About Dubai

Dubai, the 7th most visited city of the world according to 2013 report is an emirate in in the United Arab Emirates known for luxury shopping, ultramodern architecture and a lively nightlife scene. At its foot lies Dubai Fountain with its jets and lights choreographed to music. On artificial islands just offshore is Atlantis, The Palm, a resort with water and marine-animal parks. Dubai is a growing knowledge hub that includes a significant number of universities and research centres committed to paving the way for technological and scientific advancements. Dubai is a city in the United Arab Emirates, located within the emirate. The emirate of Dubai is located on the southeast coast of the Persian Gulf and is one of the seven emirates that make up the country.
