Invitation

Dear Attendees,

We are glad to announce the 20th International Conference on Advanced Energy Materials and Research to be held in Dublin, Ireland from August 13-14 2018 organized by Conference Series LLC, UK in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members. This conference is a unique international platform that's a confluence of all stake holders of the ecosystem – Industry, Academia, Researchers, Innovators, Regulators – coming together to present and discuss current topics in Advanced Energy Materials, Solar Energy Materials, Batteries and Energy Materials, Hydrogen Energy, Advanced Nanomaterials, Nanotechnology and Energy Materials, Biomaterials and Surface Science Engineering, Energy Harvesting Materials, Advanced Graphene Materials, Solid Electrolytes, Fuel Cell Technology, Polymer Materials, Electric, Hybrid, and Fuel-Cell Vehicles, Electrical, Optical and Magnetic Materials, Mining, Metallurgy & Materials Science and will be available to discuss with you the latest issues and trends in Advanced Energy Materials: Advanced Energy Materials in addressing global challenges.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Advanced Energy Materials 2018 Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to **Dublin this August.**

Sincerely,
Advanced Energy Materials 2018
Organizing Committee

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ facebook fans Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be
published inrespective Conference Series LLC Journals
Each abstract will be provided with digital Object Identifier by Crossref

About Conference

Advanced Energy Materials 2018 Conference website is attracting 25000+ Energy Materials, Biomaterials, Smart materials, Materials and devices, Polymer Technology, Nanotechnology visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Advanced Energy Materials 2018 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about and Nanotechnology present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

About Conference

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Advanced Energy Materials and Research
- Discuss and apply recent research findings related to Advanced Energy Materials and Research
- Reflect on the place of critical distance in Advanced Energy Materials and Research

Who should attend

20th International Conference on Advanced Energy Materials and Research is exclusively designed for Materials Scientists, Directors, Engineers, Professors, Academic professionals, students, Materials and Nanotechnology organizations, attorneys, philosophers, Materials experts and others engaged in endeavors related to Materials Science and Nanotechnology.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

MajorSessions

- Advanced Energy Materials
- Solar Energy Materials
- Batteries and Energy Materials
- Hydrogen Energy
- Advanced Nanomaterials
- Nanotechnology and Energy Materials
- Biomaterials and Surface Science Engineering
- Energy Harvesting Materials
- Advanced Graphene Materials
- Solid Electrolytes
- Fuel Cell Technology
- Polymer Materials
- Electric, Hybrid, and Fuel-Cell Vehicles
- Electrical, Optical and Magnetic Materials
- Mining, Metallurgy & Materials Science

About Dublin

Dublin is capital of Ireland. It is also the largest city of Ireland. Dublin is in Leinster on Ireland's east coast, at the mouth of the River Liffey. The city has some urban area population of approx.1,345,402. The population of the Greater area of Dublin, as of 2016, was 1,904,806 people. It was founded as a Viking settlement, Kingdom of Dublin was Ireland's principal city following the Norman invasion. Dublin expanded from the 17th century and was the second largest city in the British Empire in 1800. Following the partition of Ireland in 1922, Dublin became the capital of the Irish Free State. Later it was renamed Ireland. Dublin is administered by a City Council. The city is listed by the World Cities Research Network (GaWC) as the global city, with a ranking of Alpha, putting it among the top thirty cities in the world. It is a contemporary centre for education, the arts, administration, economy and industry. There are forty-five colleges and universities in the Ireland state of Dublin. These institutions include four research university, sixteen master's universities, and sixteen baccalaureate colleges, as well as seven associate's colleges. In addition, there are four institutions classified as special-focus institutions.
