About the conference

The 5th Global Summit on Agriculture & Organic Farming is set to take place in the vibrant city of Amsterdam, Netherlands, on November 27-28, 2024. This esteemed event will bring together an international community of researchers, industry experts, policymakers, and practitioners to engage in meaningful discussions and collaborations aimed at advancing sustainable agriculture and organic farming practices. Amsterdam, with its rich agricultural heritage and commitment to sustainability, provides an ideal backdrop for this global gathering. Participants will have the opportunity to explore the latest innovations, share their knowledge, and network with peers from around the world in a city renowned for its progressive environmental policies and green initiatives.

Theme: Challenges and Future Directions in Analytical and Bioanalytical Techniques".

Why to attend the conference

This conference is centered on the most recent findings in crop improvement, plant and soil science, organic farming, integrated farming, sustainable agriculture, and agriculture. By attending, you'll access the latest research and trends in organic agriculture, helping you stay at the forefront of the industry. The conference features interactive workshops and sessions that provide practical skills and knowledge you can apply directly to your work. You'll also benefit from networking with peers from around the world, fostering collaborations and partnerships. To improve your possibilities for a successful career in the 5th Global Summit on Agriculture & Organic Farming 2024 encourages you to change, learn, and adopt better strategies.
