INVITATION

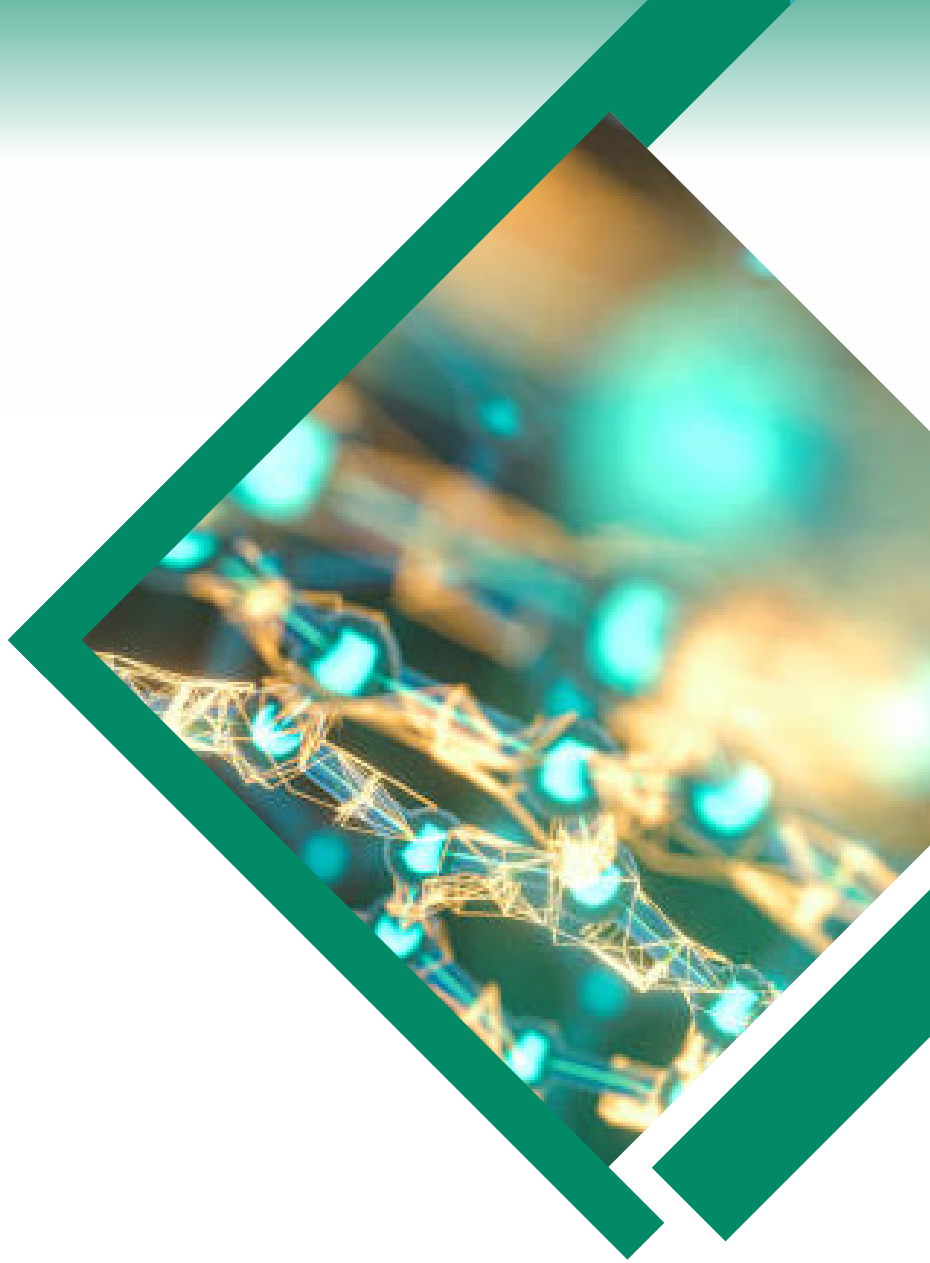

Dear Attendees,

We are glad to announce the "39th International conference on Advanced Nanotechnology & Nano electronics" to be held in Rome, Italy on August 29-30, 2022 organized in collaboration with generous support and cooperation from Nanoelectronics enthusiastic academicians and editorial Board Members. Advanced Nano-2022 aims at sharing new ideas and technologies amongst the professionals, industrialists and study Nanoelectronicss from research areas of Nanoelectronics and it's Research. As the premier, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge on Nanoelectronics, special panel discussions, and live interactions with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. "39th International conference on Advanced Nanotechnology & Nano electronics amid August 29-30, 2022 at Rome, Italy. This consolidates incite keynote presentation, Oral talks, Poster presentation Nanoelectronics and Exhibitions.

Sincerely,

Advanced Nano-2022 Organizing Committee

ABOUT US

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ scientific Associations Collaborations
- 100000+ Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

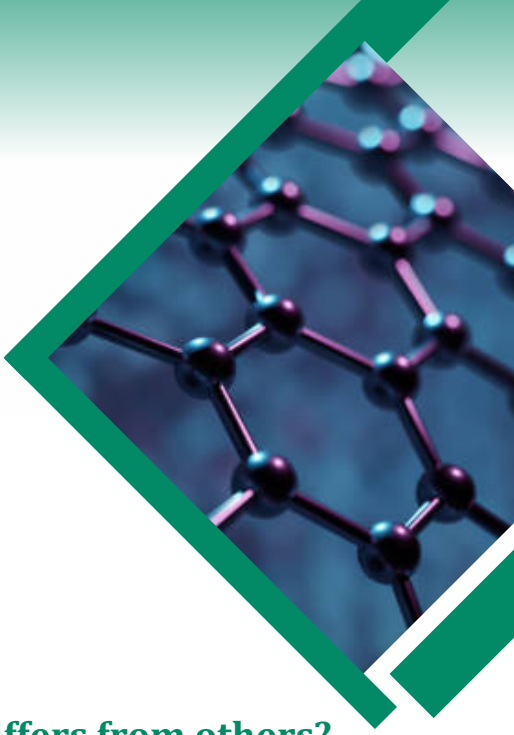

Our International SciNanoelectronicsific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal develop Nanoelectronics
- Continuum of education through organized scientific program
- Renowned speakers and scientsists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for study and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Notification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

ABOUT CONFERENCES

Conference Series LLC Ltd. is delighted to welcome you to its "**39th International conference on Advanced Nanotechnology & Nano electronics** " (Advanced Nano-2022) which is going to be held during **August 29-30,2022 Rome, Italy** focuses on the theme "**The Future Of Nano electronics In Addressing Global Needs Is Evident For Renewable Energy**."

