International Conference on

Artificial Intelligence, Robotics & IoT

August 21-22, 2018 Paris, France

Program Outline

Day-1

Registration	08:00 - 09:00
Inaugural Session	09:00 - 09:15
Keynote/ Plenary talks	
Keynote/ Plenary talk: 1 (**Academia**)	09:15 – 09:45
Keynote/ Plenary talk: 2 (**Industry**)	09:45 – 10:15
Keynote/ Plenary talk: 3 (**Exhibitor/Sponsor slot**)	10:15 – 10:45
Coffee break/ Networking	10:45 - 11:00
Oral Presentations and Panel Discussions	11:00 – 13:00
Lunch break/ Networking	13:00 - 14:00
Sponsor/ Exhibitors presentations	14:00 – 14:30
Oral Presentations and Panel Discussions	14:30 – 16:00
Coffee break/ Networking	16:00 - 16:15
Workshops/ YRF/ Posters/ Video Presentations	16:15 – 17:00
Sponsor/ Exhibitors presentations	17:00 – 17:30
Certificate Distribution & Day 1 conclusion Remarks	17:30 – 18:00

International Conference on

Artificial Intelligence, Robotics & IoT

August 21-22, 2018 Paris, France

Program Outline

Day-2

Registration	08:00 - 09:00
Session introduction	09:00 - 09:15
Keynote/ Plenary talks	
Keynote/ Plenary talk: 1 (**Academia/Industry**)	09:15 – 09:45
Keynote/ Plenary talk: 3 (**Exhibitor/Sponsor slot**)	09:45 – 10:15
Workshops/ Symposium	10:15 – 10:45
Coffee break/ Networking	10:45 - 11:00
Oral Presentations and Panel Discussions	11:00 – 13:00
Lunch break/ Networking	13:00 - 14:00
Sponsor/ Exhibitors presentations	14:00 – 14:30
Oral Presentations and Panel Discussions	14:30 – 16:00
Coffee break/ Networking	16:00 - 16:15
YRF/ Posters/ Video Presentations	16:15 – 17:00
Certificate Distribution & Day 2 conclusion Remarks	17:00 – 17:15

