prices for a journey into the city centre by bus start from €6.00. A taxi fare to a city centre location will set you back approximately €25.00.

Similar to much of the rest of north-western Europe, Dublin experiences a maritime climate (Cfb) with cool summers, mild winters, and a lack of temperature extremes. The average maximum January temperature is 8.8 °C (48 °F), while the average maximum July temperature is 20.2 °C (68 °F). On average, the sunniest months are May and June, while the wettest month is October with 76 mm (3 in) of rain, and the driest month is February with 46 mm (2 in). Rainfall is evenly distributed throughout the year.

Shops are typically open from 9:00-18:00 Mondays to Saturdays. Many shops are open late on Thursdays and Fridays (typically up to 20:00) and a good number is also open from 12:00-18:00 on Sundays. Pubs open at 10:30 and close at 23:30 Mondays to Thursdays, 0:30 on Fridays and Saturdays. On Sundays, pubs open 12:30 and close at 23:30. Clubs and late night bars typically stay open until 2:30.

- Aviva Stadium
- Custom House
- Dublin Castle
- Guinness and Jameson
- National Conference Centre
- O'Connell Street and the General Post Office
- Saint Patrick's Cathedral
- Temple Bar
- The General Post Office
- The National Museum of Ireland in Kildare Street
- The Phoenix Park
- Trinity College and Library