This **Advanced Nano-2022** is the international platform which brings together the collection of investigators who are at the forefront in the field of Nanotechnology. The scientific program will include oral presentation of sub-disciplines, keynote sessions led by eminent scientists and poster sessions presentation interactively by junior scientists and graduate study Nanoelectronics. This Nanotechnology congress is the ultimate meeting place for all the experts worldwide for new interdisciplinary scientific collaborations and networking.

With its scientific sessions, you are provided assurance to explore the latest technologies and breakthroughs that are specific to your area of work. No doubt the evidence has a broad scope of topics and continued in parallel sessions relative to the specific area of research.

We look forward to welcoming you to this in-person nanotechnology conference, and to the many exciting presentation and discussions through which we plan to share and advance knowledge of Nano electronics at Rome, Italy.

Nanotechnology features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentation and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 150+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientist's representation
- Career guidance for early career researchers and study
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional develop Nanotechnology experience through.
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about 39th International conference on Advanced Nanotechnology & Nano electronics , presentation the most recently research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientific , and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services

ABOUT CONFERENCES

Objectives

- After participating in this meeting, attendees should be able to
- Discuss emerging issues in Nanotechnology
- Discuss and apply recently research findings related to Nanotechnology.
- Reflect on the place of critical distance in Nanotechnology Research.

Who should attend?

