About Beijing

Beijing (formerly Romanized as Peking) is the capital of the People's Republic of China and the world's third most populous city proper. It is also one of the world's most populous capital cities. Beijing is the second largestChinese city by urban population after Shanghai and is the nation's political, cultural, and educational center. It is home to the headquarters of most of China's largest state-owned companies, and is a major hub for the national highway, expressway, railway, and high-speed rail networks. The Beijing Capital International Airport is the second busiest in the world by passenger traffic. The city's subway network is among the longest and busiest in the world. The city is renowned for its opulent palaces, temples, parks, gardens, tombs, walls and gates, and its art treasures and universities have made it a center of culture and art in China.

Beijing has seven UNESCO World Heritage Sites – the Forbidden City, Temple of Heaven, Summer Palace, Ming Tombs, Zhoukoudian, as well as parts of the Great Wall and the Grand Canal. Beijing hosted the 2008 Summer Olympics and was chosen to host the 2022 Winter Olympics, which will make it the first city to ever host both events.

Beijing's primary airport is the Beijing Capital International Airport (IATA: PEK) about 20 kilometers (12 mi) northeast of the city center. The airport is the second busiest airport in the world after Hartsfield-Jackson Atlanta International Airport. After renovations for the 2008 Olympics, the airport now boasts three terminals, with Terminal 3 being one of the largest in the world. Most domestic and nearly all international flights arrive at and depart from Capital Airport. It is the main hub for Air China and a hub for China Southern and Hainan Airlines. The airport links Beijing with almost every other Chinese city with regular air passenger service.
