AI & IOT 2018

Dear Participants,

On behalf of organizing committee of the International Conference on Artificial Intelligence, Robotics & IoT 2018 we have the pleasure in inviting you to join us for the AI & IoT 2018 on august 21-22, 2018 at Paris, France organized by the Conference series LLC. AI & IoT 2018 is dedicated and designed to bring together interested group of Scientist, Researcher, Engineers, Robo Operators, Academia, Innovators, Students, Business Leaders to discuss, present, and exchange ideas related to Artificial Intelligence, Robotics, Internet OF Things, knowledge based system, Natural Language Processing, Big Data Analysis, Modern Artificial Intelligence, Intelligence Automation, Ethics of Artificial Intelligence, Future of AI, Developments of Robotics, Evolutionary Robotics, Components of Robots, Robots in Industry, role of Robots In Space, Robots and Health Care System, Unsolved question in Robotics, History of Internet, Modeling and Simulation in IoT, IoT & Globalization, Future of Mankind and IoT. The principal objective of AI & IoT 2018 is to provide a prospect for the researchers, scientists, delegates, to interact, discuss and exchange innovative ideas in the various areas of Artificial Intelligence, Robotics & Internet of Things. The prestigious annual conference will be a great platform for everyone to interact with the leading experts from all these fields.

We would be delighted to have your presence at AI & IoT 2018 to interact with leading research hers, experts, scientist, innovators, industry leaders. We would also love to hear your thoughts and opinions about the AI & IoT 2018.

The organizing committee is looking forward to yours confirm presence at Paris, France for AI & IoT 2018.

Sincerely Yours,
AI & IOT 2018
Organizing committee

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ facebook fans Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manuscript in our Open Access Journals

Special Issues : All accepted abstracts will be
published in respective Conference Series LLC Journals
Each abstract will be provided with digital Object Identifier by Crossref

About Conference

AI & IOT 2018 Conference website is attracting 25000+ Professors, Market Leaders, Experts, Students and Online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members are getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

AI & IOT 2018 salient features

- Meet Academia and Expert to get motivated
- Enhance your knowledge and offer solutions to difficulties
- Knowledge and interaction offered under one roof
- Highly organized and systematized scientific programs
- Poster presentation and world class exhibition
- Be introduced to industry leader, innovators and professionals

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all throughout the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Astronomy, Astrophysics and Space Science present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local issues.

AI & IOT 2018

Advantages of Attending the AI & IoT 2018

- To meet Experts in the field of Artificial Intelligence, Robotics & IOT
- To discuss and share knowledge with Scientist, Researchers, Professors, Engineers and Industry Leaders and Business Intelligences
- An opportunity to interact with world's renowned speakers of various fields
- To enhance your knowledge in the field of Artificial Intelligence, Robotics & IoT
- All accepted abstracts will be published in the particular International Journal after conference as conference proceeding
- Each abstract will receive a digital object identification number(DOI).

Who should attend

International conference of Artificial intelligence, Robotics & IoT 2018 is exclusively planned and designed for Scientist, Director, HoD's of Mechanical Engineering, Automation Engineering, Space Engineering, Computer Science Engineering, Electrical Engineering, Physics Department, Mathematics Department, professionals related to Research, Industry, City Planning, CEO, Presidents, Vice Presidents, Market Leaders, Students studying and doing research in the above streams . The AI & IoT 2018 will also be very helpful for those who want to explore the future technologies.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific & Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members and 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

Major Sessions

- Quest for artificial intelligence: Dreams and Dreamers
- Alan Turing and his test
- Knowledge Based Systems
- object-oriented programming
- Natural Language Processing
- Blockchain
- Big Data Analysis
- Data Mining
- Intelligent Automation
- Ethics of AI
- Asimov and Laws of Robotics
- Evolutionary robotics
- Cognitive robotics
- Robotic Sensing
- Social Robot
- Bio-inspired Robotics
- Robotic Surgery
- Orbiters, Rovers, Landers
- Robonaut
- Nanorobots
- Distributed Robotics
- Robots in Industry
- Robotic Governance
- Multi-Level Simulation
- Internet of Things Devices
- Net Neutrality
- Cyber Attack
- Smart Cities & IoT
- IoT: Reducing human creativity?

A Unique Venue- Paris

Paris, famed throughout the world as the “City of Light,”, is the capital of France. The total population of the city is around 2.2 million and the city follows a multi-cultural tradition. From the primeval time Paris has been a global centre of art, science, and philosophy. It is well-regarded for its attractive city plan, architecture, museums, parks, elegant cuisine and abundant monuments. The Seine river divides the city into two parts, known as the Left Bank and the Right Bank. France is one of the permanent members in the UN Security Council.

In terms of economy France is ranked as the world’s ninth largest and the European Union’s second largest economy by purchasing power parity. With29 of the 500 biggest companies in the world in 2017, France ranks fourth in the Fortune Global 500. The economy of the City of Paris is built largely on services and commerce.

Paris, “The culinary capital of the world” has a temperate oceanic climate. The must visiting places in Paris includes Eiffel Tower, Louvre, Musée d’Orsay, Champs-Élysées, etc. Visitors can feel the delightful French landscape as well, with its diverse culture and spectacular scenery. The concept of the Grand Paris, formally came into existence on 1 January 2016. It is an organizational The city has also hosted in the past many International events of sports like 2nd Summer Olympic Games, 8th Summer Olympic Games and the FIFA World cup of 1998. French Open Grand Slam tennis tournament held annually in France on the red clay of Roland Garros. Paris will also host the 2024 summer Olympic games.

when it comes to transportation visitors have a wide range of options. The railway network of France is the second most extensive in Western Europe. France has 464 airports, among which Charles de Gaulle Airport, located in Paris, is the largest and busiest airport of the country linking Paris with all major cities around the Globe.

AI technology is at the core of the future of industry in France and as a major city in France, Paris will play a vital role in the growth of these industries. Robotics, 3D printing, and the automation of logistics processes will be at the heart of these industry. One interesting fact about Paris is that however well you know Paris, there’s always something new to explore
