Host City

The premier capital of Northern Europe is Scandinavia's most fantastic city and the center of the most dynamic region in Europe, the Oresund Region. The city is one of Europe's oldest capitals with an exclusive royal touch - the monarchy in Denmark is the oldest in the world. Here you'll find what you need to know about the beautiful city of Copenhagen. Because of the fascinating architecture, many parks, gourmet restaurants and other attractions Copenhagen is a very popular place to be. Copenhagen has been nominated the best city by several organizations for livability, sustainability and other factors..

Also: Don't miss our popular list of arrivals and departures at Copenhagen Airport. In Copenhagen you will find a wide range of entertainment, culture and shopping. You can enjoy a continental atmosphere and visit the classic destinations such as Tivoli Gardens amusement park and the Copenhagen Zoo. The city is historic and at the same time very youthful and innovative. Many visitors come here to enjoy the great food.

Attractions and Sights: Copenhagen, also known as Kongens village, has beautiful docksides to wander along and the famous pedestrian promenade Stroget (Stroget) which stretches from the Town Hall Square to Kongens Nytorv. There are plenty of stores, large malls, restaurants and cafes. Among the throngs of people, you can even find an occasional good theater or street musician.

Vision & Plan

International Market Approach

The size of aerospace and defense application software market worldwide since 2015 has been growing rapidly. Which took a big leap from 2020 Million USD to 3200 Million USD until now and expected to reach 3700 Million USD by the end of the year 2022 in which Dassault Systemes has the largest share in the field of A&D application software market. In figures and Numbers, the global A&D industry spends a lot less on R&D than other sectors. In terms of innovation, intensity spending is also low which is just above 4 percent. And with the entry of Space X, in its short life has already proven its ability to burst out through the defense business with some new innovations that allow it to recover and reuse booster sections, while other A&D departments battle their rivals at home. Northrop Grumman, Lockheed Martin, and other major leagues are planning to invest in advanced weapons development.

The revenue grew in 2017 for the A&D industry Globally. The A&D sector had increase in its revenue up by 3.9 percent which is the main cause for the overall growth. Security threats, increase in defense budgets, and increases spending on defense by countries such as India, China, and Japan also has contributed for this growth.Apart from the global commercial aerospace sector growth has its slopes with 1.5 percent.
