Invitation

Dear Attendees,

We are glad to announce the 21st International Conference and Expo on Advanced Energy Materials and Research to be held in Zurich, Switzerland from July 11-12, 2019 organized by Conference Series llc LTD, UK in collaboration with generous support and cooperation from enthusiastic academicians and Editorial Board Members.

This conference is a unique international platform that's a confluence of all stakeholders of the ecosystem – Industry, Academia, Researchers, Innovators, Regulators – coming together to present and discuss current topics in Advanced Energy Materials, Advanced Nanomaterials,Hydrogen Energy and Fuel Cell technology, Solar Energy Materials,Polymer Energy Materials, Crystalline Porous Materials, Catalysis and Energy Materials, Biomaterials for Energy production, Advanced Graphene & 2D Materials, Batteries and Solid Electrolyte Materials, Optical, Electrical and Magnetic Materials, Energy Harvesting Materials, Emerging Technologies for Energy Applications.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting-edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of giving and take. Make it count in your professional life. Attend the Advanced Energy Materials and Research to network with your peers, exchange expertise, and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Zurich, Switzerland this July.

Sincerely,
Advanced Energy Materials 2019
Organizing Committee

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ facebook fans Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be

published inrespective Conference Series llc LTD Journals

Each abstract will be provided with digital Object Identifier by Crossref

About Conference

Advanced Energy Materials 2019 Conference web site is attracting 25000+ Materials Science and Nanotechnology scientists and experts starting from Researchers, Academicians and Business professionals, United Nations agency square measure operating during this field. This distinctive chance that we tend to be our speakers and attendees isn't being offered by the other conference organizers. Through this the abstracts and analysis profiles of our speakers and organizing committee members obtaining world visibility that is a further feature that you simply would be receiving additionally to networking opportunities before, throughout and when the conference.

Advanced Energy Materials 2019 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Energy Materials , Materials science present the most recent research findings, and promote and enhance scientific collaborations around the world.

B2B Meetings

About Conference

Advanced Energy 2019

Objectives

- After participating in this meeting, attendees should be able to
- Discuss emerging issues in about Energy Materials
- Discuss and apply recent research findings related to Energy Materials
- Reflect on the place of critical distance in Materials Science and Engineering

Who should attend

21st International Conference on Advanced Energy Materials and Research is exclusively designed for Scientists and Experts in the field of Energy Materials, Advanced Materials, Materials Science and Engineering, Nanotechnology, Biomaterials, Materials Chemistry and others engaged in endeavors related to Energy Materials and business.

About hosting organization

Conference Series llc LTD is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

Major Sessions

- Advanced Energy Materials
- Advanced Nanomaterials
- Hydrogen Energy and Fuel Cell technology
- Solar Energy Materials
- Polymer Energy Materials
- Crystalline Porous Materials
- Catalysis and Energy Materials
- Biomaterials for Energy production
- Advanced Graphene & 2D Materials
- Batteries and Solid Electrolyte Materials
- Optical, Electrical and Magnetic Materials
- Energy Harvesting Materials
- Emerging Technologies for Energy Applications

12+
Interactive Sessions

5+
Keynote Lectures

50+
Plenary Lectures

5+
Workshops

20+
Exhibitors

B2B Meetings

Supporting Journals

- Innovative Energy & Research
- Journal of Fundamentals of Renewable Energy and Applications
- Journal of Material Sciences & Engineering

12+
Interactive Sessions

5+
Keynote Lectures

50+
Plenary Lectures

About Zurich

Zürich, is the largest city of Switzerland and capital of the canton of Zürich. Located in an Alpine setting at the northwestern end of Lake Zürich, this financial, cultural, and industrial centre stretches out between two forested chains of hills, about 40 miles (60 km) from the northern foothills of the Alps. Two rivers, the Limmat and Sihl, run through the city. Zürich's western and northeastern limitations are formed by the Albis mountains (which include the 2,850-foot [870-metre] Üetliberg, considered the "top" of Zürich, with an idyllic view of the lake, mountains, and city) and by Zürichberg, a wooded hilly area. Area city, 34 square miles (88 square km). Pop. (2010) 372,857. In the mid-19th century the University of Zürich (1833), maintained by the canton, and the Swiss Federal Institute of Technology (1855) were founded. The University of Zürich was the first university in Europe to accept female students. Zürich also boasts a long line of Nobel Prize winners among its citizenry, particularly in the fields of physics (Wilhelm Conrad Röntgen, 1901; Albert Einstein, 1921; and Wolfgang Pauli, 1945), chemistry (Richard Ernst, 1991), and medicine (Rolf Zinkernagel, 1996). Noted Zürich-born authors include Gottfried Keller, Conrad Ferdinand Meyer, and Max Frisch. Zürich is at the core of a constantly expanding metropolitan area that encompasses parts of central, northern, and eastern Switzerland. It is the industrial, financial, and cultural centre of the country and one of the most cosmopolitan and dynamic Swiss cities. Throughout the city centre, green space extends to the shores of Lake Zürich, which are lined by attractive public parks, and up to the slopes of Zürichberg. The city has a diverse ethnic composition; more than one-third of its population is made up of immigrants. The largest immigrant groups are from Italy, the Balkans, Portugal, and Germany. There is also a small population of non-European immigrants. The integration of immigrants, particularly those displaced by conflict in the Balkans and those from non-European countries, posed a series of problems, especially for schools, at the end of the 20th century and beginning of the 21st. The resulting ethnic tensions eased, however, with the city's introduction of social programs targeted at immigrants and as tighter restrictions were instituted for immigration from outside the EU. Switzerland and Zürich were not inundated with as many migrants as other western European countries were during the migrant crisis of 2015–16, partly because the Muslim diaspora in Switzerland was small, making it a less attractive destination for those fleeing the Syrian Civil War and other turbulent events in the Middle East and Africa.
