About Yokohama
Yokohama is located in the centre of Japan, along the coastline of Japan's Pacific Ocean, and one of the 15 Japanese Government-designated cities. The total population of Yokohama is 3.7 million persons, making the city the second largest after Tokyo's 23 Wards. A number of foreign enterprises have established their branches in Yokohama by taking full advantage of the Yokohama Port which is an international trading port. Yokohama is a city of dreams for every Japanese person as well as its local citizens who are very proud of living here because it is not only very famous as a tourist mecca, but also has every urban function including, but not limited to, business and culture. Yokohama, is the first harbor city introduced to the world as the entrance to Japan. Since the time its port was opened, Yokohama has been vigorously acquiring new cultures and information from foreign countries and introducing to Japan our country's first-time-ever things from food to a wide range of cultures.