Advanced Nano-2022 is an international platform for presenting research about diagnosis, prevention and management Nanoelectronics and exchanging ideas about it and thus, contributes to the dissemination of knowledge in Nanoelectronics and Otology for the benefit of both the academia and business.

The organizing committee of this Nanotechnology Conference is gearing up for an exciting and informative conference program including plenary lectures, symposia, workshops on a variety of topics, poster presentation and various programs for participants from all over the world. We invite you to join us at the Advanced Nano-2022, where you will be sure to have a meaningful experience with scholars from all around the world. All members of the Advanced Nano-2022 and Organizing Committee look forward to meeting you in Rome, Italy.

- Nanotechnology
- Molecular nanotechnology
- Nanofabrication
- Nanomaterials
- Nano metrology
- Molecular Engineering
- Nanomechanics
- Nano tribology
- Nano sensors
- NANOPOLYMERS
- Carbon Nanotube Spintronics
- Nanomedicine
- Helium Ion Microscopy and Spectroscopy
- Nano sphere Lithography
- Nanowire arrays

About hosting organization

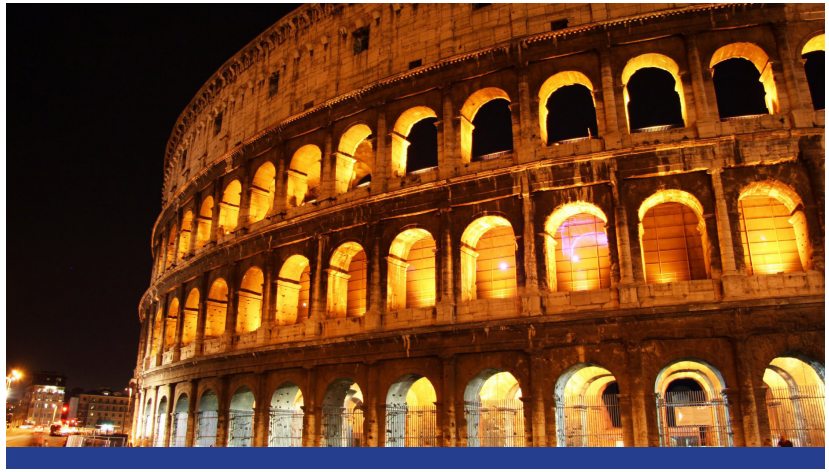

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions Differ in Nanotechnology verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global evident inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by CROSSREF.

ABOUT ITALY

Rome's history spans more than two and a half thousand years, since its legendary founding in 753 BC. Rome is one of the oldest continuously occupied cities in Europe. It is referred to as "The Eternal City" (Latin: Roma Aeterna), a central notion in ancient Roman culture. In the ancient world it was successively the capital city of the Roman Kingdom, the Roman Republic and the Roman Empire, and is regarded as one of the birthplaces of Western civilisation. Since the 1st Century AD, Rome has been considered the seat of the Papacy and in the 8th Century it became the capital of the Papal States, which lasted until 1870. In 1871 Rome became the capital of the Kingdom of Italy, and in 1946 that of the Italian Republic.

After the Middle Ages, almost all the popes since Nicholas V (1422–55) pursued coherently along four hundred years an architectonic and urban program aimed to make of the city the world's artistic and cultural centre. Due to that, Rome became first one of the major centres of the Italian Renaissance along with Florence, and then the birthplace of Baroque style. Famous artists and architects, such as - to name just a few - Bramante, Michelangelo, Raphael and Bernini, made of the city the centre of their activity, creating masterpieces like St Peter's Basilica, the Sistine Chapel, Raphael Rooms and St. Peter's Square.

Rome has the status of a global city. In 2011, Rome was the 18th-most-visited city in the world, 3rd most visited in the European Union, and the most popular tourist attraction in Italy. Its historic centre is listed by UNESCO as a World Heritage Site. Monuments and museums such as the Vatican Museums and the Coliseum are among the world's most visited tourist destinations with both locations receiving millions of tourists a year. Rome hosted the 1960 Summer Olympics and is the seat of United Nations' Food and Agriculture Organization (FAO).
