About Sydney:

Sydney is the state capital of New South Wales and the most populous city in Australia and Oceania.] Located on Australia's east coast, the metropolis surrounds the world's largest natural harbour and sprawls about 70 km (43.5 mi) on its periphery towards the Blue Mountains to the west, Hawkesbury to the north and Macarthur to the south. Sydney is made up of 658 suburbs, 40 local government areas and 15 contiguous regions. Residents of the city are known as "Sydneysiders". As at June 2016 Sydney's estimated population was5,005,400.

Sydney the oldest, biggest, and most beautiful of all Australian cities, lies amid a seductive intermingling of land and sea. Glide along the glittering harbor on a ferry, see the white sails of the Opera House gleaming in the sunshine, and admire the graceful arch of the Harbour Bridge and it's hard to imagine this vibrant state capital was once a brutal convict colony. In 1788, it was at Sydney Cove where Captain Arthur Phillip, commander of the First Fleet, established the first British colony in Australia.

Sydney is a coastal basin with the Tasman Sea to the east, the Blue Mountains to the west, the Hawkesbury River to the north, and the Woronora Plateau to the south. The inner-city measures 25 square kilometers (10 square miles), the Greater Sydney region covers 12,367 square kilometers (4,775 square miles), and the city's urban area is 1,687 square kilometers (651 square miles) insize.

Sydney Opera House, the Sydney Harbour Bridge, The Rocks, Sydney Tower, Darling Harbour, the State Library of New South Wales are some of the numerous tourist attractions in Sydney.
