INVITATION

Dear Attendees,

We are glad to announce the **26th International Conference on Advanced Materials, Nanotechnology and Engineering** to be held in **Brisbane, Australia** on **June 17-18, 2020** organized in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members. **Advanced Materials 2020** aims at sharing new ideas and technologies amongst the professionals, industrialists and students from research areas of Advanced Materials 2020. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. 26th International Conference on Advanced Materials, Nanotechnology and Engineering amid June 17-18, 2020 at Brisbane, Australia. This consolidates incite keynote presentations, Oral talks, Poster presentations and Exhibitions.

Sincerely,

Advanced Materials 2020

Organizing Committee

Advanced Materials 2020

ABOUT US

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

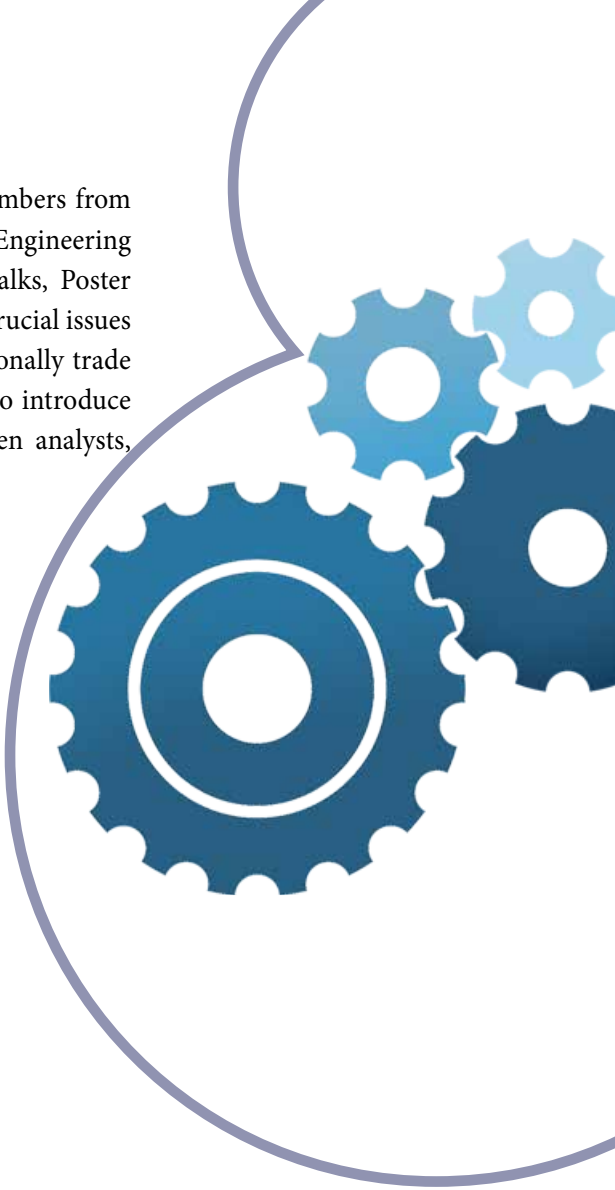

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

ABOUT CONFERENCES

Conference Series llc Limited ,takes enormous delight to stretch out our warm welcome to welcome every one of the members from everywhere throughout the world to go to 26th International Conference on Advanced Materials, Nanotechnology and Engineering in June 17-18, 2020, Brisbane, Australia, which will contains enthusiastic debates, provoke keynote introductions, Oral talks, Poster presentations, workshops and systems administration openings around a center of whole and simultaneous sessions in light of crucial issues in the Advanced Materials sector. Advanced Materials 2020 is a discussion to investigate issues of common worry and additionally trade information, share proof and thoughts, and produce arrangements. The principle focal point of Advanced Materials 2020 is to introduce inquire about discoveries, examine look into system and strategy issues, and assemble and keep up basic systems between analysts, professionals, arrangement producers and agents of shopper associations.

Advanced Materials 2020 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 150+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientist's representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through.
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about International Conference on Dermatology , present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

ABOUT CONFERENCES

Objectives

- After participating in this meeting, attendees should be able to
- Discuss emerging issues in Dermatology
- Discuss and apply recent research findings related to Dermatology and Skin Diseases.
- Reflect on the place of critical distance in Dermatology Research.

