Dear Attendees,

We are glad to announce the **16th International Conference on Agriculture & Horticulture** to be held in **London, UK** during **August 16-17, 2021** organized by Conference Series llc LTD, UK in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Agri 2021 Conference will be available to discuss with you the latest Innovations and Advancements in Agriculture Research.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts. Life is full of give and take. Make it count in your professional life. Attend the Agriculture Conference

to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to London this August

Sincerely,
Agri 2021
Organizing Committee

About Conference

Agri 2021 Conference website is attracting 25000+ Agronomist, Agriculture searcher and scientist online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Agri 2021 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking Add a little bit of body text.

Special Issues : All accepted abstracts will be
published inrespective Conference Series llc LTD Journals
Each abstract will be provided with digital Object Identifier by Crossref

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience.
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Agriculture and Plant Science present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome food demand in the future.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Agriculture science
- Discuss and apply recent research findings related to Agriculture science
- Reflect on the place of critical distance in Agriculture Science

Who Should Attend?

16th International Conference on Agriculture & Horticulture is among the World's leading Scientific Conference. The two day event on Agriculture & Plant Science will host 60+ Scientific and technical sessions and sub-sessions on cutting edge research and latest research innovations in the field of agriculture, plant science, horticulture & its related reseaches across the globe. With members from around the world focused on learning about Agriculture Science and its advances; this is your best opportunity to reach the largest assemblage of participants from the Agriculture Science and Horticulture community. Conduct presentations, distribute information, meet with current and potential scientists, make a splash with new advancements and developments, and receive name recognition at this 2-day event. World-renowned speakers, the most recent techniques, developments, and the newest updates in Agriculture Science are hallmarks of this conference.

About London

London is the capital city of England and the United Kingdom, and the largest city, urban zone and metropolitan area in United Kingdom, and the European Union by the most measures. Located on the River Thames, London has been a major settlement for two millennia, its history going back to its founding by the Romans, who named it Londinium. London is a leading global city, with strengths in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, profession al services, research and development, tourism and transport all contributing to its prominence. London has been described as a world cultural capital.

London has been described as a world cultural capital. It is the world's most-visited city as measured by international arrivals and has the world's largest city airport system measured by passenger traffic. London's 43 universities form the largest concentration of higher education in Europe. In 2012, London became the first city to host the modern Summer Olympic Games three times. A multicultural city, London has a diverse range of peoples and cultures, and more than 300 languages are spoken within its boundaries. London has four World Heritage Sites: the Tower of London, Kew Botanic Garden, the Palace of Westminster, and St Margaret's Church, National Maritime Museum, and the historic settlement of Greenwich Observatory.

Other famous landmarks are Buckingham Palace, the London Eye, Piccadilly Circus, St Paul's Cathedral, Tower Bridge, Trafalgar Square, and The Shard. London is home to numerous museums, galleries, libraries, sporting events and other cultural institutions, they are the British Museum, National Gallery, British Library and 40 West End theatres. The Railway of London Underground is the oldest underground railway network in the world. London has a temperate oceanic climate, similar to much of southern Britain. London has four seasons: Winters are generally chilly to cold with frost usually occurring in the suburbs on average twice a week from November to March. Snow usually occurs about four or five times a year mostly from December to February. Snowfall during March and April is rare but does occur every two or three years. Summers are generally warm and sometimes hot, the heat being boosted by the urban heat island effect making the centre of London at times 5 °C (9 °F) warmer than the suburbs and outskirts. Spring and Autumn are mixed seasons and can be pleasant.
