SPEAKER SESSSIONS

Session I	**Simpler crop protection through smart herbicide usage**
	Kumar Gauraw, Tata Consultancy Services Deutschland GmbH, Germany
	Laser induced breakdown spectroscopy technique for age verification in rice
	Hitomi K Huong, Nanjing Agricultural University, China
	Assessment and modeling of phytoavailability of green beans contaminated by lead and chromium in bioponic culture
	Loubna Azariz, Mohammed V University, Morocco
	Farmer's decision making toolbox for Plutella xylostella (L.) (Lepidoptera: Plutellidae) management on fresh market cabbage
	M Stemele, Fort Hare University, South Africa
	Break
Session II	**Potential Application of Selected Phosphate Solubilizing Bacteria Isolated from Rhizospheric Soil of Chenopodium quinoa in Plant Growth Promotion**
	Ismail Mahdi, University Mohammed VI Polytechnic, Morocco
	Growth, yield, yield components and quality oil of Sunflower (flame) variety affected by organic, mineral nitrogen and raw spacing
	Saifaddin S. Ali, Salahaddin University, Iraq
	Nitrogen forms effect on macronutrient partitioning in Gerbera (*Gerbera jamesonii*) cut flower
	Mohammad Ali Khalaj,Ornamental Plants Research Center (OPRC), Iran
	An Analysis of Dissemination of Technology and Growth in Agriculture of Jammu and Kashmir
	Altaf Hussain Padder, Annamalai University, India
	Isolation and identification of phosphate solubilizing bacteria from the rhizospheric soil of jujube (sadra) and characterization of their plant growth-promoting activities
	Fahsi Nidal, Mohamed VI Polytechnic University, Morocco