Who should attend?

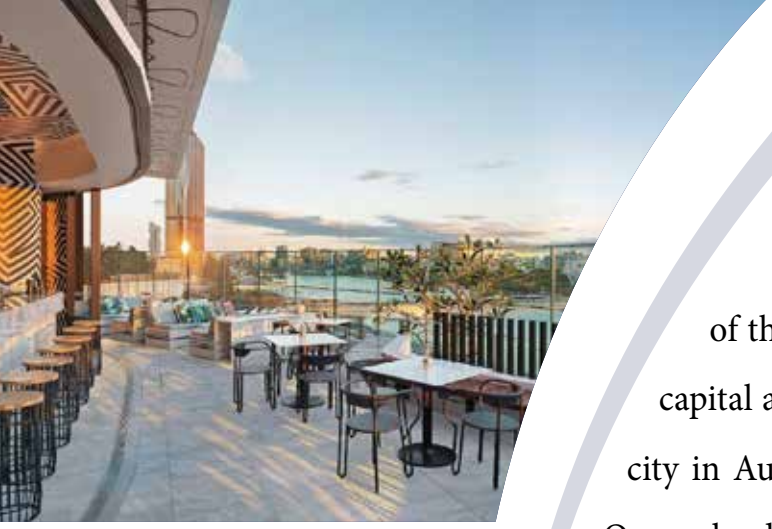

- Academicians including Professors, PhD Scholars, Students carrying out laboratory and field studies, Industrial Giants, Physics Societies and the people Associated, Nobel laureates in skin growth, skin ailments, Allergy manifestations, Dermatological maladies, Clinical Dermatology and Cosmetic Dermatology.

Conference Sessions

- Spintronics, Optical Materials and Plasmonics
- Carbon Nanostructures and Grapheme
- Science and Technology of Advanced Materials
- Advanced Materials and Research
- Nanotechnology & Advanced Materials
- Optoelectronics
- Microstructure and characterisation of materials
- Structural engineering and Aerospace structures
- Ceramics, Polymer and Advanced fibre composites
- Nanoparticle and Nanoscale Research
- Biomedical Nanotechnology
- Advanced Functional Materials and Nanoscience
- Cluster Science and Nanotoxicology
- Fundamentals and Applications of Photonics and Nanostructures
- Nanosensors and other devices
- Nanometrology and Instrumentation
- Electronic and Magnetic materials
- Advanced ceramics and Improving different materials properties
- Characterization and evaluation of advanced engineering materials
- Development of New Advanced Materials

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ ScientificSocieties. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by CROSSREF.

ABOUT BRISBANE

Brisbane is one of the oldest cities in Australia; it was founded upon the ancient homelands of the Turrbal and Jagera peoples. Named after the Brisbane River on which it is located, is the capital and most populous city in the Australian state of Queensland, and the third most populous city in Australia. Brisbane's metropolitan area has a population of 2.3 million, and the South East Queensland urban conurbation, centred on Brisbane, encompasses a population of more than 3 million. The district stands on the original European settlement and is situated inside a bend of the Brisbane River, about 15 kilometres (9 miles) from its mouth at More ton Bay. The urban area, including the central business district, are partially elevated by spurs of the Herbert Taylor Range, such as the summit of Mount Coot-that, reaching up to 300 metres (980 ft.) and the smaller Enoggera Hill. Other prominent rises in Brisbane are Mount Gravatt and nearby Toomey Mountain. Mount Petrie at 170 m (560 ft.) and the lower rises of Highgate Hill, Mount Ommaney, Stephens Mountain and Whites Hill are dotted across the city. Also, on the west, are the higher Mount Glorious, (680 m), and Mount Nebo (550 m).

Brisbane has a humid subtropical climate with hot, humid summers and dry moderately warm winters. Due to its proximity to the Coral Sea and a warm ocean current, Brisbane's overall temperature variability is somewhat less than most other Australian capitals, particularly in winter.

Brisbane has seen consistent economic growth in recent years as a result of the resources boom.

IMPORTANT DATES

Abstract Submission Opens:	**September 01, 2019**
Registration Opens:	**September 01, 2019**
Early Bird Registration:	**January 30, 2019**
On Spot Registration:	**June 17, 2020**
