Major Sessions

Sustainable Agriculture
Plant and Crop Science
Plant Fertilization and Protection
Postharvest Physiology and Technology
Seed Science and Technology
Soil Science and Technology
Food Processing and Packaging Technologies
Organic Agriculture
Weed Science
Forestry Sciences
Horticulture
Food Science and Technology
Global Food Loses and Food Waste
Food Biotechnology
Probiotics and Health
Nutrition and Diet Management
Aquaculture
Fish farming
Aquatic Pathology and Physiology
Fish Hatchery & Stocking
Aquaponics
Fisheries Biology & Management
Fish Pathology
Mariculture
Aquatic Plant farming

Supporting Journals

Journal of Food Processing & Technology
Journal of Plant Pathology & Microbiology
Journal of Aquaculture Research & Development

Host City

Amsterdam rings a bell for everybody. It's an exciting place wherever there's perpetually one thing going on; whether or not it's an enormous dance event like drinkable, a gap of a replacement Michelin star building or a large sport event. Grab a motorcycle and explore town because the locals do. Vanquish the canal Bridges take a nap within the Vondelpark and have a sneak Peek at the red lightweight district. Amsterdam is among the highest ten most significant commercial centers within the world, and is that the fourth most influential business center in Europe, following only urban center, Paris and London (source: MasterCard Worldwide Centers of Commerce Index). The Union of International Associations (UIA) named town one among the top ten international convention sites. And as an urban area dedicated to environmental innovation, Amsterdam earned a spot in concert of the eight finalists for the first-ever European inexperienced Capital Awards. One among the explanations for the country's accessibility is capital of The Netherlands field Schiphol. This field offers wonderful connections to native, regional and international airports. Additionally, transport is well organized and offers an honest different to move by automobile inside European nation. The high-speed train network can create Kingdom of The Netherlands even additional accessible in the close to future.

Market Analysis:

Scope:

The Netherlands is the sixth-largest importer of agri-food and seafood products in the world and the second-largest exporter. It also ranks as the third-largest importer and first-largest exporter among EU member states. In 2016 the US Secretary of Agriculture said: "the United Nations estimates that worldwide demand for food will increase 60% by 2050. Some experts estimate it will take as much innovation in agriculture in the next 40 years as in the preceding 10,000 years to meet the growing demand for food."

Forecast market value of smart agriculture worldwide in 2017 and 2022 (in billion U.S. dollars)

Smart farming types including precision crop farming, livestock monitoring and management, indoor farming, aquaculture, and others (forestry and orchids). This statistic shows the forecasted market value of smart farming worldwide in 2017 and 2022. The global market size of smart agriculture is expected to grow from approximately 9.58 billion U.S. dollars in 2017 to 23.14 billion U.S. dollars by 2022.
