Our Programme

Our programme aims to bridge the gap between basic and translational science, with an emphasis on large-scale approaches and innovative technologies in the fields of Aging, Gerontology, Geriatrics, Genetics, Senescence, Nutrition and Healthy Aging, Life Extension Science, Antioxidants and Aging, Aesthetic Medicine, Aging Disorders, Dermatology, and Psychology. We foster discussion and debate of the innovations by maximizing interactions, collaborations and networking opportunities for researchers from academia and industry.

Venue & Hospitality

Malaysia is the only country that includes territory both on the mainland of Southeast Asia and in the islands that stretch between the Asian continental mass and Oceania. According to the World Tourism Organization (WTO), Malaysia has developed into the ninth most visited country in the world, with 23.6 million visitors in 2009. Kuala Lumpur is vibrant mix and incense-wreathed, colourfully decorated mosques and temples of the country's Malay, Chinese and Indian communities. Kuala Lumpur is the capital of Malaysia, boasting gleaming skyscrapers, colonial architecture, charming locals, myriad of natural attractions and trendy nightspot.

Kuala Lumpur is widely recognized for numerous landmarks, including the world's tallest twin skyscrapers (Petronas Twin Towers), Pedaling Street flea market, Batu Caves more than 400 million years old and shopping malls. Kuala Lumpur offers a mouth-watering mix of Asian culinary traditions for the food lovers. Malaysia is a favourite destination for many multinational companies. The Malaysian government is dedicated to creating a dynamic and progressive business environment to ensure potential investors are drawn into a thriving economy. An admiration for these ancient cultures is well balanced with a drive to be plugged into the modern world, as evidenced by an exciting contemporary art and design scene and a buzzing digital economy.