Conference Highlights

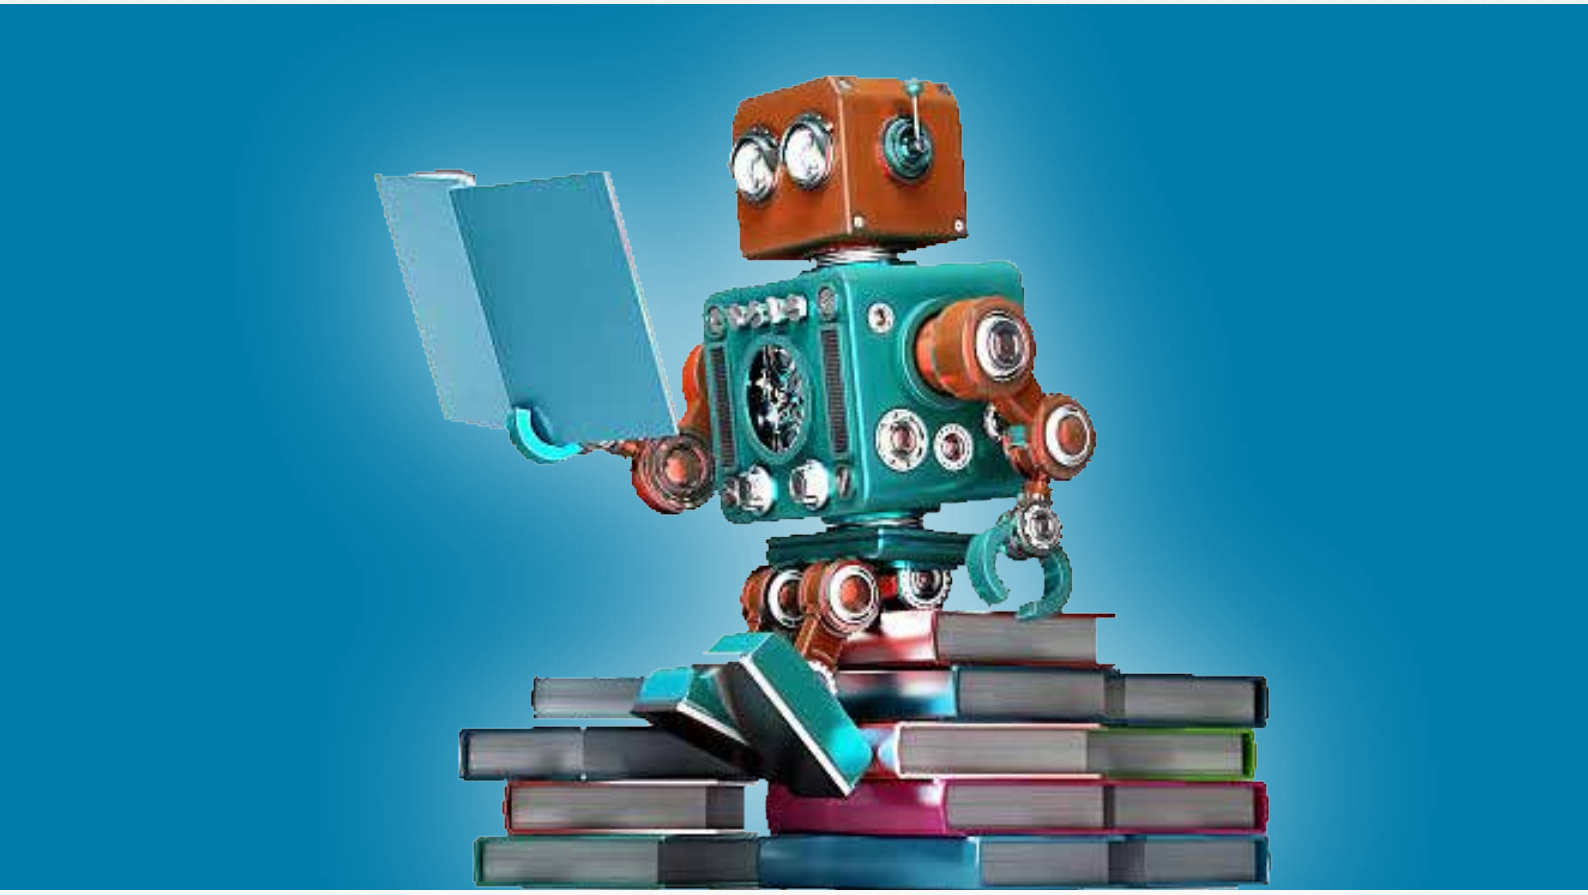

- Quest for artificial intelligence:Dreams and Dreamers
- AI Winter and its Lessons
- Knowledge Based Systems
- Object-Oriented Programming
- Natural Language Processing
- Machine Translation
- Big Data Analysis
- Machine Learning
- AI and Emotions
- AI: Educating the Future
- Intelligent Automation
- Integrating AI with Human
- Machine Ethics
- Philosophy of Artificial Intelligence
- Cyborg Technology
- Ancient era and the Concept of Robot
- Evolutionary Robotics
- Simulated Robotic Agents
- Soft Robotics
- Control Theory
- Robots And 3D Printing
- Disaster Management and Robots
- History of Unmanned Space Robots
- Aerial Robotics
- Nanorobots
- Military Robots
- Robot 'rights'
- The Galactic Network Concept
- Simulation and Market
- IoT and Energy Conservation
- Internet Activism
- High connectivity=Low cost?
- IoT-Agent of change for defence sector

For detailed sessions, please visit: https://artificialintelligence-iot.enggconferences.com

Submit your abstract online at: https://artificialintelligence-iot.enggconferences.com/abstract-submission.php

Register online: https://artificialintelligence-iot.enggconferences.com/registration.php

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement

- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

About Paris, France

Paris, the "City of Light,", is the capital of France. The total population of the city is around 2.2 million and the city follows a multi-cultural tradition. Paris has always been a global hub for art, science, and philosophy. It is famed for its attractive city plan, architecture, museums, parks, elegant cuisine and abundant monuments. The Seine river divides the city into two parts, known as the Left Bank and the Right Bank.

In terms of economy France is ranked as the world's ninth largest and the European Union's second largest economy by purchasing power parity. The economy of the City of Paris is built largely on services and commerce.

Paris, "The culinary capital of the world" has a temperate oceanic climate. Summers in Paris are warm, and winters are cool. A moderate rainfall year-round makes the climate pleasant. Paris attracts around 85 million tourists per year. The must visiting places in Paris includes Eiffel Tower, Louvre, Musée d'Orsay, Champs-Élysées, etc. Visitors can feel the delightful French landscape as well, with its diverse culture and spectacular scenery.

The city has also hosted in the past many International events of sports like 2nd Summer Olympic Games, 8th Summer Olympic Games and the FIFA World cup of 1998. French Open Grand Slam tennis tournament held annually in France on the red clay of Roland Garros. Paris will also host the 2024 summer Olympic games.

The French education system which is highly organised is divided into primary, secondary and higher education. A quarter of the population are in the education system. Higher education in France can be characterized by low cost and high quality of research.

when it comes to transportation visitors have a wide range of options. The railway network of France is the second most extensive in Western Europe. France has 464 airports, among which Charles de Gaulle Airport, located in Paris, is the largest and busiest airport of the country linking Paris with all major cities around the Globe.

AI technology is at the core of the future of industry in France and as a major city in France, Paris will play a vital role in the growth of these industries. Robotics, 3D printing, and the automation of logistics processes will be at the heart of these industry. so, attend the AI & IoT 2018 in Paris with all your ideas, vision & dream about our future.
